

Where will You Be at 65

It is up to you ? We can help you

DO YOU REALIZE that out of 100 average healthy men at the age of 25 36—will die before reaching the age of 65

- 5—will be wealthy
- 5—will be supporting themselves by work
- 54—will be dependent upon friends, relatives or charity.

THIS CHART represents man's accumulating period from 30 to 50 years of age. Either success or failure is settled.

At 20
Everything to gain and nothing to lose. This is the egotistical period — the age one thinks he knows more than his father. This space represents the young man's self-sufficiency. Age of indiscretion.

At 30
The boy at this age is changing his mind and concludes he doesn't know as much as he thought for. He now considers the father a man of judgment.

At 35
The son realizes that life is a reality, and he is not so smart as he once thought. His father was a man of master mind.

At 40
75 per cent of men at this age meet with reverses and lose their entire accumulation.

At 45
90 per cent have lost all by this age.

At 50
This is the age of caution. A man must not speculate, for he has all to lose and nothing to gain. He must look for security—not high rates of interest. Only one man in 5000 can after this age recover his financial footing.

At 60
At sixty, 95 per cent of men are dependent upon their daily earnings or on their children for support. Will you be one of them or one of the 5 per cent with a competence?

200 STEERS

If you have plenty of rough feed for cattle you will find no kind of stock more profitable than good quality two-years old steers like these. They are high grade, mostly Shorthorn types, and have good growthy frames and will make the man who buys them a good profit if sold off the grass next July. No cattle you can buy will pay better for the feed. They will eat or can be handled with less trouble or shelter, and remember they are ready for market earlier than any other class of cattle you can buy. For surest and largest profits buy two-year old steers. We will sell these cattle in bunches to suit purchasers and give time on them to responsible parties having sufficient feed and shelter to care for them.

Are You Efficient?

In these days of fierce competition, to succeed requires all our talents. Many an earnest, ambitious person falls short of complete success because of something that holds him back. Very often the cause is eye-strain. YOU can be a better stenographer, salesman, mechanic, baker, housewife—if you will remove the handicap of eye-strain. Eye-strain can be removed—remember that. So that puts the matter squarely up to you, doesn't it?

We are eye-strain EXPERTS. Let us examine your eyes and supply glasses that will give you an equal chance with others.

We have installed the dark room, which is an absolute necessity to do this fitting. We invite you to inspect our optical parlor. Eyes examined free of charge.

Guaranteed glasses at reasonable prices—\$3.00 up.

Kryptok—the efficient bi-focal.
Everloct—the screwless mounting.
Toric—the modern lens.
