**Try this easy way to clear your skin with Resinol Soap**

Bathe your face for several minutes with Resinol Soap and warm water, working the creamy lather into the skin gently with the fingers. Then wash off with more Resinol Soap and warm water, finishing with a dash of clear cold water to close the pores.

Do this once or twice a day, and you will be astonished how quickly the healing, antiseptic Resinol medication soothes and cleanses the pores, removes pimples and blackheads, and leaves the complexion clear, fresh and velvety.

If the skin is in bad condition through neglect or an unwise use of cosmetics, apply a little Resinol Ointment\* and let it remain on ten minutes before the final washing with Resinol Soap.

Resinol Soap is not artificially colored, its rich brown being entirely due to the Resinol balsam it contains. Sold by all druggists and dealers in toilet goods. For free sample cake and trial of Resinol Ointment, write Resinol Chemical Co., Baltimore, Md.

\*Physicians have prescribed Resinol Ointment for over twenty years in the treatment of skin and scalp affections.

**The Wheat Yield Tells the Story of Western Canada's Rapid Progress**

The heavy crops in Western Canada have caused new records to be made in the handling of grains by railroads. For, while the movement of these heavy shipments has been wonderfully rapid, the resources of the different roads, despite enlarged equipments and increased facilities, have been strained as never before, and previous records have thus been broken in all directions.

The largest Canadian wheat shipments through New York ever known are reported for the period up to October 15th, upwards of four and a quarter million bushels being exported in less than six weeks, and this was but the overflow of shipments to Montreal, through which point shipments were much larger than to New York.

Yields as high as 60 bushels of wheat per acre are reported from all parts of the country; while yields of 45 bushels per acre are common.

Thousands of American farmers have taken part in this wonderful production. Land prices are still low and free homestead lands are easily secured in good localities, convenient to churches, schools, markets, railways, etc.

There is no war tax on land and no conscription.

**Perfect Artificial Foot.**

The foot of the artificial leg is itself an exceedingly clever counterfeiter. Its core is part of the same piece of wood that makes the body of the leg. Enveloping this core is rubber vulcanized on in a series of thin layers, the result being to give the foot a lively springiness, rendering it comfortable for walking and helping to give the wearer a natural gait.

**WORD FOR THE ONION**

**VEGETABLE SHOULD HOLD HIGH PLACE IN THE HOUSEHOLD.**

Without Doubt, It Is the Best of All Flavoring Agents—Should Be Soaked in Cold Water Before Being Served Raw.

Onions, cabbages, turnips, carrots—what housekeeper does not tire of the endless monotony of the displays of these vegetables in the winter shops? Of course, nowadays almost all of us can afford both these vegetables in the winter. So cheap they are that they are no longer a treat. Nevertheless, these old winter stand-bys are still stand-bys for us, and the more we know about cooking them temptingly the better.

Onions have more possibilities, perhaps, than any of the others, for onions are one of the best flavoring agents. And the number of times a week onions can be successfully used depends almost wholly on the ingenuity of the cook.

For flavoring salads, either rub the dish in which the salad is mixed with half an onion or else place a tiny piece of onion under a little piece of bread. In this way the flavor of the onion permeates the whole dish and yet the salad does not come into direct contact with it.

Onion juice or grated onion can be used in flavoring soups and stews when a strong flavor of onion is not desired. And if only a slight flavor is liked, parboil the onion before adding it to the stew or soup.

When raw onions are served soak them beforehand for an hour in cold water. This moderates their flavor and really improves them immensely. The sharp taste is lacking and only the best of the onion flavor remains.

Many persons who do not like raw onions do like them cooked, and almost nobody finds cooked onions indigestible—raw ones cannot always be digested. Moreover, cooked onions contain desirable food properties and are an important item in the winter diet.

One delicious cooked onion dish is prepared from onions boiled tender and put in a buttered baking dish, with grated cheese over, under and between them. A little milk is added and the dish is baked until the cheese is melted.

Another good onion dish is made from boiled onions, placed in a buttered baking dish, covered with cream sauce and sprinkled with grated cheese and bread crumbs. This should be browned in the oven.

Plain boiled onions served with melted butter and pepper and salt are good. They should be cooked tender and served very hot.

Onion soup, too, is good unless one really dislikes the onion flavor. Onions are boiled to pieces in water and this water, strained, is then mixed with hot milk, seasoned and lightly thickened. It is served very hot with croutons.—Frances Marshall, in Chicago Daily News.

**Buttermilk Doughnuts.**

One cupful of buttermilk, one cupful of brown sugar, two tablespoonsful of butter, one egg, one-half teaspoonful of baking soda, one teaspoonful of cream of tartar, flour, one-fourth of a teaspoonful of salt. Cream the butter and sugar together, then add the egg well beaten, the buttermilk, soda, cream of tartar and enough sifted flour to make a stiff dough. Roll out about a quarter of an inch thick, cut with a doughnut cutter and fry in plenty of smoking-hot fat. Drain and dust with sifted sugar.

**Delicate Corn Starch.**

Heat one pint water, add two table-spoonfuls corn starch, three table-spoonfuls sugar, pinch of salt, mixed together. Then add well-beaten whites of two eggs and cook until thick.

**Custard Sauce for Above.**—One pint hot milk, one teaspoonful corn starch, three table-spoonfuls sugar, mixed together. Add to hot milk. Then add yolks of two eggs, cook until thick and flavor with vanilla.

**Bake Ham or Sausage.**

Who has ever fried ham or sausage without becoming annoyed at the splattering of grease and smoke which filled the room? All this can be avoided by preparing the ham or sausage for frying, and placing in a moderately hot oven, bake for half an hour or until as delicately browned as desired. It will be deliciously tender, and no one can tell what meat is to be served until it is placed upon the table.

**Hominy Cakes.**

Materials—One cupful cold cooked hominy, one egg, one table-spoonful melted butter.

Utensils—Bowl, measuring cup, beater, table-spoon, griddle.

Directions—Break up hominy with fork, add beaten egg and melted butter. Fry like griddle cakes. Serve with sirup or bacon gravy.

**Ham Toast.**

Mince a little left over boiled ham very finely. Warm it in a pan with a piece of butter. Add a little pepper and paprika. When very hot pile on hot buttered toast. Any left over scraps of fish or meat may be used up in a similar way, and make an excellent savory to serve with a green salad.

**Lamb Stew.**

Boil slowly three pounds of lean lamb flank one hour, then add three or four sliced onions and one-half cupful rice and boil with a heaping teaspoonful of sage and summer savory for three-quarters of an hour. Then add a pint of cream of tartar dumplings mixed with three eggs. Boil 12 minutes.

**Raised Rolls.**

Warm one cupful milk, one-fourth cupful each butter and sugar, a little salt, one-half yeast cake dissolved in one-half cupful warm water; add flour to make stiff batter and the beaten white of one egg; let rise over night. In the morning make into rolls and bake when light.

**WHAT IS URIC ACID?**

**THE CAUSE OF BACKACHE, RHEUMATISM, LUMBAGO**

Ever since the discovery of uric acid in the blood by Scheele, in 1775, and the bad effect it had upon the body, scientists and physicians have striven to rid the tissues and the blood of this poison. Because of its overabundance in the system it causes backache, pains here and there, rheumatism, gout, gravel, neuralgia and sciatica. It was Dr. Pierce who discovered a new agent, called "Anuric," which will throw out and completely eradicate this uric acid from the system. "Anuric" is 37 times more potent than *Urbia*, and consequently you need no longer fear muscular or articular rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body. Send to Dr. Pierce of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., for a pamphlet on "Anuric," or send 10 cents for a trial package of "Anuric" Tablets.

If you feel that tired, worn-out feeling, backache, neuralgia, or if your sleep is disturbed by too frequent urination, go to your best store and ask for Dr. Pierce's "Anuric."

Dr. Pierce's reputation is back of this medicine and you know that his "Pleasant Pellets" for the liver and his "Favorite Prescription" for the ills of women have had a splendid reputation for the past fifty years.

Many a married man would starve to death if his wife didn't know how to manipulate a can opener.

**Telling Things.**

"You can tell more about a woman by looking at the man with her than by looking at her," remarked the Wise Individual.

"And you'd better tell less about her," countered the Silly Individual.—Judge.

**His Stand.**

"Brudder Clapper," severely said good old Parson Bagster, "why don't yo' come to pra'r meetin' and lift up yo' voice in supplication to de Lawd?" "It's dis-uh-way wid me, pahson," replied the brother, who possessed a predilection for being on the off side: "I goes into muh closet at home and prays dar in secret. I don't take no stork in dis thing of 'dressin' open letters to de Lawd."

**Large Club for Boys.**

The boy in the city must avoid many side tracks if he desires to lead an upright and useful life, says the Boston Globe. Constantly he is beset with distractions which may lead him astray into the ranks of the incompetent, idle or even vicious. He is an inquisitive, knowledge-thirsting creature, full of the great possibilities of youth. His latent powers are precocious; yet they are wasted with a prodigality akin almost to that of nature.

Hence the establishment of the large boys' club in Roxbury, handsomely housed and well equipped, means that many boys will be given the opportunity to keep on the main line leading to a useful life.

A boy's enthusiasm is more often aroused when he thinks he is playing than when he is working at school. The boys' club can catch him when he is enthusiastic and start that enthusiasm toward manly accomplishment. We wish the club every success.

**CONFIDENT HE WAS THERE**

Woman Wished She Was Able to Send Post Cards to Her Husband in Heaven.

"I wish I could send post cards to heaven."

When you hear a remark like that you naturally turn around and take notice. So the persons who overheard turned around and—

She was looking over "Views of Washington," strung in line all around the stove, and there was nothing in her face or voice to give notice of a lacking brain behind the really beautiful, black-tooled head. The woman with her just smiled.

"The city has grown so since John died that every time it reaches out to take in another suburb I want him to know it. He always believed in Washington—"

And she was right. It would be perfectly splendid if all of us could send post cards to our folks in heaven.

And what would it be if they could send post cards to us!—Washington Star.

**Making It Clear.**

Editor—I'm afraid your story would not appeal to our readers.

Author—Well, couldn't you run in a few explanatory illustrations?

It is easier to carry on a flirtation than to carry off an heiress.

**Criticism Implied.**

"He doesn't like my cooking," sobbed the three months' bride, a tear on her long lashes. "I just know he doesn't. So, there!"

"What makes you think so?" her mother asked. "Has he said he doesn't like your cooking?"

"No-no," stammered the bride.

"Nonsense, child, it's just your imagination. I felt there was no basis—"

"There is a basis," the bride insisted tearfully. "I had been cooking the loveliest things for him for about two weeks and then he told me he had decided to become a raw-food faddist. Bo-hoo-o-o!"—Judge.

**Even Wisdom Has Its Price.**

"Tell me," said the youth who had come many miles to seek an interview with the Shelbyville Sage, "how I may acquire real wisdom."

"By coming across with \$2 for a copy of my book," replied the venerable man, "not necessarily as a guarantee of good faith, but as a tribute to my business instinct. I am not running this sage business for the benefit of my health. See?"
