WILSON'S TROUBLES.

Mr. Wilson faces many problems which cannot be postponed for four years. Something must be definitely done about the Mexican mess. The trainmen wage question must be settled. All the vexatious controversies with the European belligerents must be somehow settled. We have diplomatic troubles with Japan, Russia and Colombia. The Danish West Indies deal is in suspense. The problem of foreign trade remains for solution. The president is committed to the Webb bill, which would exempt the foreign trade of our corporations from the harsh restrictions of the Sherman act. We believe that its enactment is essential to successful American competition in foreign trade. Some of the hasty legislation of the last congress must be perfected. The reserve act must be modified, to eliminate the dangers Mr. Warburg has pointed out. Then there is the duty of surpassing importance—economic preparedness of the United States for the terrific trade struggle following the European war.

We are hopeful, now that Mr. Wilson has accomplished his re-election, that he may show a broader and more statesmanlike spirit. He should select a stronger cabinet. He should call on the strongest men of the minority party for assistance in solving grave problems. They should be willing to render all the aid in their power. There has been a popular magnification of the burdens Mr. Wilson has carried the last four years. But it is scarcely possible to exaggerate the burdens of the next four years. If Mr. Wilson handles them as badly as he has those of the past four there will be serious trouble, but it is possible that he has

learned something from experience.—St. Louis Globe-Democrat.

TAMMANY IN CONGRESS.

Those who are wondering what Tammany will do in congress would do well to recall the visit of Congressman Fitzgerald and other Tammany democrats to the White House a year or more ago. Mr. Fitzgerald registered the protest of the Tammanyites, because they were left out at the pie counter, and in the general shaping of political activities. They were given to understand that they would be well treated by the administration—and they doubtless were, considering the fact that the New York members of the Wilson official family are all of the "progressive faith." Tammany's good faith in the recent election has been questioned, and there have been veiled intimations that the "balance of power" held in congress would be used to force the administration to recognize the Tiger. All this sounds interesting "if true," and it may possibly have the approval of the famous chieftains in New York City; but the congressmen themselves, have let their attitude be known in Washington, and they have unqualifiedly pledged their support to the party to which they belong. In the last congress Senator O'Gorman and Representative Fitzgerald, both members of Tammany, occupied positions of unusual prominence in the affairs of congress. It is expected that they and their associates, will work in full co-operation with the administration at the session of congress to begin next month.

SOME TALKING.

Figures obtained in the Government Printing office show that from June 1st to October 1st, forty-eight million copies of speeches of senators and Representatives and political leaders were printed for distribution. It has been figured out that each speech required an average of three feet of paper, and if this basis is correct, there was a grand total of 144,000,000 feet, or 125,337 miles of paper used in printing these speeches. All this vast number of speeches appeared at one time in the Congressional Record. It is estimated that three thousand lbs. of ink were used, and that it required six hundred pounds of paste to put the pages together.

About two tons of good hay was burnt up and quite a little stretch of ground burnt off. A large number of the neighbors turned out and soon had the fire under control.

"THE REGENERATION."

"The Regeneration" is a cross-section of New York life, with an appeal that is universal. In every man's life are two entities, the evil and the good. Owen Conway, the leader of a Bowery gang and the "bouncer" of a frightful dive, rescues Marie Rose Deering, a pretty little school teacher, from insult at the hands of one of his followers. By this chance meeting the good in him is aroused. The big, rough gangster becomes as a little child under the tutelage of his good angel, whom he calls, with reverential affection, "My Mamie Rose."
But in the very flower of his love death robs him of the influence that has enabled him and worked his regeneration from the dregs of life. This photodramatization of what Hall Caine, the famous author, has called the most remarkable boob ever written, is the true story of a man who has been acclaimed the world over as one of the most original geniuses that inspiration has so far produced.
The picture is scenically elaborate and thrilling. One of the scenes shows the burning of a picnic barge with

hundreds leaping overboard from the blazing decks. This is only one of the spectacular thrills which makes "The Regeneration" a photodrama of marked and striking interest and of vital appeal and power.

200 STEERS

If you have plenty of rough feed for cattle you will find no kind of stock more profitable than good quality two-years old steers like these. They are high grade, mostly Shorthorn types, and have good growthy frames and will make the man who buys them a good profit if sold off the grass next July. No cattle you can buy will pay better for the feed. They will eat or can be handled with less trouble or shelter, and remember they are ready for market earlier than any other class of cattle you can buy. For surest and largest profits buy two-year old steers. We will sell these cattle in bunches to suit purchasers and give time on them to responsible parties having sufficient feed and shelter to care for them.
