Astigmatism! Astigmatism is not a disease but is simply a defect in the shape of the eye ball. It necessitates an irregular strain upon the muscles in adjusting for different objects. There is no condition which causes so much discomfort and fatigue, Especially Head Aches A peculiar feature about astigmatism is that people who have it seldom know that anything is wrong with their eyes. They lay all their suffering to some other cause. They believe that they can see as well as any one and in a good many cases they can. The overwork is going on just the same. If any one thinks their eyes are not right come in and see me. I am the only optician in this part of the country that can correct astigmatism. Eyes tested free. I. S. SHEPPARD, The Leading Optician and Jeweler. Loup City, Nebr.
