PROGRESS OF THE EXPOSITION.

The estimated cost of exposition buildings, is \$550,000. It is said that the sum total of cost of Exposition buildings of every kind, including those of different states and of concessionaries, will approximate \$1,000,000.

The contract for grading the lakes and lagoons of the Trans-Mississippi Exposition has been let and the work will be pushed, the contract requiring that the work shall be finished not later than June 25. About 80,000 cubic yards will be moved.

Estimates already submitted fix the probable cost of putting the Exposition grounds in shape for all purposes at \$500,000. The fence enclosing the grounds, nearly completed, will be about five miles in extent.

Nearly \$1,000,000 is in sight, from all sources, for the Exposition. This sum is being constantly added to and it is expected will be more than double by the end of 1897.

The railroads in this territory have already subscribed \$70,000 for the Exposition. Other railroad subscriptions will double this amount.

The legislature appropriation will be available early in July, by which time it is expected the plans for the state building will be completed.

The government appropriation of \$200,000 will be available within ten days. The supervising architect has promised to expedite the plans of the building.

Exhibits of peculiar interests to women will be put in charge of the managers of the Women's department.

Preliminary plans as submitted by the architects give warrant for the prediction that the architecture of the Trans-Mississippi Exposition will be second only to that of the World's Fair. The colonnades will be in brilliant colors. It is to be a Pompeian, rather than a white city. Most of the buildings will be constructed this year.

The wealth, resources and advantages of every county in Nebraska will be fully set forth in the State exhibit, compared with which all former exhibits will be dwarfed into insignificance. The state commissioners, appointed by the governor, will be charged with this work. For those positions most active competition is being made by prominent men all over the state.

Editor Brown, of the Times Independent accused us last week of trying to mislead our readers because we referred to the fact that the thirteen election boards of the county and the canvassing board, according to the findings of the late lamented legislature, had been found guilty of not counting, and reporting 240 ballots that were cast in Sherman county in favor of amendment propositions. Brown, evidently, does not like to suture the legislature for its piece of foolishness in heaping up the expense on the tax-payers by taking up six weeks of its time in the recount business, and so he wishes to dodge the question by heaping up abuse on his contemporary. Better come out like a man and tell your readers what you think of that recount job. Talk about the NORTHWESTERN trying to mislead its readers. Why, bless your soul, we could bring up a string of witnesses that would reach from your office to the court house square who has heard you say that you was a pop for what money there is in it, which fact convinces all fair minded men that you are howling popism for what there is in it.

Of course a sheet that represents dollars instead of principal is not misleading, and of course a man that will publish such a sheet is a fit subject to accuse others of misleading.

"A Swindle" is the name that appears over the office door of a struggling lawyer in the city of Stratford, Ont. A friend of the unfortunate gentleman suggested the advisability of his writing out his first name in full, thinking that Arthur or Andrew Swindle, as the case might be, would sound better and be better than the significant "A. Swindle." When the lawyer, with tears in his eyes, whispered to him that his name was Adam, the friend understood and was silent.—Wisconsin Blade.

According to a new bill which became a law with the emergency clause a few days ago assessors must make a lot of inquiry of each individual about his occupation and several other subjects that are new to assessors. Now it happens that the assessor go to work here on April 1 and many of them are well over their territory. If they are to get this new information they will have to go over the territory a second time. This would entail a heavy expense on the county. Then again the assessors' books have no blanks for recording the required information. Under existing circumstances it would seem impracticable for the law to be enforced this year.—Weeping Water Republican.

The small grain in this neighborhood is all sown and we are now looking for refreshing showers.

Several families are afflicted with measles and others are expecting them soon.

Mr. Heslop is very sick at the present writing.

Henry Beck proved up on his claim last Tuesday.

This is the time of year for people to be poor as the assessor is making his annual visit.

The school in District No. 25 will close in three weeks.

The Tourist Sleeper is an 'up-to-date' car. Maximum comfort at minimum cost, is the principal upon which these cars are built and operated. They run daily from Council Bluffs and Omaha to Ogden San Francisco and Portland. Pullman porters with every car. For further particulars call on or address: F. W. CLINE, Agent.

Every Tuesday evening, a tourist sleeping car for Salt Lake City, San Francisco and Los Angeles leaves Omaha and Lincoln via the Burlington Route.

It is carpeted; upholstered in rattan; has spring seats and backs and is provided with curtains, bedding, towels, soap etc. An experienced excursion conductor and a uniformed Pullman porter accompany it through to the Pacific coast.

While neither as expensively finished nor as fine to look at as a sleeper, it is just as good to ride in. Second class tickets are honored and the price of a berth, wide enough and big enough for two, is very reasonable.

For further information see A. F. WERTS, B & M Agent.

A Buffalo county farmer, living down below Majors, left his farm a couple of years ago and moved to California. He left his farm free from debt, but on returning, recently, found a mortgage of \$1,500 recorded against the property. Investigation developed the fact shortly after he left the land, a sharper showed up in Kearney, assumed the name of the owner of the property, and executed a mortgage on the land for the amount named. The loan agent was unsuspecting and was successfully "worked" by the stranger. It now develops that this scheme has been successfully worked several times in this county during the past two or three years. Who the swindler was or where he is now is of course unknown.—Ravenna News.
