Exact Standing or the Legislature Appears to Be in Doubt.

STATE FUSION TICKET IS SUCCESSFUL.

Both Parties Put forth Claims that Leaves the U. S. Senatorship Matter in Doubt-The State and Congressional Vote as Far as Received.

At this writing there is claim on the part of both parties of the Nebraska legislature-elect. The Omaha Bee

"Both houses of the next legislature are republican. The United States senator elected to succeed William V. Allen will be a republican. This has been decided by the returns from the various senatorial and legislative districts which give the republicans an undisputed majority in each house of the legislature. One by one districts which were represented in the last legislature by fusionists have reported the election of republican members as the official figures have been compiled. The republican majority on joint ballot, according to the best available returns, is fifteen. The republican majority in the senate is nine, there being twenty-one republican senators as against twelve fusionist senators. The republican majority in the house is six, there being fifty-three republican members as against forty-seven fusion members. The joint session will therefore consist of seventy-four republicans and fifty-nine fusionists."
Omaha Bee: "With returns com-

plete from forty-three counties and practically complete returns on the rest of the state Chairman Schneider of the republican state committee concedes the election of Poynter, fusion, for governor by 1,000 votes. It is possible that the figures may vary 200 from this, but hardly more. Returns on the rest of the state ticket indicate that the candidates are running about the same as the head of the ticket. The election of fusion congressmen in the Third, Fourth, Fifth and Sixth districts is indicated by the returns beyoud hope of a change.

The Omaha World-Herald thus sums "All interest now centers in the contest for the Nebraska legislature. The World-Herald prints today a corrected list of the members who, according to advices received by the World-Herald, have received a majority of the votes in their districts. According to this list the republicans have 18 and the fusionists 15 in the senate. The republicans have 48 and the fusionists 52 in the house. This would give the

The men who are furnishing this capital see much money in a trust of this character and will be liberal in their dealings with the manufacturers who are expected to come into the combine."

BOSTON A HORRIBLE EXAMPLE

A Westminster Abbey Sermon on "Chris tian Scientists and Kindred Sects."

LONDON, Nov. 14 .- The revelations made at the inquest over the body of Harold Frederic, correspondent of the New York Times, have aroused feeling against Christian Scientists. Canon Riton, preaching in Westminster Abby. attracted attention to the matter by a vehement protest against the growth of Scientists and kindred sects. Many of his fashionable congregation are Outlines the Polley He Will Pursue as well known to be Christian Scientists, among them Lady Dunmore and Lady Abinger.

Canon Riton warmly denounced "the greedy belief in quackery, which is now prevalent," and, in emphasizing the fact that this spirit of credulity is growing up with the enormous expansion and mechanical and scientific progress said: "Boston is the most cuitured city of the most progressive nation in the world, yet parts of Boston are given up to mediums, wizards and astrologers.'

As an instance of this he said: "A party of women in Boston recently dressed themselves in white and sat up all night long waiting for the millenium. Yet the United States is a practical country."

VICTORIA ON AMERICAN GIRLS.

No More Anxiety Over the Marriages of the Aristocracy.

LONDON, Nov. 14.—It appears that Queen Victoria recently expressed her views on the marriages of members of the English aristocracy with American girls. She confessed that she at first viewed these marriages with some anxiety, but added that her fears had since been completely allayed. The queen now thinks that American girls from the breadth of their education. independence and rapid changing life are better able to adapt themselves to a new environment than the more stere otyped English girls. The queen also thinks it unfair to insinuate that mercenary motives are the frequent cause of the marriages of impoverished noblemen to heiresses.

TASCOTT FOUND AGAIN.

Chicago Policemen Believe They Have the Murderer of Banker Snell.

CHICAGO, Nov. 14. - Sergeant Mooney and Patrolman Larkin of the Harrison street police station believe that they have arrested the long sought "Willie" Tascott, the alleged murderer of Banker Snell in 1888. The prisoner says he is John Farnsworth, of Columbus. A careful comparison with the description of Tascott has caused the policemen to believe that they have the right man at last. Little credence is placed in the identification, however, as Tascott has had many opportunities to change his physical appearance during the last ten years. Farnsworth was arrested at Clark and Van Buren streets to-day.

PRAISED BY CERVERA.

The Official Report to Madrid Tells of the Humanity of the Americans.

WASHINGTON, Nov. 14.-In his official report to the Spanish minister of marine describing the battle of Santiago. Admiral Cervera gives high praise to the humane and courteous treatment accorded him and his subordinates by the American authorities. He speaks of the efforts made by the Iowa and Gloucester to save life, of the solicitude shown by the Americans for the comfort of those whom they had taken prisoners, and finally of the generosity of the victors in providing so hospitably for them in the United States. In the report Admiral Cervera also says: "The result of the battle was never in doubt, but I never thought destroyed. The enemy's fire produced terrible injuries on board the Maris Teresa, destroying her auxiliary steam pipes and fire mains. After the commander of the Teresa fell wounded I myself took command of the ship. In view of the utter impossibility of defending the ship any longer she was directed with the greatest rapidity to the shore to the westward of the Cabrera, where she was stranded at the same moment that her machinery stopped.

"The second and third commanders agreed with me that it was impossible to prolong the fight. We proposed to haul down the flag, but it was impossible on account of the great headway made by the flames. At this time the fire had made such headway that it became necessary to abandon the ship and those who were able to do so threw themselves into the water, where they were saved by American boats." Admiral Cervera then gives an account of the destruction of the other vessels.

MR. STANLEY TALKS.

Governor of Kansas.

WICHITA, Kan., Nov. 14.-Governorelect W. E. Stanley said yesterday concerning his policy. "I intend to give this state a clean, business administration. I will not appoint any man to rule over the charitable institutions who is not a moral man, nor one who does not eschew intoxicants. A vulgar, obscene man cannot receive an appointment from my hands, whatever be his indorsements. He must be humane; that is very essential. The men who will be at the head of the institutions, as well as all subordinates, must have clean records in their own com-

munities. "I am greatly pleased with the cam-paign conducted by Mr. Albaugh, and, although neither he nor I said a word regarding it, nor has he ever intimated to me that he wants anything, such is my feeling for him that he can have anything in my power to give him. He aided me greatly in my campaign for the nomination, and he magnificent work as chairman of the Republican state committee.

"I have not promised anyone anything. There are absolutely no strings to me. I have not thought of anyone for any position as yet, and no appointments will be made for some time. Our state platform declares in favor of giving the preference to old soldiers, and I shall do so.

"As to the metropolitan police, 1 have already gone on record. I shall not re-establish any metropolitan police boards."
