A hog case of considerable magnitude developed in Loup City Tuesday. James Bartunek bought two hogs from C. C. Outhouse and while the gentlemen were unloading the hogs one of them got away and ran under the freight train and was cut in twain. Clint immediately claimed it was Jim's hog and Jim claimed it was Clint's hog as it had not been delivered to him before its demise.
We noticed a good way of getting rid of rats the other day, and we hand it on to our friends: Collect some thin chips, pieces of shingles, or tin, and pour over them enough molasses to cover them well. Sprinkle dry lye over them and place them in every rat hole you can find. Like the coy maiden, their love for you will soon cool and they will seek other pastures for their depreddations.
In reviewing the city council proceedings last week we incidentally mentioned that that august body had under consideration the proposition to attach an electric ringer to the fire bell so that in case of an alarm being sent in the connection at central could be made at once and the bell set ringing. Mayor Allen informs us that this can be done at an expense not to exceed \$140, and possibly for \$125. We understand the board is disposed to look with favor on the proposition and it is quite likely that further consideration will be had at the next regular meeting. It is estimated that not less than 600 feet of new hose is needed and must necessarily be purchased.

No such thing as "rubber roofing"

A lot of manufacturers call their roofing "Rubber Roofing," "Rubberine," "Rubberoid"—Rubber-dhis and Rubber-that. The life is all out of rubber if exposed to the daylight for six months. It would be silly to put rubber in roofing, and rubber costs more per pound than roofing sells for for a hundred pounds. There is no such thing as "Rubber Roofing" of any kind. There is no rubber in

Certain-teed Roofing
It is made of the very best Roofing Felt thoroughly saturated in our properly blended asphalt and coated by a harder grade of asphalt which keeps the soft saturation within—the life of the Roofing—from drying out quickly. We have found from long experience in every part of the world and under all kinds of conditions that these are the materials that give the best and the longest service on the roof.
Certain-teed Roofing is guaranteed 5, 10 or 15 years according to whether the thickness is 1, 2 or 3 ply respectively, and if the roof fails to make good you have a responsible guarantee to fall back on. Beware of the product which is misrepresented to you in any way. Your local dealer will quote you reasonable prices on our goods.
