Carrier on route two got his first raise of salary this month. We now get \$106 a month. Carrier Williams on route three gets an increase of \$2 making his salary \$102 a month.

My, how the carrier would appreciate it if the patrons would drag the roads. Now that we have a car you get your mail earlier and your mail gets to you at noon instead of the next day.

Rev. Slocumb had a warm following on Wiggle Creek and will long be

remembered. The carrier thinks that the M. E. church has lost a valuable preacher and one that will be missed in the years to come. The Wiggle Creek neighborhood will miss him.

The carrier got a Ford automobile last week and all would have gone well if Wm. Mason had kept his brown squirrels out of my yard. As it was I took after them running on high and when they started up a tree I headed the Ford up too, but only succeeded in getting a bent axle and the whole front caved in.

Mrs. John Sheehan was taken suddenly ill last Tuesday and was so seriously ill that she was rushed to the hospital in Omaha, where after a few hours rest was operated on. She recovered nicely from the operation and it is expected by this time that the second operation has been performed by now. At this writing she is getting along as well as could be expected.

The past week has been an ideal one for all kinds of farm work except fall plowing. No rain or frosts have fallen the past week. Hundreds of acres of wheat have been put in. The last cutting of alfalfa is almost all in stacks. Some winter wheat is up. Pastures are very short yet. There will be no hay to ship from route two this year. Some potatoes are being dug and the crop is very poor. The corn was not hurt with the frost.

SELECT SEED CORN NOW.
Now is the time to go through your corn field and select seed corn for next spring's planting. When selecting take the ear which has matured early and which is growing in a hill in which three or four corn stalks grow; avoid gathering seed from single stalk hills and select to a certain type.

Try Chase's first—it pays.
