The channel is open about two rods wide and the water just passes on under the north end of the bridge going east down the river about eight rods, then turning to the southwest passing under the bridge. farmer would do this along his place it would not take him at least over an hour, then every one would have a good road to town, but as it is when from 30 minutes to three hours longer over such rough roads, besides the wear and tear on your team and wagon as well as being hard on a person to ride over these roads. The carrier wishes to thank Mr. Pinckney very much for the good it does him when he gets to and travels on this road.

SHER DAN GOAL gets better each year and the price is much less than most coal sells for. If you try Sheridan we guarantee it will never fill up your stove pipes. Lump \$7.00, Nut \$6.50, Pea \$6.25 for sale at Taylor's Elevator.
