

BIG SPORT EVENTS MARK 1914 CALENDAR

Scene at Meadow Brook, L. I., During Polo Game Between British and American Players.

As has been forecast for several months, the coming year promises to stand out as a record-breaking period in international sport competition.

With the United States acting as host for a number of cup hunting contests, challenges have already been received for the America's yacht cup and the polo cup.

The tennis trophy will have to be defended, and Oxford university has accepted an invitation to enter a team at the University of Pennsylvania's relay carnival to be held on April 25.

DANNY MAHER AGAIN IN LEAD

Former American Jockey Scored More Than One Hundred Wins on English Turf During Past Year.

Danny Maher is again the leading jockey on the English turf and the only rider to score more than 100 wins.

Danny Maher.

First in the season's sport, which was concluded recently at Manchester, Frank Wootton was second with 91 successful mounts.

PEANUTS COST CRIGER JOB.

Munching peanuts cost Lou Criger, the veteran catcher, his job as coach of the St. Louis Browns.

Vanderbilt Cup to Coast.

The historic Vanderbilt Cup race, the first automobile contest to become a classic in America, and the equally important Grand Prize are to be contested at Santa Monica February 21 and 22.

Long Auto Race.

Otto Davis of San Diego won the 574.4 mile auto road race from Los Angeles, Cal., to Phoenix, Ariz., in 18 hours and 59 minutes.

HOLY CROSS MEN HAVE KICK

Athletes Are Wrought Up Over Method of Dividing Out Class Letters, Claiming Discrimination.

The awarding of letters to the Holy Cross athletes brings to light a queer situation. Of 50 men who reported and slaved through the season, 20 were given letters, which is a greater number than is usual at the institution.

Holy Cross played Princeton, Yale, Harvard and several smaller colleges, but in naming the games where playing counted in getting letters, both Princeton and Yale games were left off.

They certainly were bigger games than that with Worcester Tech, which Holy Cross won by an overwhelming score of 72 to 0 for Holy Cross.

WHERE CHAMPIONS ARE MADE

Sidney Marvin, Wealthy Resident of San Francisco, Developed McLaughlin, Johnston and Others.

Developing tennis champions is the favorite pastime of Sidney R. Marvin of this city, a man of wealth who devotes his spare time to the promotion of juvenile athletics.

It was Marvin's idea that if through constant tournament play, great accuracy could be obtained with the speed developed on the asphalt courts

William M. Johnston of California.

of California, a series of champions would be produced. At the outset he engaged a veteran professional to instruct his young charges.

"Mr. Marvin's boys," as they are known on the Pacific coast, develop championship caliber early. McLoughlin was only eighteen when he first was sent to Australia as a member of the United States team of challengers for the Davis international trophy.

Fighters Sail for Australia.

Ray Bronson, Eddie McGorty and young Saylor have departed for Australia to fight the rising stars of that island.

Where Stars Come From.

Baseball stars, that is, the real shining lights of our national pastime, come from points far remote to the big cities.

Baseball Prosperous.

Nearly a third of a million more persons paid admittance to American league games last year than in 1912, according to a statement made by Ban Johnson.

MAINTAINING AN EARTH ROAD

Rain Falling on Highway Properly Crowned Will Run Quickly to Side and Not Soak into Surface.

If you look at the ordinary country road after a shower you will see small puddles along the wheel ruts and sometimes larger pools.

Some times water runs from land along the road into the wheel tracks or in the middle where the horses travel.

The waist line is high and very easy in order to make a free movement of the arms possible.

The square neck is shaped and finished with a piping of velvet.

The baby must have his airing every day no matter if the weather is sharp.

DRESSING THE BABY WHEN HE GOES OUT IN COLD WEATHER

CONCRETE AND GRAVEL ROADS

A prominent good roads advocate belonging to the American association says: "It is a waste of time to build roads of anything better than gravel and not so good as concrete."

Time Will Come When Permanency in Throughfares Will Be More Highly Appreciated Than Now.

Concrete roads built over 20 years ago have been kept in repair under country-town conditions at an annual expense rate of \$15 a mile.

Thrifty Turkeys.

On farms having high, dry land which has a light growth of grass, and where a new breeding gobbler has been introduced, the largest flocks and the most thrifty-looking turkeys are found.

Avoid Winter Troubles.

If fowls are started out right in the fall they will go through the severest winter without trouble.

Cloth Gown Suitable for Daily Wear

As comfortable and easy hanging as a morning gown but with every mark of afternoon apparel, this design is the simplest of all interpretations of our present modes.

The skirt, made of two pieces in goods of average width, might be draped on the figure from a single width of the widest materials.

The square neck is shaped and finished with a piping of velvet.

Knitted or crocheted boots are made with quite long tops for the baby's outing, and fastened with soft crocheted cord and small zephyr tassels at the ankle.

Tea Apron of Finest Batiste.

Daintiest among afternoon tea aprons is the one made of a half yard, half width, of finest batiste or organdy, finished at the lower and side edges with cotton lace picot bordering that is scarcely more than a series of long, loose loops, and at the top slightly gathered into a waistband of narrow ribbon.

Duvelty, which has made so strong an appeal this fall for suitings,

which has made so strong an appeal this fall for suitings, has much in its favor besides the exquisite colorings in which it is to be had.

LURE OF LOG CABIN

Rich Philadelphians Show Preference for Structures.

John T. Morris of Quaker City Seeks Quietness and Seclusion in One on His Estate at Chestnut Hill—Others Do Likewise.

Philadelphia.—The boyish fancy for building a log cabin and playing Indian is being exemplified in children of a larger growth.

The interior consists of only one small room, neatly furnished in conventional log cabin style, with a Navajo blanket on the floor and a few simple articles of furniture.

A little rustic bridge leads across a brook in front of the little cabin, and in fine weather the owner of the cabin can sit on a tiny porch and listen to the rippling water and be happy in complete seclusion and quietness.

Wealthy Man's Log House.

etude, far from the big house and free from the annoyance of such modern demons of unrest as the telephone.

Another log cabin has been erected on the estate of W. H. Newbold in one of the suburbs of Philadelphia.

The floor is well waxed for dancing and there is little furniture except the settees around the wall.

BIG FLEET OF DIRIGIBLES

German Inventor Would Carry 300 Passengers Across the Atlantic in Sixty Hours.

Vienna.—The German airship inventor, A. Boerner, is here trying to raise capital to finance a line of transatlantic dirigibles each capable of carrying 300 passengers and of crossing the Atlantic in 50 hours.

French experts state that the new airship certainly is the most practical yet designed for long voyages.

Boerner is trying to raise sufficient money to build six ships requiring \$5,000,000.

BOUND BOY TAKES TO HILL

Youth Rolls Himself Almost Back to School After Hold-Up by Bandits.

Pottsville, Pa.—The State police are investigating a queer hold-up reported to them by the school authorities.

The men caught Wentzel eavesdropping and bound and gagged him, leaving him, as they supposed, helpless.

WASHINGTON AD IN OLD PAPER

Baltimore Publication of 1773 Says General Has 20,000 Acres for Lease.

Johnetta, Pa.—In searching among old books and newspapers which had come into his possession, I. E. Allen of this place found a copy of the first edition of the Maryland Journal and Baltimore Advertiser, dated August 26, 1773.
