READ YOUR PAPERS.

"To live as a member of the great white race of men, to share its thoughts and its aspirations, it is necessary that a man should read his newspapers," said United States Senator Sterling, of South Dakota, in an address to the students at the University of South Dakota.

WHY NOT BE FRANK?

"A fat treasury is no sign of sound statesmanship; if so, the present national administration is a flat failure." This is from the Houston "Post."

There isn't a more level-headed, conservative or intelligent class of people than the American farmers. They don't stampede. They are not panicky. They read extensively and think carefully.

Many farmers of Howard county who have in times past voted the populist or democratic tickets are this year turning to the republican party as the Moses to lead them out of the wilderness, which the past administration has led the country into.

an administration with such a record. They are open in their denunciation of the methods, and are outspoken in their intentions to vote for the party of protection.—St. Paul Republican.

The most successful shoppers in the world are inveterate readers of the advertisements in their local newspapers, and their successes are brought about mainly through the advance information gleaned from the advertisements.

The republican press of the country has repeatedly exposed the false claim of the democrats that it was the war that cut off revenue. Statistics gathered from the reports of this administration show that even before the war the democratic tariff law was not an adequate revenue producer.

The inaptitude of a democratic administration has again been demonstrated in the manner of handling the charges preferred against Austro-Hungarian consular officers in this country.

In 1914, when the republicans of New York regained possession of the legislature, their total of pluralities in the legislative vote was \$4,000. This year republican legislative candidates secured total pluralities of 118,000 in spite of the spectacular come-back of Tammany Hall in the New York City contests.

The Chicago "Herald", after taking a poll, reports that twenty-one democratic congressmen favor a revision of the tariff at this session. These twenty-one, joined with the republicans, can control the House.

Don't worry over competition in business. It will stiffen your backbone, scrape the rust from your intellect, and lift you out of the rut of stagnation. Buck up, step up, and you'll get there.

The talker is a man of words; the producer is one of deeds. We can worry along without the one, but never without the other.

Why term it a "handsome profit"? A dollar's worth of soap grease is just as valuable as the same amount in gold.

Don't be eternally asking the advice of your friends. To do so is to admit that you have few brains of your own.

Some men are continually harping on their virtues, but that's because the rest of the world is unable to see them.

As a happy result of sitting tight the king of Greece may preserve his sinner for future sirs.

We energetically protest against the statement that war at its best is barbarous. There is no best.

Dollars and sense make a great team, but neither will travel far in single harness.

THE CHEERFUL CHERUB

I think the grandest poetry I feel it all the time. There's just one thing that bothers me—the crazy stuff worth rhyme!

The "SILENT SMITH"

—Model 8 shows what should now be expected of a typewriter.

Ball Bearing, Long Wearing

The success of the L. C. Smith & Bros. Typewriters has been due to the fact that the wants of the user have dictated its construction. The user has decided in favor of certain improvements now incorporated in Model 8. Among them are:

Silence of Operation—The most silent running efficient typewriter ever placed on the market. Absolute silence has been very nearly attained.

Decimal Tabulator—A help in billing and tabulating. There is no extra charge for this convenience.

Variable Line Spacer—Enables the operator to start on a given line and space from point of starting; also to write on ruled lines whose spacing varies from typewriter spacing. A great help in card work.

Faster Ribbon Feed—Insures new place of impact for each typeface.

Choice of Carriage Return—Upon special order the new left hand carriage return will be furnished in place of the right hand return.

All the important features of previous models have been retained—all ball bearing carriage, typebars and capital shift, back spacer, key-controlled ribbon, removable platen, protected type, flexible paper feed and automatic ribbon reverse.

Write for New Catalog of Model 8. It will explain why the L. C. Smith & Bros. Typewriter is a synonym for superior service.

ASHTON SKATES.

Ashton now has another great improvement to its field of amusements in the form of a skating rink, which opened its doors on Tuesday night of this week. A large number of enthusiastic young people were present and spent an enjoyable evening endeavoring to conquer the mysteries of this exhilarating sport, much to the amusement of the spectators. The managers, Messrs. Peterson and Omar, are intending running two nights each week, and from the interest displayed the first night we feel safe in predicting a howling success for the venture.—Herald.

The loud mouth bully is heard,—the gentleman is seen and known.

PAST THAT.

A clergyman had taught an old man in his congregation to read, and found him an apt pupil. Calling at the house sometime afterwards, he had found only the wife at home. "How's John?" asked he. "He is well, thank you," said the wife. "How does he get on with his reading?" "Nicely, sir." "Ah, I suppose he can read his Bible comfortably now." "Bible, sir? Bless me, he was out of the Bible and into the sporting pages long ago!"

Christianity may save the world, but the biggest gun will rule it.
