OMAHA OFFERS EXCEPTIONAL ADVANTAGES FOR LAND BANK.

Omaha, Neb., Aug. 2.—Efforts to locate a land bank in Omaha have been started through a business Men's Organization, which includes every interest in the city. The act creating the land bank stipulates these banks shall be located with respect to the farm loan needs of the community.

Under this stipulation, Omaha is an unusually timely and convenient location for one of these banks, of which there are to be twelve. With more than \$60,000,000 in farm loans in Nebraska, Omaha offers a particularly fertile location for a land bank.

The territory that would be directly contiguous to Omaha in regard to land bank transaction consists of Nebraska, western Iowa, the Dakotas, Wyoming and Montana. Omaha offers direct mail facilities with this rich agricultural producing territory, which means economic and efficient administration.

Omaha is relying on her natural advantages to secure a bank. Not only are Omaha's claims being pushed but those of Nebraska and Iowa as well, and if Omaha cannot secure a bank, its influence will be thrown to any city in this territory which has a better chance of securing one of the banks.

"Nebraska, Iowa and the Dakotas first" is Omaha's slogan with Omaha's claims respectfully submitted for consideration.

THE FIRST PAPER.

When Adam's Eve began to do the housekeeping for Adam, she had no cares such as pursue the modern Adam's madam. She did not know what was the rage, because there was no Woman's Page.

She did not get a Daily Hint from Paris full of passion to start her on a daily sprint to keep up with the fashion. She did not haunt the beauty stores in order to keep open pores.

When Adam capered home at night (he was no wearing plodder) he did not shiver lest he might be served with curious fodder. There were no papers, so you see there was no Household Recipe.

Old Adam was a happy bloke and lived a life most cheery. He did not know that he would choke some day with his bacteria. Adam and Eve had never read Health Articles to scare them dead.

Eve never went through Adam's breeks when he was sweetly dreaming, because there were no Bargain Weeks to tempt her to such scheming. The serpent thought she was a goose. She was too good for any use.

The serpent was a clever brute. Though he'd not been through college, his sanctum made him mighty cute. It was the Tree of Knowledge, "Ahah!" he said, "I'll publish, free, The Daily Eden Apple Tree!"

The first edition ratted a row whose scandal shocked creation. Since that first issue Adam's brow is wet with perspiration. It told the scandal, rich perspiration. It told the scandal, rich wear!—EX.

Carranza wants to force foreigners in Mexico to renounce their right to appeal to their own governments when the victims of outrages and persecutions. That, though, is not surprising, as Carranza wants everything that is not legitimate.
