ing of the minutes was suspended and Hill was recognized by the speaker. He said he wanted to speak in behalf of prompt action on the Trans-Mississippi exposition bill. He moved that the bill, House roll No. 63, be advanced to the head of the list on the general file. Considerable discussion took place, when Eager demanded the previous question, which carried, and Gaylor called for the yeas and nays, the result being, yeas 36, nays 20, absent and voting 15. The bill is now on the general file with sixteen measures ahead of it. The first thing in the afternoon Webster called for the special order of the day. This was the report of a committee appointed to make a preliminary investigation of the affairs of the state treasury. Speaker Galloway announced that the investigating committee, to inquire into the condition of the several state offices, was in order and was ready by Chief Clerk Eager. Pollard moved to adopt the report of the committee. Soderman wanted to amend by referring to a special committee of four, with powers to send for persons and papers. Pollard opposed this. A lengthy discussion took place, at the conclusion of which the house went into committee on the whole on the bill. The committee of the whole proceeded to advance House roll No. 63, by a viva voce vote. By this it appeared that the committee of the whole was more potent in advancing bills than was the house. The bill is to act to protect stock growers and provides that butchers shall keep a record of all beef animals they may slaughter, and that the hides of the same shall be kept for thirty days after killing. The bill was recommended for passage. House roll No. 123 provides for the appraisement and leasing of school lands.
