

LOUP CITY NORTHWESTERN

A LIVE NEWSPAPER PUBLISHED IN A LIVE TOWN

VOLUME XXXV.

LOUP CITY, NEBRASKA, THURSDAY, AUGUST 3, 1916

NUMBER 33

WASHINGTON LETTER

Northwestern Bureau, Washington, D. C., Aug. 2.—The Jews of the United States are moving forward along the lines of a program which demands full rights for their race in all lands, and the abrogation of all laws discriminating against them. At a recent conference a resolution was passed favoring the idea of a congress, which should seek full religious, civil, and political freedom for Jews. The activities of the congress will be restricted to these particular lines of endeavor. Justice Louis D. Brandeis of the United States Supreme court is one of the leading champions of the movement, which has taken concrete form, and through his efforts and those of Oscar S. Strauss and other prominent Jews, a permanent "Conference of National Jewish Organizations" has been formed. There has been a great deal published within recent months concerning the Zionist movement which contemplates establishing Jewish colonies in Palestine at the close of the war. The same prominent Hebrews who are at the head of the present movement for protecting the rights of their people in America and other countries, are very largely interested in restoring a large part of Palestine to their own people, in the hope that in time they may gain through peaceful means an independent government of their own. The leaders of the movement believe that such a movement is particularly desirable at this time on account of the large number of Jews of Europe who will be homeless and friendless under the new order of conditions that will come with peace. It may also be possible that a great many American Jews will desire to go back to the land of their fathers in case the Zionist movement succeeds.

Justice Brandeis and the influential Jews who are acting with him, are proceeding upon the theory that there is radical discrimination against the Jews of America, and their efforts are directed toward obtaining civil, religious and political rights, and in addition thereto, wherever the various peoples of any land are recognized as having separate group rights, the conferring upon the Jews of the same kind of treatment and privileges, if desired by them.

The Boys on the Rio Grande.

Apparently nobody in Washington ever wanted a war with Mexico. Nevertheless, the federal and state troops were pushed forward just as though it was intended to slaughter everybody in the realms of Carranza and Villa. Now that the state troops are on the border their great anxiety seems to be to return home. They are an energetic lot of kickers as America has ever produced. Since a great many of them are very influential, their protests are being heard at the National Capitol, where senators and representatives are busily engaged in efforts to put an end to the holiday along the Rio Grande.

Growth of the Postal Savings Bank.
Recent reports of the post office department show that there are 596,000 depositors in the United States, with approximately \$80,000,000 standing to their credit. The principal growth of the government banking institution is in the larger cities, where there is not so much confidence in the bankers, as exists in small communities, where the officials are more intimately observed by those who place their funds in their care.

Moving Pictures.

Propagandists are turning more and more to the moving pictures as the means of reaching the people, and the film known as "The Battle Cry of Peace" undoubtedly had a greater influence on the preparedness measure in congress, than anything that was written or said in the press or from the rostrum. The "movies" certainly make a hit with the public. Thomas H. Ince has arranged a cinema-spectacle called "Civilization," showing the horrors of war. The production is in reality a peace play, and in magnificence there has never been anything to excel it. Unlike "The Battle Cry of Peace" Mr. Ince's production is not propaganda. It is purely a business venture. The sentiment ex-

pressed in this great film has so captivated the people of the large cities that the production is classed as a big financial success. It will likely be shown throughout the country, and the people of the smaller towns will have an opportunity to see it.

The Literacy Test.

The common argument used against the legislation for a literacy test for immigrants, is that in certain portions of the country, notably North Carolina, there are thousands of people of old American stock who have never learned to read or write. The American public hears of them only occasionally, and usually that is through the medium of moving pictures or fiction writers. Deadly feuds like that of the Allen brothers of Virginia, brings into prominence the half-savage conditions surrounding the lives led by mountaineers. A recent newspaper item throws light upon the obscure conditions of a North Carolina town, where United States money is seldom used. Pensacola is a one-man town, and the mines, lumber camps, farm lands, and even the railroad, is owned by one concern. The business in the place is carried on by use of the company's "scrip," or due bills, which take the place of cash at the company's stores. The situation is so tight that a moving picture concern which recently visited Pensacola and found it necessary to accept a script for admission. Afterward they had so much difficulty in cashing the staff that they nearly went stranded.

Fish Eaters are too Few.

The Department of Commerce has instituted a movement in congress to regain the fish trade lost by American fishermen on account of the construction of the Canadian railways, and the subsidies granted by the Department of Agriculture, show that the American people are not making the proper use of fish as food, and that, while meats have doubled and redoubled in price, the great fish interests have not only failed to keep pace with other lines of industry; but have also been unable to secure the home market. A common illustration of this is shown in the fact that sardines and herring, sold in cans, usually bear the label of the Scandinavian countries. This, notwithstanding the fact that the American fish grow just as large and swim just as fast, and are equally as good to eat as the members of the finny tribe that come from the European waters. The governments of Germany and France have made campaigns among their people in order to educate them in the use of fish as food. The same class of educational work that is now being done among the farmers of this country, was extended by the European, to teach the people the value of fish. In the United States there is a very foolish notion that fish from the sea cannot be shipped but a very short distance inland. The trouble is that the government has not given sufficient guarantee of the methods by which the housewife may feel any degree of safety in supplying her husband and brood with New England cod and halibut on a dining room table in Missouri or Oklahoma. But as the meat inspection service of the government becomes more efficient the revenues of the packing houses will decrease, and our fisheries will become more profitable and popular.

List of Unclaimed Letters.

Remaining in the post office at Loup City, Nebraska, for the month ending July 31, 1916.
Miss Anna Penken, care of W. H. Templin, Mrs. Ella Petty, Harry Udy, James Privett, Harry Keck, Curford Beck.
Persons claiming any of the above will please say "Advertised" and give date of this list.
C. F. Beushausen, Postmaster.

"IN WOMAN'S REALM."

is the title of a new series of fashion articles by Mrs. Bottomley which we are going to publish for the benefit of our lady readers. The first one appears in this issue of The Northwestern.

RESTING ON HIS ARMS

ROBINSON SHOWS FIRST CLASS.

John Robinson's shows gave two performances in Loup City Tuesday. A large crowd was present in the afternoon, but the evening turnout was not large. Those in attendance all spoke in the highest terms of the performance, and the general courteous treatment received by them by the management.

The entire performance was of the highest order, not a poor act on the program. The trained seals, in their balancing feats brought forth much applause, as did the bicycle riding of the baboons. The Nelson family of acrobats are probably unequalled by any performers in the country and the crowd, by hearty applause showed its appreciation of their act. The high school horses also delighted all lovers of gaited horses, the aerial acts were there with their thrills and the wire and rope performers, along with the bareback riders, were up to the standard of the larger shows.

The afternoon crowd was estimated at something over 3,000, the rain of the night before preventing thrashing and allowing the farmers to be present. The shows loaded shortly after the evening performance and went from here to St. Paul.

NOTICE TO MOW WEEDS.

Notice is hereby given to all land owners to mow the weeds abutting their property by August 15, 1916.—A. B. Thomsen, Supervisor Road District No. 14. 33-2

Wm. E. L. de la Motte, of Red Bank, N. J., was in Loup City Wednesday, coming up from Hazard with some of his people who were here on business. Mr. de la Motte has lived in the United States for forty-six years and this is his first visit to Sherman county. He is very favorably impressed with the country, saying that is a great deal further advanced than he expected to see. Mr. de la Motte is a strong Hughes man and says that his state, New Jersey, will go for Hughes.

Dr. A. S. Main and L. Hansen and families, returned home this week from their trip through Colorado and other western points.

Herbert Kaufman says that those who know nothing always want to talk about it. Herb ought to know, as he does a lot of it himself.

Plenty of nice smooth potatoes at \$1 per bushel.—Robert Fulliton, Austin, Neb. Phone 9720. 31-3

ARCHITECTS CHOSEN.

The Loup City Township Library board held a meeting Wednesday morning and, although the full membership was not present, those took up the matter of the employment of an architect. Mr. McGuinnis of Lincoln, of the firm of Fisk & McGuinnis, was present and they will be the architects of the new library. This firm also has the contract for the library at Arcadia, and will probably handle both jobs at the same time.

The money for the purchase of the lots for the building has been fully subscribed, and as soon as the details concerning the plans are fully agreed upon, the contractor for the construction of the building will be let.

TO MY ICE PATRONS.

The impression is being spread by someone that I am charging sixty cents per hundred for ice. To all my regular ice patrons, if they commence to take before the 10th of June it costs them 50 cents per hundred and all who started after that date it is 60 cents per hundred. Everybody starting after that day and just taking during the hottest weather ought to pay at least 10 cents per hundred more than those that take the five months. Now some who are paying 50 cents per hundred are giving out the impression that they are paying 60 cents per hundred. Anyone who tells you this you ask them to let you see their ticket and if you can find any one regular ice patron who I am charging over 50 cents, I will give you \$5. Remember anyone starting before the 10th of June is a regular patron. The month of July was the best ice month I have ever had. It is true that your ice bills were high for the month of July, but you did not say how low they were for the year. The month of May and June except the last four days of June, were very poor. There is always some one taking the joy out of life. Extra ice for ice cream is also 60 cents per hundred. Thanking you one and all for your patronage during the past month and the past years.—Jas. W. Conger.

WHAT THE KIDNEYS DO.

Their unceasing work keeps us strong and healthy. All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of the impure matter is left in the blood. This brings on many diseases and symptoms—which vary widely but may include pain in the back, headache, nervousness, hot, dry skin, rheumatic pains, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right the danger is overcome. Doane's Kidney Pills have proven an effective kidney medicine.

James Johansen, Loup City, says: "I was in pretty bad shape with my back and couldn't stoop or straighten up without being in misery. Sharp pains often seized me and I dropped to the ground. As soon as I began using Doane's Kidney Pills, procured at Swanson's Drug Store, I could tell that I was being helped. They have never failed me."

Price 50 cents at all dealers. Don't simply ask for a kidney remedy—get Doane's Kidney Pills—the same that Mr. Johansen had. Foster-Milburn Co., Props., Buffalo, N. Y.

BAPTIST CHURCH.

The young people of the Amona and Agoga classes of the Baptist church conceived the idea of obtaining a piano for the church. They presented the project to the Sunday school which was received with enthusiasm. Each class pledging certain amounts they expected to raise and contribute. Then two or three of the young people got busy and took subscriptions with such good results that a fine new Lyon & Healy was purchased from Mr. E. P. Daily and installed in the church for use last Sunday which is greatly appreciated by the pastor and people, and in behalf of the church, we wish to thank those who solicited and those who so kindly and freely gave towards the piano.

Miss Emily Steen's Sunday school class are camping between Cob Creek and the river this week. The girls pitched their tents Monday morning. Rev. and Mrs. Dunn are also camping with them besides other visitors.

To judge by the amount of provisions consumed and their sound of laughter and merriment they are certainly having a good time.

MARKET WEEK, AUGUST 7 TO 12.

Omaha, Neb., July 26.—A decided innovation has been adopted by the committee in charge of Merchants' Market week. Instead of having daily sessions, all program events will be held during the luncheon hour, leaving the morning and afternoon hours free to the merchants. Two good speakers will be secured to talk on timely retail matters at each noon session. The evening's will be full of entertainment, which will keep the merchants and their wives busy.

Dates as settled upon are August 7 to 12. Monday evening the men will go to the Den while the women will be given a theatre party. Wednesday evening a dance at the Field Club and Thursday evening a big buffet dinner in the Auditorium will provide substantial and pleasant diversions.

Friday afternoon all will be guests at the ball park when the league leaders and Denver will clash in a fast game.

Every merchant in Nebraska and Iowa is urged to attend this week's festivities and bring the family. Any information will be furnished by Joseph Kelley, chairman of the Market week Committee or the Bureau of Publicity.

FREMONT'S BIG SHOW

Plans are fast being perfected for the greatest of the tractor shows or power demonstrations which will be held in Fremont the week of August 7 to 11.

The tractor grounds are going to be in better shape than they were last year for the growing grain has already been cut and some of it has been thrashed. Last year one field and portions of others were not cut on account of the wet weather. The fields were plowed with the tractors which may have made more of a demonstration than otherwise.

The Commercial club has the show well in hand and has apportioned the work of looking after the various details by appointing a number of committees with live wires on every one of them.

The tractor grounds this year will be lighted with electricity which will meet with the approval of all the representatives at the show and will materially show off the place at night. The city plant is getting ready to string the wires and make a distribution that will give each tent sufficient lighting. An effort is being made to have the Bell Telephone company string wires on the same poles and furnish telephones for the exhibitors. Last year there was one phone on the grounds and that was a toll line and there was hardly a moment during the day or evening when it was not in use. If the company can be induced to install a number of instruments it will relieve the situation and aid the representatives by giving them so much quicker service.

LET'S HAVE BOTH SIDES.

Chairman John Gumb who has charge of the wrestling match has the contract signed by Champion Joe Stecker so there will be no slip-up in this section of the entertainment.

At a meeting of the Commercial club it was decided to repeat the watermelon feature again this year and a couple of carloads of the luscious green or red fruit will be on hand for the free distribution at the grounds immediately following the demonstration every afternoon.

If the Fremont growers are able to supply the demand they will get the order. If not they will be shipped in.

It has been decided to have the get together session on Monday evening, the opening night, when members of the Commercial club and the representatives of the tractor and accessory people will have an opportunity of renewing acquaintances or getting acquainted. Just what the plan of entertainment whether it be a smoker, Dutch lunch or a melon feed, has not yet been arranged.

The fish bake which scored such a big success last year will be continued as a feature again and will be the reason that Military avenue has been paved to that street and gives

take place on Thursday night. This is especially for the visiting tractor people or those having exhibits on club.

The transportation committee has laid out an official route to and from the grounds and special officers will be detailed at the turns to see that all abide by the rule. Going to the grounds the route will be Broad street to Tenth, Tenth to Nye, Nye to Twenty-Second, thence to the grounds. Returning vehicles will be sent south to the Morse Park road, to the Cemetery road, to Pierce street and south on Pierce to Military avenue. The change to Pierce is for a better road and also detours from the road going out. Barrels are to be placed in the intersection of Twelfth street with signs reading "keep to the right." Cement posts ordered by the city will not be ready at the time of the show. The prices to be charged are 25 cents one way.

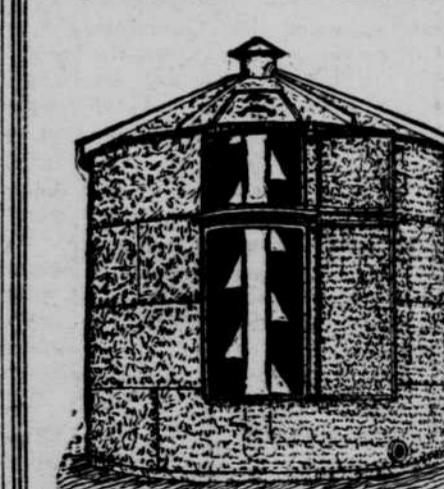

A new committee this year is one on sanitation. The grounds are to be kept in tip top shape, a clean-up to be made every night. There will be water mains on the various streets and they will not be allowed to form mud holes as heretofore but will be taken care of. A manufacturing company is to have charge of the toilet facilities, a new system which it makes will be used.

All concessions are to be handled by the club so that whatever profit accrues will go to it. A large stand will be built and divided into stalls.

Wanted—Sewing to do at home.

Mrs. Arthur H. Hansel, Phone Blue 37.

OUR VENTILATOR

As shown in the cut illustrates manner in which the air dries out wet or damp grain. There is no loss from poor condition of grain. The bin has been severely tested and has given entire satisfaction. This steel bin is much superior to a wooden structure in every respect. It is cheaper than a well constructed frame bin, and the fact that it is portable, being easily moved about the farm on skids, makes it a very desirable bin for the farmer or grain dealer. It will save its cost in a short time in the saving of wet and damaged grain, insurance, deterioration and waste.

The Equity Grain Bin

The Equity Grain Bin is the Farmer and Grain Dealer's Best and Sure Friend. It is moisture, fire vermin and insect proof. No danger from lightning. No bill for insurance. May be left in the field where you thresh and be safe.

Our Galvanized Steel Granary

Our Galvanized Steel Granary will not rust. It needs no paint or rock foundation. Can be moved with very little trouble and set where you thresh grain or shell corn. It will last indefinitely with no expense for upkeep. It is cheaper than wood.

THE MILITARY GIRLS

Are Returning to Loup City's

CHAUTAQUA

Since they were here before the Military Girls have delighted hundreds of Chautauqua Audiences. Their success in Lycoum has been phenomenal. They return with a new program but with the old time enthusiasm and charm. If you missed hearing them before, ask your neighbor about them.
