The condition of Harry Cogil, the York boy who had his legs crushed while playing about the turntable in the Elkhorn railway yard, is becoming serious. The left foot was amputated and it is now feared that the right leg will have to come off. The suggen in charge says that he will hardly survive another amputation. The father of the boy has brought suit against the railroad company.

Secretary Morton of the department of agriculture has ordered a discontinuance of the quarantine regulations on Nov. 15. The order will not affect the yards in South Omaha to any great extent, as very little stock was received from districts inside the quarantine lines, unless consigned direct to the slanghterer, and in that case it did not enter the yards at all, but went direct to the killing pens.

The state fish commission held a meeting last week. The principal matter before the commissioners was to audit bills and prepare an estimate to audit bills and prepare an estimate for the next two years' expenses, which they will present to the legislature, and ask to be favorably acted upon. The members say that they have dis-tributed more fish this season than ever before, and the car will be kept

FISCAL YEAR'S ARRIVALS.

The Total Number Aggregated 343,267, of Whom 340.468 Were Landed and 2,799 Were Barred and Deported at the Expense of the Steamship Lines on Which They Came.

WASHINGTON, Nov. 16 .- The commissioner general of immigration, in his annual report, shows that during the last fiscal year the arrivals of immigrants in this country aggregated 343,-2 i7, of whom 340,468 were landed and 2,799 were debarred and deported at the expense of the various steamship lines by which they came. Of those deported 776 were found to be under contract to perform labor and 2,023 were returned as belonging to other prohibited classes. In addition to the number debarred 238, who became public charges within a year after their arrival, were returned to the countries from whence they came. The commissioner general states that he knows of no immigrant landed

in this country during the last year who is now a burden upon any public or private institution. With some ex-ceptions, the physical characteristics of the year's immigration were those of a hardy, sound, laboring class, ac-customed, and apparently well able, to earn a livelihood wherever capable and industrious labor can secure employment. As to occupations, it was composed largely of the classes desig-nated as skilled and unskilled laborers, with some professionals. The amount of money brought into the country by immigrants was at least \$4,917,318 and probably was largely in excess of these figures. "The statistics at hand," the com-

missioner general states, "do not justify the conclusion that our alien The board of managers of the state fai. adjourned their late meeting with-out completing all of the business it had hoped to transact. The report shows that of the total number of immigrants over 14 years of age who arrived during the year, 5,066 could not write and 78,130 could neither read nor write, which is 28.62 per cent of the whole number. Of those who could neither read nor write 31,374 came from Italy, 12,816 from Russia proper, 12,154 from Hungary, 6,107 from Bohemia and Moravia, 5,281 from other parts of Austria-Hungary, 2,473 from Ireland, 4,565 from Arabia and Syria and 1.589 from Portugal. Mrs. Beebe Says She Would Not Be Without Them for Any Inducement -Cured Her of a Bad Case of

Chronic Rheumatism.

From the World-Herald, Omaha, Neb. Mrs. Henry T. Beebe, who for the past fourteen years has resided at No. 2411 Caldwell street, Omaha, Nebraska, an enthusiastic admirer of Dr. Williams' Pink Pills for Pale People. Mrs. Beebe says she would not be without Pink Pills for any inducement, as they have proved to be such a blessing to her in the past few years.

For many years Mrs. Beebe has been a sufferer from a severe and very pe-culiar form of chronic rheumatism, which gave her no rest night or day. Up to three years ago she did not know what it was to be relieved from pain and at times, usually at night, she was tortured with a concentration of rheumatism in some one joint, usually in the cords of the wrist. After trying several kinds of remedies recommended by her friends, she began taking Pink

Pills, and quickly found relief. Mrs. Beebe says: "There is no doubt about it, Pink Pills cured me, and I will never be without them as long as I can get them. I never fail to recom-mend them to anyone who is suffering from rheumatism, as they have done so much for me, and I know they will

do it for others. "For years I was troubled with rheu-

do it for others. "For years I was troubled with rheu-matism in its worst form. There was hardly a minute that I did not suffer, during a period of twenty years. The pain was not always in the same place, but was all through the system. Dur-ing the day, while I was not at all free from pain, it was not so bad as at night, when the pain seemed to concentrate in one spot, and was so intense that sleep was impossible for me or anyone around me, and I have paced the floor all night. At times the cords of my wrist would become cramped and knotted so that it would seem as if something was gnawing through the bone, and the place would be black and blue for days after. "At last, after I had tried several other kinds of medicines without any effect, I tried Pink Pills, and had not taken one box when I saw that they were helping me right along. When I had taken the second box the rheuma-tism was entirely gone, and I have not had it since, and that was three years ago. Since I have been cured I have feit like another woman. I cannot speak too highly for Pink Pills for Pale People, and I would recommend them to anyone that is suffering from any form of rheumatism. They are the mildest medicine I have ever taken. Why, you can let one of the pills lie on your tongue until it dissolves, and only a pleasant taste will result from it. One does not notice the action of the pills either, but they do more work in a given time than a dozen of the or-dinary bitter pills." When asked how she came to take Pink Pills, Mrs. Beebe said: "Well, I saw in the paper a statement that was

When asked now she came to take Pink Pills, Mrs. Beebe said: "Well, I saw in the paper a statement that was sworn to by a man that had suffered from nearly the same trouble that I had, only I do not think it was quite so had, only I do not think it was quite so severe, and I thought surely they would not put in a false affidavit, and I was positive that no one would swear to a falsehood, they ought not to at least, and as it would cost only fifty cents to try it, I bought a box with the re-sults I have just related to you."

They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. They build up the blood, and restore the glow of health to pale and sallow checks. In men they blood, and restore the glow of health to pale and sallow cheeks. In men they effect a radical cure in all cases aris-ing from mental worry, overwork or excesses of whatever nature.
