The capitalist will lose may have been in the past, to stand with | much of his capital and will suffer wearus, because we stand for the prosperity | ing anxiety and the loss of many comof the country and for the renown of the American flag.

Prosperity the Great Issue.

The most important of all problems is, of course, that of securing good government and moral and material well-being within our own borders. Great though the need is that the nation should do its work well abroad, even this comes second to the thorough performance of duty at home. Under the administration of President McKinley this country has been blessed with a degree of prosperity absolutely unparalleled, even in its previdus prosperous history.

While it is, of course, true that no legislation and no administration can bring success to those who are not stout of heart, cool of head and ready of hand, yet it is no less true that the individual capacity of each man to get good results for himself can be absolutely destroyed by bad legislation or bad administration, while under the reverse conditions the power of the individual to do good work is assured and stimulated. This is what of President McKinley. Thanks to his actions and to the wise legislation of Congress on the tariff and finance, the conditions of our industrial life have been rendered more favorable than ever before, and they have been taken advantage of to the full by American thrift, industry and enterprise. Order has been observed, the courts upheld and the fullest liberty secured to all citizens. The merchant and manufacturer, but above all the farmer and the wage-worker have profited by this state of things.

Dependent on Financial Question. Fundamentally and primarily the present contest is a contest for the continuance of the conditions which have told in favor of our material welfare and of our civil and political integrity. If this and, as to the others, it would in some nation is to retain either its well-being or its self-respect it cannot afford to plunge into financial and economic chaos; it cannot afford to indorse governmental theories which would unsettle the standard of national honesty and destroy the integrity of our system of justice.

The one absolutely vital need of our whole industrial system is sound

> One of the serious problems with which we are confronted under the conditions of our modern industrial civilization is that presented by the great business combinations which are generally known under the name of trusts.

> The problem is an exceedingly difficult one and the difficulty is immensely aggravated both by honest but wrongheaded attacks on our whole industrial system in the effort to remove some of the evils connected with it, and by the mischievous advice of men who either think crookedly or who advance remedies knowing them to be ineffective, but deeming that they may, by darkening counsel, achieve for themselves a spurious reputation for wisdom.

No good whatever is subserved by indiscriminate denunciation of corporations has been done under the administration generally and of all forms of industrial combination in particular; and when this public denunciation is accompanied by private membership in the great corporations denounced, the effect is, of course, to give an air of insincerity to the whole movement. Nevertheless, there are real abuses, and there is ample reason for striving to remedy these abuses. A crude or ill-considered effort to remedy them would either be absolutely without effect or else would simply do damage.

> Plan for Federal Interference. The first thing to do is to find out the importance to the public, is the most useful measure. Cuba is being helped then given to us. It was held by an had not been consulted in the sale, re- ly as her own citizens are content that

Of course the presence of troops in the Philippines during the Tagal insurrection has no more to do with militarism or imperialism than had their presence in the Dakotas, Minnesota and Wyoming during the many years which elapsed before the final outbreaks of the Sioux were defizon until order is restored than there was imperialism in sending soldiers to South Dakota in 1890, during the Ogallalla outbreak. The reasoning which justifies our having made war against Sitting Bull also justifies our having checked the outbreaks of Aguinaldo and his followers, directed, as they were, against Filipino and

No Abandonment.

The only certain way of rendering it necessary for our republic to enter on a career of "militarism" would be to abandon the Philippines to their own tribes, and at the same time either to guarantee a stable government among these tribes or to guarantee them against outside interference. A far larger army would be required to carry out any such policy than will be required to secure order under the American flag; while the presence of this flag on the islands is really the only possible security against outside

The whole argument against President McKinley's policy in the Philippines becomes absurd when it is conceded that we should, to quote the language of the Kansas City platform, "give to the Philippines first a stable form of government.' If they are now entitled to independence, they are also entitled to decide for themselves whether their government shall be stable or unstable, civilized or savage, or whether they shall have any government at all; while it is, of course, equally evident that under such conditions we have no right whatever to guarantee them against outside interference any more than we have to make such a guaranty in the case of the Boxers (who are merely the Chinese analogues of Againaldo's fol-

If we have a right to establish a stable government in the islands it necessarily follows that it is not only our right but our duty to support that government until the natives gradually grow fit to sustain it themselves. How else will it be stable? The minute we leave it, it ceases

Now a Question of Contraction.

Properly speaking, the question is now not whether we shall expand-for we have already expanded-but whether we shall contract. The Philippines are now part of American territory. To surrender them would be to surrender American territory. They must, of course, be governed primarily in the interests of their own citizens. Our first care must be for the people of the islands which have come under our guardianship as a result of the most righteous foreign war that has been waged within the memory of the present generation. They must be administered in the interests of their inhabitants, and that necessarily means that any question of personal or partisan politics in their administration must be entirely eliminated.

We must continue to put at the heads of affairs in the different islands such men as Gen. Wood, Gov. Allen and Judge Taft; and it is a most fortunate thing that we are able to illustrate what organization. There is nothing dead ought to be done in the way of sending about it. The last one of its mighty ought to be done in the way of sending officers thither by pointing out what actually has been done. The minor places in their administration, where it is impossible to fill them by natives, must be filled by the strictest application of the merit system.

It is very important that in our own home administration the merely ministerial and administrative offices, where the duties are entirely non-political, shall be filled absolutely without reference to partisan affiliations; but this is many times more important in the newly acquired islands. The merit system is in its essence as democratic as our common school system, for it simply means equal chances and fair play for all.

Parallel with Indian Government.

It muts be remembered always that governing these islands in the interest of the inhabitants may not necessarily be to govern them as the inhabitants at the moment prefer, to grant self-government to Luzon under Aguinaldo would be like granting self-government to an Apache reservation under some local chief; and this is no more altered by the fact that the Filipinos fought the Spaniards than it would be by the fact that Apaches have long been trained and employed in the United States army and have rendered signal service therein; just as the Pawnees did under the administration of President Grant; just as the Stockbridge Indians did in the days of Gen. Washington, and the friendly tribes of the six nations in the days of President Madison.

There are now in the United States communities of Indians which have advanced so far that it has been possible to embody them as a whole in our political system, all the members of the tribe becoming United States citizens. There are other communities where the bulk of the tribe are still too wild for it to be possible to take such a step. There are individuals among the Apaches, Paw nees, Iroquois, Sioux and other tribes who are now United States citizens and who are entitled to stand, and do stand, on an absolute equality with all our citi zens of pure white blood. Men of Indian blood are now serving in the army and navy and in Congress and occupy high position both in the business and the political world.

Filipinos' Hope of Liberty, There is every reason why as rapidly

THEODORE ROOSEVELT. | KICKER

"THERE IS NO SUCH WORD AS RETREAT, BOYS; CHARGE!"

Mckinley Forty Years Ago and To-Day Has the Same Principles.

"There is no such word as retreat,

boys; charge." These words were those of Maj. Mc-Kinley nearly forty years ago. They picture the character of the President of to-day as of the soldier of 1862.

Thomas O'Callahan, with one eye blinded and one ear closed to sound forever by a bullet wound received under the national colors at Gettysburg, is now a resident of Fort Collins. He served through the war with distinguished brav-

"I served under President McKinley in 1863 and have met him frequently since. Every meeting brings back to me one of the most patriotic expressions that ever passed the lips of a soldier. A party of forty men under the then Maj. McKinley went on scouting duty. They were perilous times then.

"All went well until we reached the top of a hill and unexpectedly ran into a body of 'Johnnies' numbering between 300 and 400. They were in ambush, drawn up in firing line and awaiting our approach. Our first knowledge of their presence in the ambush was a volley which brought down our three front fours of horses and men.

"'Retreat!' our captain shouted.

"There is no such word as retreat, boys; charge!' came a second order, this time from Maj. McKinley, who, drawing his sword, dashed ahead, followed by every one of our men except those who had given their lives to the cause. The enemy were completely astounded and at our charge retreated in confusion."

"Before we started on this scouting expedition we were ordered to take three days' provisions. I had a sack of pounded oats on the pommel of my saddle. After the rout of the enemy I turned the oats out to feed my horse, and found fifteen bullets in the sack. My horse was wounded, as was Maj. McKinley's, and his sword hilt was cut to pieces by bullets. Maj. McKinley laughingly called attention to it, and at the same time complimenting his men on their bravery, remarked:

"'You have done me a great favor, boys, and if it ever lies in my power, I'll reciprocate."

"DEAR BOY" LETTERS—NO. 7

My Dear Boy:

You inform me that John Jones, Tom Bently and old Harry Weldon say that they are going to vote for McKinley and Roosevelt, but that they will vote against our Congressman, now a candidate for re-election.

Well, the Republican party is very much like Bro. Robinson's church. Bro. Brown and Bro. Robinson, two clerical friends of mine, were talking about the churches under their care. Bro. Brown

"My church has a large membership, but only about one-fourth of them are active members." Bro. Robinson replied:

"My church members are all active. The last one of them is active. Those

who won't do anything else will kick." The Republican party is a very active membership is doing something, and it is not surprising that some of this activity should display itself in kicking. Jones, Bently and Weldon have lined up with the kickers.

Now, I am sorry. I will tell you why I am sorry. In my judgment, the leaders of the Democratic party have very little hope of electing Mr. Bryan, but they do hope to elect a Democratic House of Representatives. They do expect to paralyze legislation, tie McKinley's hands, block the wheels of the nation's progress, and cripple the ship of state right in the midst of the breakers that surround it. And their hope lies in the kicking of such men as Jones, Bently and Weldon.

I happen to know just what is the matter with those three men. Jones failed to be appointed postmaster at Squedunk Station. Bently didn't get to take the census in Pawpaw township, and Weldon thinks he ought to have his pension increased to twenty-four dollars a month, and the department decided that fourteen dollars was enough. Each of them thinks that his representative in Congress is to blame for his failure to get what he wanted. Hence the kick-

Now, I do not attempt to solve the personal equation in either of these three cases. Perhaps Jones would be a very good postmaster at Squedunk. It may be that Bently was the most competent person to take the census in Pawpaw township. For aught I know Weldon ought to have a pension of twenty-four dollars a month, although I doubt whether he is more disabled than myself and I get only eight dollars and am not kicking about it. I could use more to very good advantage, but am thankful for what I have.

Why, my boy, we are entering upon wonderful times. The ancient civilization of the Orient is crumbling. The islands of the sea are being transformed. The Christian nations are coming together. America, with her inexhaustible resources, her intelligence and freedom of thought, her energy and inventive genius, is becoming the foremost factor in the coming regeneration of the world.

And at the head of this great nation tands William McKinley, enduring the most tremendous strain which has come upon any President since Lincoln's day. His wise, dignified faithfulness commands the respect and confidence of the world. He should be re-elected and

can depend. In view of these great things, how small the postmaster's place at Squedunk

Once there was a man who traded a good farm for a drink of whisky and a plug of tobacco. The Bible tells us of Esau who sold his birthright for a mess of pottage. Tradition informs us of a man who cut off his nose to spite his face. And of such are Jones, Bently and Weldon and others who let little things blind them to great things.

My boy, this is not the year to kick, Think on these things and DON'T BE A YOUR FATHER.

Consent Not Necessary.

The parallel between what Jefferson ed by armed soldiers. did with Louisiana and what is now being done in the Philippines is exact. Jefgoverned" doctrine, saw no incongruity in the new territory; and he railed at the sticklers for an impossible application of his principle, saying in language which at the present day applies to the situation in the Philippines without the change of a word, "though it is acknowl edged that our new fellow-citizens are as yet as incapable of self-government as children, yet some cannot bring themfacts; and for this purpose publicity as selves to suspend its principles for a sin to capitalization, profits and all else of gle moment." He intended that ultimately self-government should be introduced throughout the territory, but only and no sooner. This is just the policy

Filipinos on Basis of Indians. In no part of the Louisiana purchase for a number of years; in one part of it. asking the "consent of the governed." to the peculiar needs of the situation. | tion of slavery. But as soon as the present revolt is put down and order established, it will undoubtedly be possible to give to the isl-

much later date for the sole purpose of establishment. Any territorial governjustifying the extension of slavery into ment we might establish would necessarily, because of the population, be an oligarchy, which would have to be support-

Yet Hawafi has now been annexed and her delegates have sat in the national ferson, the author of the declaration of conventions of the two great parties. The independence, and of the "consent of the fears then expressed in relation to an "oligarchy" and "armed soldiers" are not between this and the establishment of now seriously entertained by any human a government on common-sense grounds being; yet they are precisely the objections urged against the acquisition of the Philippines at this very moment.

> Militarism Is Not Involved. We are making no new departure.

We are not taking a single step which in any way affects our institutions or our traditional policies. From the beginning we have given widely varying degrees of self-government to the different territories, according to their needs. The simple truth is that there is noth-

ing even remotely resembling "imperialism" or "militarism" involved in the present development of that policy of expansion which has been part of the history of America from the day when she became a nation. The words mean absolutely nothing as applied to our present was complete self-government introduced policy in the Philippines; for this policy is only imperialistic in the sense that the Indian Territory, it has not yet been Jefferson's policy in Louisiana was impeintroduced, although nearly a, century rialistic; only military in the sense that has elapsed. Over enormous tracts of it, Jackson's policy toward the Seminoles or including the various Indian reserva- Custer's toward the Sioux embodied militions, with a territory in the aggregate tarism; and there is no more danger of as large as that of the Philippines, the its producing evil results at home now constitution has never yet "followed the than there was of its interfering with flag;" the army officer and the civilian freedom under Jefferson or Jackson, or agent still exercise authority, without in the days of the Indian wars on the plains.
