TRAIN ROBBERY RECORD.

Congressman Hubbard Gives Figures to Justify a Stringent Law.

Washington, Jan. 20, Some interesting facts concerning train robberies were presented to the judiciary committee by Representative Hubbard of Missouri, who has introduced a bill to provide the death penalty for the crime. He showed that the number of train "hold-ups" in six years had been 183, in which 73 persons were killed and 58 wounded by shots. The record for 1896 was 23 hold-ups, in which 23 passengers and trainmen were killed, four robbers killed and two injured. The bill is a very severe one and fixes the death penalty or imprisonment for not less than ten years for all "hold-ups" or attempts at train wrecking.

orrespondents Should Be Careful to Follow Instructions as to Full Names and Addresses - Date, Place and Hour

W HE Astrologer again insists that all persons writing him with a view of obtaining free readings in this column, must send full name and address. The name will not be published. The data are often megre, in which case it becomes necessary to

address a personal letter to the applicant. It will therefore be seen that it is quite necessary to give name and post office address. These readings are free, and will be published in order as received. Persons wishing the same length reading by mail can obtain it by sending twelve two cent stamps. Write name and address, year of birth, day of month and hour of day, whether n. m. or p. m. Also state place of birth. Clinton street, Chiago.

The following readings are for this week:

Miss Meg. Mendota, Mo. According to the data furnished, the

zodiacal sign, Scorpio, which Mars rules, was rising at your birth, therefore Mars is your ruling planet or significator.

You are medium height, with a well set figure, and will grow stouter as you grow older Your complexion, hair and eyes, medium: the eyes have rather a sharp, piercing sight. You are very energetic and ambitious, do not like opposition, and will display quite a spirited temper at times; you are a leader, and have the ability to execute plans in a creditable manner; you are fond of soldiers, fireman, surgeons, all manner of military parades, news, etc. If a war would come you would like to go and be right at the front of the battle; you would make a good surgeon. You have far better command of language than this sign usually denotes. Your husband is, or will be, a peculiar temperament, and rather hard to understand, and marriage will only be a trifle over average fortunate, You

and an evil transit of Saturn. F. B., Oceola, Ohio,

are under both a good transit of Jupiter

According to the data the zodiacal sign Aquarius, which Uranus rules, was rising at your birth, therefore Uranus is your ruling planet or significator. The sign Pisces, which Jupiter rules, was intercepted on ascendant, therefore Jupiter is co-significator. You are of medium height; medium to light complexion, hair and eyes; when young your hair was flaxen; you will grow stouter as you advance in years; you are reserved in your manners, yet quite a busy talker; you are inclined to investigate any of the occult and mysterious forces in nature; you are a seeker after truth no matter where you find it: you are naturally an advanced thinker, and was born with a kind of knowledge which you never had to study to learn; you just know many things without ever having had to study them, and if asked to explain how you knew this or that you could not tell where it came from; you feel and know things in advance. If you would thoroughly understand this it could be made valuable to you. Saturn will make an evil transit for you soon.

Miss S. S. Marionville, Mo. According to the data furnished the Zodiacal sign Sagittarius, which Jupiter rules was rising at your birth, therefore Jupiter is your ruling planet or significator. You are tall, with slender, well formed figure; medium to light complexion and eyes; the hair, auburn; in general appearance you are commanding, you are joyial, cheerful, happy temperament, you are very ambitious and will be a leader in anything you are interested in; you are kind to animals and especially fond of a horse. REGARDING PASSENGER RATES Decision of the Illinois Railroad and

Warehouse Commissioners. In the matter of the communication of the secretary of the state grange of Illinois dated Jan. 1,1897, embodying a resolution of that body adopted at its December meeting, 1896, asking the board of railroad and warehouse commissioners to reduce the passenger rete from three (3) cents to two (2) cents per mile, the commission is of the opinion that to do so at this time would be unwise and unwarranted and would be unjust to the railroad interest of the state. While some of the great trunk lines in Illinois might be able to stand such a reduction, yet the smaller roads, and those which do almost wholly a local business, and which are now and have been for the last two years struggling for exist-

ence, would be most seriously affected

by it. Such action on our part would simply increase the heavy burdens under which they are staggering now. It is a well-known fact to those who have taken the trouble to investigate the amount of passenger business done by the railroads in Illinois during the past two years that there has been a large decrease in the number of passengers This is due in our judgment not to the amount charged for such service but to the general depression in all lines of business, the low prices of farm products and the unsettled financial conditions which have had their effect on the passenger as well as the freight business.

And it is also a fact, as shown by the sworn reports of the railroads of Illinois that the capital invested in such property has not paid even a fair interest to the stockholder. This question was before us when we revised the freight schedule in 1895, and the whole question was thoroughly con-We did not think then and sidered. neither do we feel now that in justice to both the public and the railroads, because each should stand on the same equality before the law, this reduction should be made at this time. If the country was prosperous our conclu-sions might be different.

The statistics in our office show that for the past three years, 1894, 1895 and 1896, the average amount charged by the railroads per passenger mile is a fraction above two cents, although the maximum allowed them was three

For the reasons above stated we do not feel that this reduction should be made at this time. We are also asked to recommend this reduction to the legislature. In view of our conclusion we do not feel that it would be consistent for us to do so; however, the legislature has the power to regulate the maximum rate which can be charged for passenger service and we leave the matter to their wisdom.
