Another nice rain fell here Monday night, which makes the ground in good condition for sowing fall wheat, but if we had had some of these nice rains when we needed it there sure would have been a fine crop. Some places there is corn and some places none, as that heavy hail a week ago damaged it too much and chopped it up.

One of the worst hail storms of the season, in fact since August 20, 1914, corn and everything looked like one had taken knives and chopped the leaves all off, and poor chickens killed. It sure was a bad one, and one could not see ten feet ahead of them for about five or ten minutes.

While he and five of his young boy companions autoed to Lewis, Iowa, to attend a dance, and on turning the corner they met another car, blinding the driver, Leonard Koebel, with the lights, and caused him to steer a little too far, and he missed the crossing. His car turned completely over, lighting on the wheels again. All the tendons of his fingers on the left hand were cut and four stitches were taken, and he also sustained other bruises. This young man is the youngest brother of Mrs. Frank Manchester, of Davis Creek, and we earnestly hope to hear of his hand not having to be amputated. One of his friends had a shoulder torn and bruised and two ribs broken, but Mrs. Manchester's brother was more seriously hurt than the others, one escaping unhurt. Well, patrons, the route two fourth annual parade and picnic is again in history, and to say that I am pleased is putting it mildly. The day from the start to finish was an ideal one, hardly any breeze was stirring all day. Part of the day was very hot but the shade trees in the park made it an ideal place to hold a crowd like the one that was there that day. There were 491 people at the park. Mr. Jenner and son, Bob did everything to make the day enjoyable for all. Mr. Jenner appreciated the way in which everyone cleaned up after they got through with their lunch. The program seemed to be thoroughly enjoyed and it took until after six o'clock to finish. I believe that if an hours more program could have been put on, everyone would have stayed as they did not seem to care when they got home. Burt Kay rode the horse that was said to be almost unrideable. He put up a dandy fight, but Burt is one of the best riders in this part of the state and is not afraid to ride any horse that might be brought to him to be rode.
