

Could not we develop a Curvantes for Colonel Bryan.

The American people says We Ma-lay, but Bryan says no.

The beef supply in the late war may have been scant and sometimes spoiled but the extent of tongue is still unlimited.

The loss by fire of 1898 for the United States and Canada, not counting any of less amount than \$10,000 aggregate \$119,650,000.

The Republicans have taken charge in Kansas, horse, foot and dragon. The pops died with their face to the foe, but they are dead just the same.

Agunaldo wanted annexation before Manila, was Deweyized, now he wants to be President of the Philippines. He has as many wheels in his head as Col. Bryan.

A few more "Sad but glorious" years for the pops in Nebraska, and they can clothe themselves in sack-cloth and ashes and wail extinction instead of expansion.

State Senator Miller of this Dist. (Fusion) offered a resolution in the senate last week in the Spotsenberg affair, declaring that that body had implicit confidence in President McKinley and Sec. Alger, Miller's head is level if he is a pop.

Rumor has it that Andrew Carnegie, has offered to buy the Philippine islands by paying the twenty millions that this government has agreed to pay Spain, and then turn them over to the Filipinos. Andy is not so philanthropic as that.

Commissary-general Egan, of the war department at Washington, threw a bomb in the camp of the war investigating committee last week that exploded with such force that it is altogether likely to cover Mr. Egan with the glory of a request for his resignation.

Gen's. Wood, Shafter and Wheeler, and Col. Roosevelt, has the confidence of the people to a greater extent than any of the Hispano-American war officers, and they have talked the least, but when they do speak the people believe what they say.

Weary Willie, ex-colonel of the Third Nebraska, has been a buisy man since he got loose. His alaphathic doses of anti-expansion which he has been feeding to his party seems likely to produce he (by the country) much desired effect. They are growing weaker.

Congressman Dingley of Maine, the foremost leader on the republican side of the house, and author of the Dingley bill, died of heart failure resulting from pneumonia, last Friday night. By his death the republicans lose one of their most able leaders and a statesman of rare ability.

La Grippe Successfully Treated.

"I have just recovered from the second attack of la grippe this year," says Mr Jas A Jones, publisher of the Lead er, Mexia, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days against ten days for the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.' For sale by O. J. Smith Bro's."

How to Prevent Pneumonia

You're perhaps aware that pneumonia always results from a cold or from an attack of la grippe. During the epidemic of la grippe a few years ago when so many resulted in pneumonia it was observed that the attack was never followed by that disease when Chamberlain's Cough Remedy was used. It counteracts any tendency of a cold or la grippe to result in that dangerous disease. It is the best remedy in the world for colds and la grippe. Every bottle warranted. For sale by O. J. Smith Bro's.

Two Convincing Arguments

In favor of SELZ SHOES etc:

1. Their thorough reliability—they are always the same. There is no guess-work in their construction. Twenty-seven years of shoe building has placed SELZ far beyond that.

2. Their price—is far below what other manufacturers and dealers ask for corresponding values.

That's why, we sell them in ever increasing numbers, and that's why you should wear them—to your lasting satisfaction.

J. PHIL JAEGER.
