The "Wonder Car"

The Powerful Motor of the Maxwell

This is one of the most marvelous pieces of machinery ever invented. Very powerful with four cylinders cast en bloc it has made the Maxwell famous as "The Car that Laughs at Hills."

Best of all this motor is breaking all low cost records for:

- 1st—Miles per gallon of gasoline.
- 2nd—Miles per quart of lubricating oil.
- 3rd—Lowest year-in-and-year-out repair bills.

We are waiting to take you for a test ride in the car that has broken all low "First-Cost" records, and is breaking all low "After-Cost" records.

LIVE STOCK PRICES AT SOUTH OMAHA

Record Run of Cattle and Values 10 to 15c Lower.

HOG VALUES STILL CLIMBING

Fat Lambs Slow but Generally Steady. Feeders Lively Sellers and Bring Steady to Strong Prices—Fat Sheep Scarce and Fully Steady.

Union Stock Yards, South Omaha, Oct. 12.—The run of cattle yesterday was the heaviest in the history of the yards, some 19,747 head being received. What few cornfed cattle were here sold in about the same notches as a week ago. Of really choice grass beefs, the offerings were comparatively limited, but there was so much "near beef" here and reports from other markets were so bearish in tone that buyers were able to take off anywhere from 10c to 15c on the good cattle and more on the medium and common kinds. Cows and heifers, as well as stockers and feeders, felt the depression and sold around 10c to 15c lower than the close of last week on an average, but the general movement shows a reasonable amount of life considering the size of receipts and the extremely bearish character of reports from other markets.

Cattle quotations: Prime beefs, \$9.75@10.00; good to choice beefs, \$9.00@9.75; fair to good beefs, \$8.30@8.85; common to fair beefs, \$6.75@8.25; good to choice yearlings, \$9.00@9.75; fair to good yearlings, \$8.50@9.00; common to fair yearlings, \$8.50@8.00; prime grass beefs, \$8.10@8.50; good to choice grass steers, \$7.50@8.00; fair to good grass steers, \$7.00@7.50; common to fair steers, \$6.00@7.00; good to choice grass heifers, \$6.25@7.00; good to choice grass cows, \$6.00@6.50; fair to good cows, \$5.25@6.00; canners and cutters, \$4.00@5.00; veal calves, \$7.00@10.00; bulls, stags, etc., \$4.25@6.25; prime feeder steers, \$8.00@8.50; good to choice feeders, \$7.50@8.00; fair to good feeders, \$7.00@7.50; common to fair feeders, \$5.85@6.85; good to choice stockers, \$7.75@8.25; fair to good stockers, \$7.00@7.75; common to fair stockers, \$5.75@6.75; stock heifers, \$5.75@7.00; stock cows, \$5.50@6.25; stock calves, \$6.50@8.50.

Only 2,600 hogs arrived yesterday. Advices from other markets were very bullish, and as the local run was very light, trade opened generally higher, prices being fully a dime above the close of last week. Tops reached \$8.40, and the bulk of sales landed at \$8.10@8.30.

Sheep and lamb receipts totaled 42,000 head. Fat lamb trade was drab all day, but prices were generally steady with the close of last week. Most of the lambs sold around \$8.50@8.65. Feeding lambs were in good request and sold fully steady to possibly a little stronger. The feeder end of several strings moved at \$8.30@8.35, and tops reached \$8.40. Fat sheep showed very little change. Ewes made up most of the supply and tops reached \$6.00.

Quotations on sheep and lambs: Lambs, good to choice, \$8.50@8.65; lambs, fair to good, \$8.40@8.50; lambs, feeders, \$7.75@8.40; yearlings, fair to choice, \$5.75@6.75; yearlings, feeders, \$6.00@7.10; wethers, fair to choice, \$5.50@6.50; ewes, good to choice, \$5.60@6.10; ewes, fair to good, \$4.75@5.65; ewes, feeders, \$4.50@5.50.

Adam Kosmicki, who has been on the ranches of western Nebraska the past year came in last week to visit his many old friends here, also to attend the golden wedding anniversary of his parents.

She leaves eight children and other relatives to mourn her death.

ODD BITS OF NEWS.

Milburn, O.—J. D. Hart exhibited at the county fair a pair of stockings over 100 years old. They were made by his grandmother who picked the cotton, wove it into thread and then knit the stockings. During the storm in Galveston in 1900, they were rescued with difficulty and by the merest accident were saved.

Beloit, Wis.—Clarence Montroy is earning money to pay his way through school by allowing automobiles to run over his body at a mile a minute clip. Then he takes up a collection in the crowd. He also bends horseshoes in his teeth as a side line. He was left an orphan when his father murdered his mother, sister and brother and committed suicide.

Williston, N. D.—When Kenneth Jordan, an eighteen year old prisoner in the county jail, secured the keys from the sheriff and opened the door telling the prisoners they could escape, only one of the twelve took advantage of the offer. The one who escaped was rearrested.

Chester, Pa.—When William Down was entrapped by blue dye in a vat which he was mending, he was overcome by fumes and taken out for dead. After the undertakers had prepared the body for burial and removed it to Down's home, the corpse arose on his bed and screamed: "I'm not dead, and don't you think I am."

Philadelphia, Pa.—It takes fifty cents to commit suicide by the gas route in Philadelphia. When Viola Day grew tired of life, put a pipe on the gas jet, the other end in her mouth and lay down to die, the quarter in the meter ran out and her life was saved.

AFFIRMS LOYALTY TO MAXWELL CAR

Another Year's Contract Ratified by Detroit Firm and A. O. Lewis.

A VERY PLEASANT FORMALITY

But Marks a Milestone in Mutually Profitable Business and Relations. Formal renewal of contract relations between the Maxwell Motor Sales Corporation of Detroit, and A. O. Lewis of this city, have been made in the ratification of the local firm's contract and its return, bearing the signature of Assistant Sales Manager C. E. Stebbins of the Detroit factory. The Maxwell line is thereby assured, for another year, representation which has been found adequate and satisfactory.

While ratification of the contract by the Maxwell people was little more than a mere formality—"Once a Maxwell dealer, always a Maxwell dealer" is an axiom of President Walter E. Flanders—members of the local organization are all enthusiastic over the assumption of another year's alliance.

"We picked the Maxwell in the first place; we believed we could make more money handling it than any other type of cars," said Mr. Lewis. "Our experience has justified our choice. Though the margin of profit on a \$655 car is necessarily small, the volume of sales is great, provided always that the car satisfies its owners as the Maxwell does.

"We are expecting even greater things in the coming season. The cars are larger, handsomer and more powerful than last year's. They will have behind them a sales impetus given by the satisfactory performance of the cars we have already sold. Our own service department has shown its ability to keep every Maxwell car in our territory at top efficiency all the time, and the factory has a magnificent system of keeping us supplied with anything we may need. "Manufacturing economies that have been put in force" at the Detroit, Dayton and Newcastle Maxwell plants have made possible a big cut in the price of the car this year. We are now able to show a combination of style and mechanical ability that is absolutely unique.

The first shipment of the new Maxwells is already on view at the local salesroom, and amply makes good the enthusiasm of the sales force. In addition to a number of mechanical changes, the new Maxwell has a heart-shaped radiator chown, increased seating room, demountable rims, one-man type top and is furnished complete with electrical equipment at the list price. A clutch running entirely in oil is a feature that adds greatly to the smoothness of operation.

In specifications and in general lines the car shows plainly its right to a heritage of sturdiness, descended from a long line of Maxwell ancestors.

London, England.—English women who have always looked on the use of rouge as bad taste, are beginning to use it in large quantities. The makers of cosmetics say that worry from the war is making the women pale and that they are resorting to paints and powders in desperation.

ASHTON PROGRESSING.

Our town is putting in lots of new cement walks and crossings this fall. Among those put in is one on Main street from Joseph Jakubowski's store to the corner by Farhat & Wehber's store; a crossing has been put in across from the school house, and one in front of Charles Jamrog's residence. Walter Morachowski has just finished a

new walk along the west side of his residence property, as also has Mrs. Mary Nargowski and Felix Morachowski. Ignatz Majewski is the architect. There are very few towns in the state the size of Ashton that can boast of more cement walks than we have and every year a large amount is being added to the miles we already have. Ashton Herald.
