GASOLINE ENGINE. It costs four and one-half times as much to pump water by means of a gasoline engine as it does by a windmill. According to data collected at the Nebraska College of Agriculture, the cost of pumping 100 barrels of water by a windmill is 15 cents, while by an engine it costs 68 cents when gasoline is figured at but 18 cents a gallon. The windmill will last 24 years, while the engine will last but 12 years. Admitting that the gasoline engine is at the farmer's service whether the wind blows or not, the usefulness of the windmill can be greatly increased by using larger wheels and small pump cylinders, as well as by providing storage tanks and removing obstructions to the wind. The wind blows more hours per month throughout the year at a velocity of from 6 to 15 miles an hour than at any other rate, and the windmill should be large in order that the slower rates may be taken advantage of. When forcing water into a reservoir, the agricultural college suggests a 10-foot wheel and 2 1/2-inch pump cylinder. If the well is shallow, a larger cylinder should be used. HOW ABOUT THE FARMERS' INSTITUTES? Farmers' institutes for the coming season are to be limited to one day sessions the same as last year, but two speakers being furnished for each point. A point desiring a second day will be furnished speakers, if available, at its own expense. However, farmers wishing to schedule a four day short course may secure it by paying the local expenses. The four day meeting is supported largely by federal funds, while the farmers' institutes are supported mainly by state funds. Information concerning either a farmers' institute or a short course may be had of the Extension Service University Farm, Lincoln. SCRAWNY CALVES. What makes a calf scrawny--of its feed? Germs--parasites--in the intestines. Why not free them of this trouble? If you will give the calf some E. A. Thomas Stock Remedy in its feed, within a week you will see it brighten up and in four or five weeks you will know the calf. Costs you but a few cents and we will refund that if it doesn't do as we say.--J. J. Slominski. NOTICE. The Camp Fire girls will give an open kington in the basement of the Presbyterian church on Friday, June 30, at three o'clock p. m. A good program will follow. 15 cents.
