

TO FARMERS WHO UNDERSTAND THE GREAT VALUE OF GOVERNMENT IRRIGATED LANDS

Watch for the expected announcement this Autumn of the opening by the Government of its new 12,000 acre Frannie tract in the Big Horn Basin. 200 reliably irrigated farms. No agents. No commissions. Direct to you from Uncle Sam, free homestead land and actual cost of perpetual water-right 20 years' time, no interest and no payment between the first and fifth year.

If you want to know the future value of these farms, visit the adjacent locality of Powell, Wyoming, in the heart of 40,000 acres of irrigated land under this same Government Canal. The Government has now on file more applications than it has farms to allot, but we believe it our duty to let you know of this chance.

Write me and I will keep your name on file, to inform you as to the date of this opening.
