Thanksgiving Day Proclamation. Following is Governor Holcomb's proclamation in reference to Thanksgiving: Whereas, It is provided by statute that the governor shall, by proclamation, set apart one day in each year as a day of solemn and public thanksgiving to Almighty God for His blessings to us as a state; Now, therefore, I, Silas A. Holcomb, governor of the state of Nebraska, in conformity to law and in harmony with the proclamation of the president of the United States, recently issued, hereby designate and set apart Thursday, the 26th day of the present month of November, to be observed as a day of thanksgiving and praise to the all-wise Creator for the many blessings so graciously bestowed upon the people of our commonwealth. It is fitting and proper that we should as a people render unto Him humble thanks and sincere gratitude for the many evidences of divine favor which we are permitted to enjoy. The labors of all our citizens for the year now drawing to a close in the various branches of industry have not been without recompense. Beautiful crops have rewarded the toil of the husbandmen. Peace and tranquility prevail. The spirit of progress and advancement to a higher and better civilization exists among our people. Let us, therefore, on this day abstain from secular employment in our accustomed places of worship and around the family altar and render unto God praise and thanksgiving for these many evidences of His kindness and humbly petition to the throne of grace for a continuation of the favors of Divine Providence unto us as a people, and as a great commonwealth and as a nation. Let us also remember the needy poor, the sick and the distressed not alone in our supplications but by deeds of charity and substantial gifts of those things which will alleviate suffering and distress, for "inasmuch," says the Lord, "as ye have done it unto one of the least of these my brethren, ye have done it unto Me." In witness whereof I have hereunto set my hand and caused to be affixed the great seal of the state of Nebraska. Done at Lincoln this twelfth day of November, in the year of our Lord, one thousand eight hundred and ninety-six, the thirtieth year of the state, and of the independence of the United States the one hundred and twenty-first. SILAS A. HOLCOMB, Governor. By the governor: J. A. PIPER, Sec. of State. The various state societies acting in conjunction with the University of Nebraska, have perfected arrangements by which speakers will be supplied to at least fifty or sixty of the farmers' institutes throughout the state. The superintendent is anxious to open correspondence with points desiring institutes or with those who are considering the matter in the hope that all dates may be set and speakers assigned by the end of November. The plan of organization is on the basis of sending to each institute point from two to four capable speakers along with some of the lines directly connected with farming. Among the topics which will be treated are, all the different branches of agriculture and horticulture, dairying, bee-keeping, poultry raising, etc. Blaine county cast, all told, 145 votes. South Omaha authorities are negotiating for a loan. Farmers about Weeping Water are short of corn huskers. Nimrods of Hart county are having great sport in hunting jack rabbits. The Union Pacific is building a second large ice house at North Platte. Rev. E. H. Bryant of Muncie, Ind., will preach Methodism at Wallace the coming year. R. A. Bixby, B. & M. agent at Inland, has been transferred to Garrison, on the Columbus branch. More cornhuskers are wanted in the vicinity of Bennington, Douglas county, than apply for work. The Willard Livery barn at Albion was destroyed by fire. Eleven horses were burned; no insurance. Mrs. Ella Scheller of Omaha attempted suicide by the use of chloroform. Domestic trouble was the cause. Diphtheria in a mild form is reported at David City. Anti-toxine treatment is used and no fatalities have as yet occurred. The new Boone county court house at Albion will be heated by steam. An Omaha plumber furnishes the apparatus for \$2,700. Large numbers of cattle are dying from eating cornstalks. Over 100 hides have been marketed from cattle that have died near Neligh. Bishop Newman's residence in Omaha has terminated and he has taken his departure for the Pacific coast, where he will hereafter reside. Omaha is going to get up a society circus for the benefit of the poor, and will ask the railroads to give reduced rates that outsiders may attend. John Christianson and Wm. Mason are under arrest in North Platte for the robbery of Kin-tin's clothing store in that place. They were captured at Hawkins. Thirteen men sat around the table in a Nebraska City restaurant, and the subject coming up for discussion, it was found that there were fifteen guns in the party. The young people of the United Presbyterian church at North Bend, have inaugurated a plan for education and entertainment during the coming winter. The plan is to take up the studies of the different countries of the world, devoting an evening each week to an interchange of ideas and research. Marion Bollman, or Bakmann, a domestic of Grand Island, in the employ of Mrs. S. A. Conrad, committed suicide by taking strychnine, she gave as the cause of the act that she was lonely. She is said to have come from Alexandria, and has had companions that her stepmother was united to

C. F. Kaul, Madison's brick manufacturer, has received the contract to put up a brick building at the Indian school near Goona. It will require 300,000 bricks. A son of L. C. Larson of Kearney county met with a painful accident in riding a broncho which ran away with him. It ran so close to a barbed wire fence that his leg was terribly lacerated by the barbs. The Columbus fire department is making great efforts to raise money enough by giving entertainments, balls, etc., to entertain the visiting firemen's delegation at the annual state convention to be held in that place in January. The official program of the Nebraska State Teachers' association, the fourteenth annual session, which convenes at Lincoln, Dec. 28, 29, 30 and 31, has been issued by Prof. J. F. Saylor, superintendent of the city schools of Lincoln. A woman, assuming to be the authorized agent of an eastern charitable organization, succeeded in working several Grand Island people for valuable contributions before her true character was made known. She was a base impostor. United States Marshal Boehme was in Omaha last week looking after some of the fellows who have been bootlegging for the past few months. It is rumored that he gathered in four witnesses to take before the grand jury at the next meeting. Steneking, the man convicted at Harrison of cattle stealing and sentenced to three years in the penitentiary, has made a confession and implicated three others, who are now under arrest. They are Hathaway Dodd, John Dodd and Archie Akers. Several of the sugar beet growers about Valley are feeling blue over the loss of the crop, the factory allowing them to ship just a few to make sample tests till they were frozen in the ground, which makes the crop almost an entire loss. An attempt will be made to organize a new church at Syracuse, the members of which shall be made up of those who are dissatisfied with the churches now in existence and of those who cannot how affiliate with any religious organization because of the position taken by some of the clergy in the late campaign. J. F. Bolken of Talmage, a man of 26 years, took a shotgun and went into the timber on the bank of Nemaha creek and deliberately put the barrel in his mouth and shot himself. The tragedy is no doubt the result of temporary insanity, as he had many times before shown that his mind was affected and had often declared his intention of killing himself. Milton Ames, a drayman of Fairmont, met with a serious, if not fatal, accident last week. He was hauling coal from the depot when the train came in. His team became frightened and began to run with the load of coal. In some way Mr. Ames was thrown under the wheels, which passed over him, breaking several ribs and otherwise injuring him. It is reported that the government employes who were dismissed from the service at South Omaha will appeal their cases to the civil service commission and make a demand to be reinstated. Counsel has been employed. The discharged employes assert that they have always attended strictly to business and that spite work is the cause of their removal. The annual meeting of the Nebraska Dairymen's association will be held in the chapel of the State University, Lincoln, on Dec. 15, 16 and 17, 1896. The opening session will be in the evening of the 15th. At this meeting the papers read and discussions had will be altogether on subjects of a practical nature and of interest to all engaged in the dairy industry. A strange accident occurred at the Union school house, three miles west of Berlin. A few minutes before 9 o'clock the large furnace stove fell with a crash among the children who were standing around it. The flames and smoke poured in clouds from the wreck, but the teacher and large scholars carried water and drenched the flames, thus saving the building. Brown, the negro confined in the county jail at Falls city, for robbing Souder's Bros.' department store a few weeks ago, made his escape. The sheriff's son went into the jail to give the prisoners their supper when Brown knocked the boy down and escaped. There was one other prisoner who refused to leave. This is the third man who has escaped in the last three months. The American Chicory company at Fremont has issued a circular to all chicory raisers fixing the price to be paid for the roots at \$9 per ton at the factory at O'Neill. The circular calls attention to the clause of the contracts which fixes the price at \$9 per ton, "if no bounty is paid the company," and the provision requiring the farmers to refund \$1.50 per ton, if they have received \$10.50 per ton for the beets. Ex-Candidate Bryan has arranged to take the lecture platform, and his first address will be made in Atlanta, Ga., early in December. Then he will go to Jacksonville, Savannah, Charleston, Augusta, Birmingham and New Orleans. After leaving the latter city Mr. Bryan will go through Texas, thence on through California and Oregon and will not reach the cities of the east before the latter part of February, 1897. Secretary Norton of the department of agriculture has ordered that the quarantining of cattle at the South Omaha yards cease until Feb. 15. The order will make very little difference to the yard there, as very few cattle from infected districts are received. Occasionally a shipment of cattle from inside the quarantine lines would arrive, but generally they were billed direct to the packers and did not enter the pens at all. A. J. Stoutenberg, who was before the district court of Lancaster county charged with shooting E. W. Ballard with intent to kill, was declared insane and sent to the asylum. He had once before been an inmate of the asylum and had been discharged. The sheep feeding business in Dodge county will be more extensive than at first reported. A conservative estimate places the number which will be fattened this winter at 25,000. Woodruff & Atrya have a flock of 50,000 near Casper, Wyo., that will be fed near Scribner, and grounds have been leased near the packing house.

MCKINLEY AND RAILROADS.

RESULT OF THE ELECTION ON BUSINESS.

BETTER FEELING EXISTS.

Business Not Any Heavier at Present but the Next Year Expected to Bring Renewed Prosperity—Many Employes Saved From Present Idleness—3,000 Carpet Workers Idle. CHICAGO, Nov. 23.—The Railway Age publishes a summary of reports received from 200 railway companies and manufacturers in all parts of the country regarding the effect on business up to date of Mr. McKinley's election. These show that though the railroad business has not picked up at all, but in parts of the West and Southwest has been evidently distinctly worse since election than it was before, the railway companies as a whole have very materially increased their expenditures, especially in increases of shop forces and a very general tendency to purchase more freely. The last fact is shown more conclusively by the reports from manufacturers than from the reports of the companies themselves. A number of companies report that they had all plans made for a reduction in forces in case the election had gone the other way. The railway companies generally have, during the hard times, been keeping up their forces and expenses at a point in excess of what existing business would justify, in the hope of a return of prosperity, and they are now in a position to meet any increase of demands that may be made upon them without further expenditures. The expectation of a revival in the near future is almost universal. There is a curious unanimity in the expression of a belief that this revival will really begin to be felt after the first of January. There is also an evident belief in all directions that this revival will be permanent, that it will last for several years, at least. CARPET MILL CLOSED. More Than Three Thousand Employes Out of Work. YONKERS, N. Y., Nov. 23.—The big tapestry mill of the Alexander Smith & Sons Carpet company closed to-day, throwing from 3,000 to 4,000 hands out of work. It is rumored that Wednesday next the other mills of the company will shut down also, so that there will be 7,000 people out of work at the beginning of the winter. THE ELKS' INITIATION. A Statement as to How Iowa State Chairman Curry Met His Death. DES MOINES, Iowa, Nov. 23.—The body of Democratic State Central Committee Chairman Edward W. Curry, who was killed at an Elks' initiation a week ago, was taken to his home at Leon in charge of Masons and Elks. The Elks have issued a statement as to how he met his death, from which it appears that he sat on a thin sheet of cast iron over a small gas jet, according to an initiation custom of the order, but that instead of jumping up on feeling the heat, as most candidates do, he retained his seat, probably to show his stoicism. When it was seen that he would not rise of his own accord he was led away and it was found that his clothing had been burned away and his flesh slightly blistered. Nevertheless he made a good speech and lunched as merrily as anyone. The next day he went about his business as usual and that night attended a performance by Joseph Jefferson and it was not till the day after that he felt any ill effects from his experience. According to the statement, Mr. Curry's system was in such condition from the excitement of the campaign that any small hurt would have caused blood poisoning. JOY SPENT TOO MUCH. The St. Louis Congressman Charged With Infraction of the Law. ST. LOUIS, Mo., Nov. 23.—The Post-Dispatch says: "On the basis of his statement of campaign expenses filed with Recorder Lewis, Charles F. Joy is not entitled to his seat as Representative from the Eleventh Congressional district of Missouri. Though elected by nearly 4,000 majority, he is liable to be ousted under sections 9 and 10 of the corrupt practices act. Under this act Mr. Joy was entitled to spend \$539 on the voters in his district. He went over this by \$204.50. His liberality will cost him his seat in congress. Congressman-elect Joy said: 'I don't know how much I was entitled to spend under the law, but I hardly think my extravagance will keep me out of my seat in congress.'

NO DEMOCRATIC HARMONY

Senator Morgan Declares That the Fac-tions Will Remain Apart. WASHINGTON, Nov. 23.—Senator Morgan of Alabama said to-day that he did not expect any action on the Dingley tariff bill or the financial question at the coming session of Congress. To the question, "Will the National Democrats be admitted to the Democratic caucuses in the Senate?" Mr. Morgan replied: "Not at all. Not at least without repentance, and neither of them have shown evidences of that. These gentlemen will not wish to associate with men whom they have denounced as anarchists, traitors and dishonest people. It would be expecting too much of them to suppose they would do anything of that kind."

FOLEY LIKELY TO BE HELD.

Little Evidence Secured in the Clay County Murder Case. LIBERTY, Mo., Nov. 23.—The coroner expects to conclude the investigation into the murders of Mrs. Foley and her daughter some time to-day and it is general belief that William Foley, the son and brother of the murdered women, will be held for trial, though it is confessed that the testimony against him is far from sufficient to secure his conviction in court. All sorts of rumors are afloat, but none of those inquired into have amounted to anything.

Russian Thistles Doing Some Good.

ATWOOD, Kan., Nov. 23.—Russian thistles have been blown into the creek beds and packed so closely that they retard the progress of the water, causing it to rise nearly to a level with the banks of the streams and allowing it to seep out, sub-irrigating the land adjacent to the stream. It is thought that this will prove of much benefit to the farmers along the creeks and streams.

MUST DO SOMETHING.

SPAIN IS GROWING TIRED OF GEN. WEYLER.

There Must be Quick Action or He Will Be Recalled—Hopes to Secure a Decided Victory Before Congress Meets—President Cleveland's Action Depends Much Upon Events of the Next Two Weeks. Spain Tiring of Weyler. WASHINGTON, Nov. 18.—It is learned here on authority that the Spanish government has given General Weyler to understand that he must push his operations against the insurgents aggressively and vigorously. Unless he soon achieves a decisive victory over the Cubans it is believed he will be recalled. General Weyler, it is understood, is aware of the alternative and his present campaign in Pinar del Rio is expected to result in an engagement that will put a new aspect on the Cuban situation one way or the other.

General Weyler has all the troops that he can use. There are over 200,000 Spanish soldiers in Cuba and the force under the captain general in his present operations in the field in person is over 60,000 men. Maceo, against whom he is now operating, has under him, it is estimated, about 7,000 men. Spain having fulfilled all of General Weyler's wishes as to troops, now expects results from him. Consul General Lee has acquainted the administration with these facts and the President is at present simply awaiting events and will shape his course by the developments.

It is the hope of General Weyler that he will be able to secure a decided victory before the assembling of congress, December 7. Spain fears adverse action by that body soon after it meets and has urged General Weyler to demonstrate his ability to crush the rebellion within the next two weeks, if possible.

UNCLE SAM'S UNEMPLOYED.

Eleventh Census Labor Statistics—Millions Without Work. WASHINGTON, Nov. 18.—Hon. Carroll D. Wright, commissioner of labor, in charge of the eleventh census, has transmitted to the secretary of the interior a special report on the statistics of occupations. The most interesting feature of the report relates to the question of the unemployed. Similar data relative to the unemployed were collected at the census of 1880, but were not compiled, so this is the first time in the federal census that information of this character has been presented in connection with the statistics of occupations. There were 23,735,661 persons 10 years of age and over engaged in gainful occupations in 1890, of whom 18,821,690 were males and 3,914,571 females. Of these, 3,013,117 males and 510,613 females, or a total of 3,523,730 persons, were unemployed at their principal occupations during some part of the census year ending May 31, 1890.

Of the whole number of persons so unemployed, 1,818,965 were unemployed from one to three months, 1,348,818 from seven to twelve months. This is equivalent, approximately, to 1,139,672 persons unemployed at their principal occupations for the entire twelve months, and this number would represent 5.01 per cent of the total number of persons engaged in gainful occupations in 1890.

Divided as to sex, the approximate number of males unemployed at their principal occupations for the entire census year was 972,000, representing 5.16 per cent of the whole number of males at work, while the approximate number of females unemployed at their principal occupations during the same period was 167,672, representing 4.28 per cent of the whole number of females at work.

WEYLER NOT DOING WELL.

The Spanish Captain General May Be Outwitted by the Rebels. HAVANA, Nov. 18.—No news, official or otherwise, is obtainable here concerning the movements of Captain General Weyler and his army now in pursuit of the insurgent forces under Antonio Maceo in the province of Pinar del Rio, and the insurgents are circulating reports of Spanish defeats. There seems to be ground for the belief that the captain general has not met with the success he anticipated.

It is no longer denied that the insurgents have captured the two quite important towns of Casocorro and Guamara, in Puerto Principe.

As intimated some time ago, there is no doubt that an insurgent army of about 10,000 men is advancing upon the city of Puerto Principe, capital of the province of that name.

FAIR WILL CASE ENDED.

Rumor That a Compromise Has Been Effected With All Concerned. SAN FRANCISCO, Nov. 18.—The contest over the wills of the late James G. Fair ended yesterday by the withdrawal of the so-called pencil will, which had been offered for probate. Dr. Marc Livingston, named as executor under the pencil will, in withdrawing the document, stated that his reason for his action was that the position of Mrs. Nettie Craven might be strengthened.

The unexpected action in withdrawing the pencil will caused great surprise in legal circles, although it is rumored that the retreat of Livingston and Mrs. Craven was the result of a compromise among all the parties interested.

SILVER AND RELIGION.

Novel Church Project of Chicago White Metal Advocates.

CHICAGO, Nov. 19.—The Rev. Flavius J. Brobst, who was an active free silver speaker in the late campaign; Colonel C. A. Crum of the United Silver party; Charles P. Huey, an Episcopalian and secretary of the United Silver party; Professor R. M. Johnson, a Presbyterian and a member of the executive committee of the same organization; David Shanahan, who represents the Catholic sentiment in the movement; George A. Williams, who was prominent in the silver movement; J. P. Bishop and Colonel Drake met yesterday and decided to open a church of non-sectarian character, at which silver as well as religion will be considered. It is expected that some other will be secured, and that Mr. Brobst will become the pastor of what will be called the Church of Humanity.

The founders believe that the recent attitude of some pulpits on the financial question had driven a large number of church people from sympathy with existing organizations. It is not proposed to have Mr. Brobst preach nothing but silver sermons. The founders said yesterday that the pure gospel from the Bible would be preached, and in time it is hoped the church can extend its good influences through humanitarian work, and demonstrate the usefulness of a practical religion to those who care little for it now.

The Congressional Committee at Leavenworth Ready for Its Work.

LEAVENWORTH, Kan., Nov. 19.—Congressman Grout of Pennsylvania, chairman of the congressional committee to investigate the Soldiers' Home, arrived this morning, accompanied by his stenographer, and registered at the National hotel. Congressman Warner of Illinois had not arrived up to noon and Congressman Sayers of Texas, the fifth member of the committee, is not expected until the investigation is well under way, and may not come at all.

The committee will not wait for the absent members, but a majority being here, will proceed at once, and the first session of the committee will probably be held this evening.
