WHAT BRYAN'S ELECTION MEANS TO LABOR.

Only Question Is Whether Wage-Earners Want Hard Times.

Democratic Policies Drove Thousands to the Streets Before and Will Do So Again if Bryan Is Successful.

In the eddying fight, amid din and roar of the fallen guns of imperialism and militarism, there is danger the people of this country may lose sight of the fact that the election of Mr. Bryan means the overthrow of the protective tariff system and the introduction of a free-trade program into the policy of the government. Our people have short memories and they sometimes forget and need to be remind- facturing interests bring prosperity to the ed.

Mr. Bryan was a member of the Fiftysecond and Fifty-third Congresses and took a very active part at once upon taking his seat. In the Fifty-third Congress. of which I was a member, the Wilson bill was under consideration. It was the passage of that bill which plunged this country into ruin. It does not make any difference what people say about the origin of hard times, the intelligent laboring man of this country knows very well that he ceased to earn a living for himself and family because of the demoralization of business caused by the repeal of the Mc-Kinley law and the passage of the Wilson act. It was that which precipitated wages to the lowest ebb that they have been for many a year. It was that which sent marching columns of hungry men over the country demanding food. It was the passage of that bill that made it possible for any intelligent man to listen for a moment to the speeches of such men as Bryan in 1896.

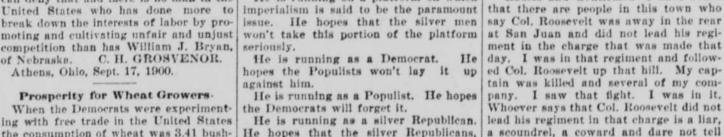

On the floor of the House in the debates on the Wilson bill Bryan took the extreme free-trade ground. His speeches are on record and the laboring men of the country can find them and read them. He especially announced himself as in favor of absolute free-trade upon many of the leading products of the farm, notably wool, which he insisted should be put upon the free list of the Wilson bill. When that bill was passed by the concurrence of the House in the six hundred amendments of the Senate it was Bryan and Hon. Jos. Bailey, a representative from the State of Texas, who in their ecstasy seized the champion, who was the putative father of the law, the Hon. W. L. Wilson, of West Virginia, and carried him on their shoulders in a triumphal procession through the House of Representatives into the cloak-room and a saturnalia of joy resounded from those premises. It was Bryan who favored the introduction of foreign material into this country free of charge. It was Bryan who demanded that all raw material such as wool, coal, fron, and everything which entered into the manufacture of goods, should be imported free, and it was his influence, more than any other man's, that brought about the terrible result with which we are so familiar. It was Bryan's earnest demand that put wool on the free list, and in that debate he declared that he did not care whether it benefited or hurt the wool grower. It was Bryan who drove the tariff on coal down to such an extent as to flood the Eastern markets with coal and stimulate the growth of the development of coal in the British possessions in the northeast, and practically drove us out of the seaboard markets with the softcoal of Central States. It was Bryan who advocated the low tariff on agricultural products and utterly refused to discriminate or allow discrimination in favor of the products of the West and Middle West, 'The laboring men of the country and the farmers of the country, before they plunge themselves into the vortex that is being held out, should get Bryan's record and read it. It is a very interesting chapter in the personal politics of that gentleman. The platform made at Kansas City is very adroit in laying the foundation for an anactment in Congress, should Bryan be elected, satisfactory to THISTY TONS OF PENMIES his history and record. Not daring to assail protection directly he came at it in the platform which he personally conducted as follows: "Tariff laws should be amended by putting the products of trusts upon the free list. * * * We condemn the Dingley tariff law as a trust breeding measure, skillfully devised, etc. That is the platform of the party denominated the Democratic party and whose nomination Mr. Brynn accepted. The original Populist party, whose candidate Mr. Bryan now is, I refer to the Sioux Falls nomination, also places itself Society, says that it is operated entirely on record in a similar attitude. So Mr. on a philanthropic basis and supported Bryan, without any apology for the past, by voluntary contributions. I tell you, Simon, if times get better, you ought to change your polities."

"Just wait 'till they get better, You'll have to wait 'till doomsday for times to improve under Republican rule." Political Simon then walked into the store and placed his basket of eggs on the counter.

"What are eggs worth to-day?" he inquired of the clerk.

"Two cents more than they were before election," the clerk quickly responded.

"Yes," she meditated, "there are a great many things to be thankful for." She had great faith in Republican times, and she believed that in two years, at least, her father would be able to pay the mortgage on their home, without her assistance.

If he wasn't able, she would take a part of her salary and pay it for him. The mortgage would never be allowed to take the old home. As she sat in her office, meditating over the prospects of the future, there came a tap at the door, and then it flew open, and Vinnie was surprised to see her father standing in the doorway.

"Good morning, Vinnie, How are you?" he said, taking her hand.
