A real Guarantee

To be more than a mere "scrap of paper," a guarantee must be absolute—and backed by a concern able and willing to make it good.

The General's guarantee is not only absolute; it is backed by a business operating the world's largest roofing mills, and making one-third of all the roll roofing made in America. That's the guarantee behind

Certain-teed Roofing

The guarantee is for 5, 10 or 15 years, according to ply (1, 2 or 3). There is no evasion about it—no attempt to substitute a high-sounding something "just as good." There is no substitute for a real guarantee. You get an absolute guarantee on CERTAIN-TEED because the General knows that no better roofing can be made. Its raw materials and method of manufacture are both certified by the General's board of graduate chemists, and he knows he's taking no chance in guaranteeing them to you. That's what "CERTAIN-TEED" means—certified and guaranteed. Experience has proven that the guarantee is conservative, and that CERTAIN-TEED will outlast the period of guarantee.

The roofing felt, as it comes bone dry from the rollers, is given a thorough saturation of a special blend of soft asphalt, the formula of the General's board of expert chemists. It is then given a harder coating of another blend of asphalt. This keeps the inner saturation soft, and prevents the drying-out process so destructive to ordinary roofing. Roofing is impervious to the elements only so long as the asphalt saturation lasts. CERTAIN-TEED retains its soft saturation, and is in good condition for years after the harder, drier kinds have become useless.

CERTAIN-TEED is made in rolls; also in slate-covered shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roofs, from the largest sky-scraper to the smallest residence or out-building.

CERTAIN-TEED is sold by responsible dealers all over the world, at reasonable prices. Investigate it before you decide on any type of roof.

100 ACRES OF MONDELL LANDS

FOR HOMESTEAD ENTRY NEAR DOUGLAS, WYO.

Here is a splendid body of grass covered Mondell lands that is now attracting much public attention due to the Burlington's new Central Wyoming Main Line passing through Douglas. These lands are within 5 to 10 miles of Douglas and of the Burlington Road and are some of the finest yet available for entry so near to the line of the railroad. Here is your opportunity to secure for yourself or for a colony of friends, Mondell 320 acre live stock or dairy farms near the fast growing and desirable town of Douglas, Wyo., with its 2,500 population. You will have plenty of neighbors.

It is difficult to tell you all in detail, but this tract is one of the "best things" in the whole Mondell free lands area. My FREE GOVERNMENT LANDS folder describes Converse and nine other counties in Wyoming where 320 acre homesteads may be had. Write today.
