## 200 STEERS

If you have plenty of rough feed for cattle you will find no kind of stock more profitable than good quality two-year old steers like these. They are high grade, mostly Shorthorn types, and have good growthy frames and will make the man who buys them a good profit if sold off the grass next July. No cattle you can buy will pay better for the feed. They will eat or can be handled with less trouble or shelter, and remember they are ready for market earlier than any other class of cattle you can buy. For surest and largest profits buy two-year old steers. We will sell these cattle in bunches to suit purchasers and give time on them to responsible parties having sufficient feed and shelter to care for them.

### THE MACHINE IS BUSY.

The democratic machine, controlled by Mullen, and supported by Omaha interests, absolutely indifferent to clean politics, is trying its best to defeat Kennedy for senator. The machine is doing everything in its power, deserting every other machine candidate, save Hitchcock, to defeat John L. Kennedy.

Will the voters of Nebraska, and more especially for this community, stand for machine methods, or will they vote against machine control on next Tuesday?

It is a battle between the machine and its powerful financial backing and the better class of citizens of Nebraska, irrespective of politics.

Mr. Voter, which side are you on? Your vote for Kennedy for United States Senator will put you in the class against the machine.

While in Loup City last week we had the pleasure of inspecting the new J. I. Depey Disc Sharpener plant, and was surprised to see how comfortably Jim was situated in his new quarters. This is one of the biggest improvements to our county and people are fast becoming acquainted with the fact that if they want anything done in the repair line it is not necessary to send away from home to get it done.—Ashton Herald

Democratic managers are pinning their hopes on Ohio, Indiana and Wisconsin. These three States have fifty-two electoral votes and to gain them would make up for the loss of New York, which is virtually conceded. We regard these democratic hopes as vain ones. There are more republicans than democrats in each of these states. There is no reason why any of these republicans should vote for Wilson—and without republican votes, Wilson cannot carry any Northern state.

## Are You Efficient?

In these days of fierce competition, to succeed requires all our talents. Many an earnest, ambitious person falls short of complete success because of something that holds him back. Very often the cause is eye-strain. YOU can be a better stenographer, salesman, mechanic, baker, housewife—if you will remove the handicap of eye-strain. Eye-strain can be removed—remember that. So that puts the matter squarely up to you, doesn't it?

We are eye-strain EXPERTS. Let us examine your eyes and supply glasses that will give you an equal chance with others.

We have installed the dark room, which is an absolute necessity to do this fitting. We invite you to inspect our optical parlor. Eyes examined free of charge.

Guaranteed glasses at reasonable prices—\$3.00 up.

It certainly takes gall for Congressman Stephens to introduce Senator Hitchcock with an appeal for re-election on the ground that the president needs a staunch supporter in the senate. As everybody knows, the senator has been fighting the president openly or secretly all the time, and the president was never able to count on his support at any stage of the game.—Omaha Bee.

There is an eight-hour law governing the labors of letter carriers. They may work no more than eight hours a day. They cannot work overtime, even if they do not demand pay for it. That is a real eight-hour law. The Adamson law for railroad men, which the president tries to describe as an eight-hour law, contains no such provision. It simply fixes eight-hours' work for ten-hours' pay as the basis of computing wages. If the President wanted a real eight-hour law, why didn't he turn to the postal laws for his model?

The Hustler's Class of the Presbyterian church held a hallow'en party Tuesday evening at the country home of Mr. and Mrs. E. W. Thompson. The rooms were decorated to suit the occasion. A large crowd was present and various games and music were indulged in. At a late hour supper was served after which toasts were given by several of the members. All departed for their homes declaring that they had had a fine time. Those present were: Emma Fowler, Minnie Woods, Mable Depew, Bessie Owens, Faye Galloway, Eunice Chase, Clea Lee, Sophia Ladegard, Miss Smith, Fritz Leschinsky, James Gilbert, H. A. Owens, Clarence Peterson, Forest Larsen, Mr. Hunt, Mr. Copeland, Leon Lofholm, Karl Gasteyer, Ted Gasteyer, Herman Platt and Mr. and Mrs. E. W. Thompson.

### SPECIAL WITH CLANSMAN GROUP.

When David W. Griffith started the outdoor staging of the Civil War and reconstruction scenes in "The Birth of a Nation," which will be shown at the Garland Theatre, Loup City, November 8th and 9th, he was confronted with seemingly insuperable difficulties. An area of private war was required about as large as the corner of Belgium occupied by the Anglo-French forces. Thousands of cavalymen had to be shown, in an historic raid of the North Carolina class. Their run was to be many many miles on typical Southern sandy roads. Though an acknowledged wizard of the films, Mr. Griffith is not a "war lord," with power to command.

In this emergency, the county authorities, "The Birth of a Nation," producing locals were applied to. They finally consented to mark off an area of ten square miles for the use of the horsemen. Along all the roads within this area, the county commissioners pasted notices forbidding all traffic on "the day of days."

Pedestrians were also warned off. But the roads themselves did not look southern. David Griffith handied this difficulty with the authorities' permission by remaking such of the highways as would come within the camera's eye. Many tons of sand and gravel were spread by gangs of his workmen. Landscape engineering changed the look of the landscape to the rounded hills, piny woods and deep gullies of old North State. The race of the northern clansmen to rescue their South Carolina brethren took place on the appointed day, without an accident or a flaw. After it was over, Mr. Griffith's men scraped the sand off the macadam roads, took down the signs, and life in the sleepy countryside resumed its normal course. It cost about \$25,000 to do the trick—the producer thinks it was worth all it cost, particularly after hearing the enthusiastic comments of "The Birth of a Nation" patrons on his work.

### SALE BEGINS FOR "BIRTH OF A NATION."

The sale of seats for "The Birth of a Nation" began at the Rexall Drug store Monday morning of this week. Everyone wants to see "The Birth of a Nation" and it looked for a while as though "everyone" was on hand to secure a seat. There is no question about Griffith's wonderful creation filling the Garland Theatre to its capacity at all four performances. The opportunity is one too great to miss and the people of Loup City and Sherman county are not in the habit of tossing aside golden opportunities. Wednesday and Thursday of next week will doubtless register two of the big show days in the history of the city. Throughout the twelve reels in "The Birth of a Nation" every movement is interpreted by a marvelous musical arrangement played by a symphony orchestra and the play and music are so closely allied that one seems a part of the other. One must see and hear in order to realize the immensity of it.

### ITS BEDTIME FOR STRAWBERRIES

Its time to put your strawberries to bed for the winter in a heavy blanket or straw just as soon as the ground is frozen hard enough to bear the weight of a wagon, says the horticultural department of the university college of agriculture, Lincoln. Coarse straw or very coarse, weed-free hay makes the best winter wrap for strawberry plants. Manure is likely to heat and injure the plants, and fine material of any kind will smother them out.
