George Plambeck has had two surprises pulled off on him the past two weeks. One week the married people the next week the young people had their way. When did it all happen George.

C. O. Waggoner, Frank Casteel and William Rutherford and son, Harry, were burning the tall grass along their lines Tuesday. If everyone would do this there would be very little snow trouble except in the cuts.

Pugsley and son Leon, Mr. and Mrs. J. P. Hansen. We were glad you came. Come again, for we are always welcome.

The willows on each side of the road from the mill race to the Brown bridge ought to be cut now. Last year there would not have been half the snow in the road if it had not been for those willows. The snow will always keep drifting until it gets to the top of tall grass or willows the road. Save dollars by cutting the willows now. To the road bosses where it is safe won't you please burn the grass on the sides of the road. We are in the neighborhood of blizzards now.

E. G. Taylor had his new mill wheel in motion for the first time Monday evening. Nels Smith has been spending several hours each evening getting it in shape to run. The Brodock Brothers have been enjoying a surprise visit from their brother from Wyoming the past week. The brothers had not met before for forty years. Mr. Brodock has a fine ranch in Wyoming. He is only forty miles from the railroad. Mr. Brodock said that when he first went out there he went by boat up the Missouri river. It took seven weeks; now by rail it takes only a day. Each year Mr. Brodock takes his surplus cattle to the Chicago market. He is on his way home now.

Homor Hughes' little boy set a fire with matches out in the yard last Wednesday. The little fellow seemed to realize what he had done for he immediately tried to put it out. Failing in this he went into the house telling his mother that he was tired and was going to bed. Mrs. Hughes finally got out of him why he was so tired. She ran to the yard and found the fire making great headway toward the grainery. She worked with all her might but could not check the flames. Realizing that without help the grainery, corn crib and barn would soon be in flames, she gave ten rings on the telephone. When ten rings are given on the telephone, no time is lost in getting to the place in trouble. By the time some of the neighbors got there, a hayrack load of hay that was standing in front of the grainery a few feet, was all ablaze. The fire was a few inches from a cob pile that was piled on the north side of the grainery. The grainery had 1,500 bushels of wheat in it at the time.

The flames had got within a few inches of the barn, burned a header box in the barnyard, and had commenced to burn the feed racks. Mr. and Mrs. Hughes are lucky for if there had been a strong wind at the time all the things mentioned could not have been saved, as it was the damage was only slight.
