Acting City Marshal Jay Cole was circulating a petition last week in regard to sprinkling the streets the balance of this month. Though the petition was very liberally signed he could not get enough money pledged to pay him for doing the work and the dust will continue to blow. Next year street sprinkling will probably be made a municipal affair, and be under the supervision of the city council. A small tax levy would be sufficient to pay the costs of sprinkling the streets during the summer months. It is to be hoped that the city council will take this matter in hand next spring. We do not believe that the citizens of this city enjoy eating dirt, and a few dollars spent for sprinkling the streets will make life much more pleasant during the long summer months.
