

## TO FARMERS WHO UNDERSTAND THE GREAT VALUE OF GOVERNMENT IRRIGATED LANDS

Watch for the expected announcement this Autumn of the opening by the Government of its new 12,000 acre Frannie tract in the Big Horn Basin. 200 reliably irrigated farms. No agents. No commissions. Direct to you from Uncle Sam, free homestead land and actual cost of perpetual water-right 20 years' time, no interest and no payment between the first and fifth year.

If you want to know the future value of these farms, visit the adjacent locality of Powell, Wyoming, in the heart of 40,000 acres of irrigated land under this same Government Canal. The Government has now on file more applications than it has farms to allot, but we believe it our duty to let you know of this chance.

Write me and I will keep your name on file, to inform you as to the date of this opening.

**S. B. HOWARD, IMMIGRATION AGENT,**  
1004 Farnam Street, Omaha, Nebraska.

## Keeping Everlastingly At It

We keep at it, summer and winter, doing our utmost to give you the very best

# MEATS

that the country affords. We don't close out when hot weather comes to save the ice bill, as some markets do. We serve you all of the time. Won't you stay with us?

**Pioneer Meat Market**  
O. L. TOCKEY, Proprietor

## Tailored-in Efficiency in clothes for men and young men

Attach importance to the matter of being well dressed not only while your clothes are new but long after they have been put into service.

It requires tailoring and more tailoring to produce a suit or an overcoat that in spite of hard service will retain its original suave lines and the distinctive characteristics that marked it when it was new.

**HIGHART CLOTHES**  
MADE BY STROUSE & BROTHERS,  
BALTIMORE, MD.

are such clothes and men who pay the reasonable price for which they are sold receive a maximum of efficiency—tailored-in efficiency—the only kind that lasts.

**GUS LORENTZ**  
Clothier

### DAVIS CREEK NEWS.

Quite a number of people from here went to Loup City, Wednesday and Thursday of last week to see "The Birth of a Nation" at the Garland Theatre, and to hear the symphony orchestra which accompanied the play.

Charles Cords came up from Grand Island last week to visit with his par-

ents and friends over Sunday, returning again Monday morning to take up his school duties at the Grand Island Business college, where he is taking a business course this year.

### COLD WEATHER HINTS FOR AUTOISTS.

If a water-cooled engine is not carefully guarded in cold weather and the water is allowed to freeze in any part of the system, pipes or radiator will break or a water jacket will crack, according to the agricultural engineering department of the college of agriculture, Lincoln.

When leaving the car for the night or for a long time during the day, the safest plan is to drain the water out of all parts of the system. The engine may then be allowed to run for a few minutes to make sure that all the water has been removed. If the car is used a great deal in cold weather, it may be advisable to use a non-freezing solution. A mixture of denatured alcohol and water has proved good for this purpose. A mixture containing 20 per cent of alcohol will freeze at 10 degrees above zero; a 30 per cent solution will freeze at 5 below; a 40 per cent solution at 20 below; and a 50 per cent solution at 25 below.

Harry E. Willis was a business passenger to Omaha this morning.

E. G. Taylor was a business passenger to Omaha, Wednesday morning.

J. P. Leininger went to Laramie, Wyo., last Friday on business. He is expected to return to Loup City tomorrow.

Public demonstrations of affection cloak many a battle behind the home doors.
