

A SENSIBLE LETTER.

A Western Canadian Settler Writes to an Illinois Friend.

In writing to Mr. T. Hawkyard, of Rockford, Ill., Mr. G. Simpkins, of Leduc, Alberta, Western Canada (and to which points especially low rates are being quoted over all lines of railway), says:

Dear Sir—Rec'd your letter the 14th inst. We have had no snow till after Christmas and the cattle have been able to live out, and are all in good condition. It is snowing now. That is what we want; have about 6 inches now. The old set says when we have lots of snow it means a good crop the coming season. It never drifts here. The weather is calm and bright. We do not have to dress any heavier than in Illinois, and the horses never shiver with the cold when we take them from the warm stables, as they do in Illinois. It has not frozen in the stable this winter. The most of the stock runs out, but there is no need of it, for timber is plentiful and there is no expense to build good stables and houses. We have good log houses and they are very warm. Two men can put up a house 16x24 in two days. There are good rails for fences. We live ten miles from the coal district, the price being from 50 cents up to \$2.00. The land is a very rich, loamy soil, from 6 inches to several feet in depth; the hills have the deepest. It is a rolling country, and excellent for stock of all kinds. Sheep do well, and there are plenty of small lakes where the cattle can get good water. The cattle got out of grass last year, about the middle of April, and run at large; unless in charge of a herdsman, we have to fence against them. Wheat goes from 35 to 40 bushels per acre, oats 50 to 90, very often over a hundred. As to potatoes, a neighbor planted 7 bushels and dug 226 bushels and no bugs. Roots of all kinds do well. There are lots of strawberries and lots of red raspberries, black and red currants, and gooseberries, where the fire has not burnt them. Cattle are scarce. I have been trying to buy some for 8 months and have got only three two-year-olds, and paid \$30 each. Hogs are scarce, but can be got. They sell for 6 cents dressed, and cost more for stockers. Wheat 50 cents per bu., oats 25 cents, eggs 30 cents a dozen, butter 15 and 20 cents, poultry was 10 and 11 cents dressed. Sheep are scarce. If you come, bring your farm tools, but bring no seeders; we use drills. Bring cows, but do not bring horses unless you are an experienced hand in shipping them, for so many of them are hurt in shipping. There will be plenty of work for a binder. Two good horses will break, but three lighter are better. The horses you get here can work without grain, but are better with it. It will be hard to tell what prices horses will be, for the immigration will be very large the coming spring. They could be had last spring at one time. They claim the best time to break is June, but my experience is to break in the spring and work it. You can break till the middle of July.

An Evidence of Prosperity.

It is generally conceded by economists, who study the commercial situation of the country, that the great arteries of railway travel are a sure indication of its condition. A depression in commercial lines means abandoned business trips and the cancellation of pleasure travel, while a healthy condition of affairs means business trips and an increase of passengers on pleasure bent. A good evidence that a business revival has gone broadcast over this country is the "Lake Shore Limited," the star train of the Vanderbilt system, between New York and Chicago, which is daily comfortably filled. With a view to taking the best possible care of its patrons, the New York Central has arranged to increase the equipment of this train by placing an additional standard sleeper on the trains leaving New York and Chicago Tuesdays, Thursdays and Saturdays. To the regular traveler the appointments and comforts of this train are well known, but if you have never made a trip on it, you owe it to yourself to see and enjoy the advance made in comfort and luxury in modern railway travel. Remember the fare is no higher on this train, except between New York and Chicago, while the accommodations and service place this particular train conspicuously at the head of the list, when compared with other lines.—Albany Journal.

Try Grain-O!

Ask you Grocer to-day to show you a package of GRAIN-O, the new food drink that takes the place of coffee.

The children may drink it without injury as well as the adult. All who try it, like it. GRAIN-O has that rich real brown of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. At the price of coffee, 15 cents and 25 cents per package. Sold by all grocers.

Tastes like Coffee. Looks like Coffee. Trust that your grocer gives you GRAIN-O. Accept no imitation.

AN EXCELLENT COMBINATION

THE pleasant method and beneficial effects of the well-known remedy, SYRUP OF FIGS, manufactured by the California Fig Syrup Company, illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative,

CLEANSING THE SYSTEM EFFECTUALLY, DISPELLING COLDS AND HEADACHES, PREVENTING FEVERS, OVERCOMING HABITUAL CONSTIPATION PERMANENTLY.

Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, gently yet promptly, without weakening or irritating them, make it the ideal laxative. In the process of manufacturing figs are used, as they are pleasant to the taste, but

THE MEDICINAL QUALITIES ARE OBTAINED FROM SENNA AND OTHER AROMATIC PLANTS,

by a method known to the California Fig Syrup Company only. In order to get its beneficial effects, and to avoid imitations, please remember the full name of the Company printed on the front of every package.

Consumers of the choicest products of modern commerce purchase at about the same price that others pay for cheap and worthless imitations. To come into universal demand and to be everywhere considered the best of its class, an article must be capable of satisfying the wants and tastes of the best informed purchasers. The California Fig Syrup Company having met with the highest success in the manufacture and sale of its excellent liquid laxative remedy, SYRUP OF FIGS, it has become important to all to have a knowledge of the Company and its product. The California Fig Syrup Company was organized more than fifteen years ago, for the special purpose of manufacturing and selling a laxative remedy which would be more pleasant to the taste and more beneficial in effect than any other known. The great value of the remedy, as a medicinal agent and of the Company's efforts, is attested by the sale of millions of bottles annually, and by the high approval of most eminent physicians. As the true and genuine remedy named SYRUP OF FIGS is manufactured by the California Fig Syrup Company only, the knowledge of that fact will assist in avoiding the worthless imitations manufactured by other parties.
