

## THERE'S A DIFFERENCE

There is a very material difference between being thrifty and being penurious. Full fledged thrift is a realization of the largest possible returns from ones income. It is practical, beneficial.

Those making use of it find that our bank account plan encourages REAL THRIFT. Why not come in and get acquainted with this plan—get a better idea of just what its use will do for you?

## DO YOU REALIZE

How Strong is the Demand for Cheap Land?

If you have come to know what it means to own a farm, I can put you in a position to secure one whose cost will be within your means.

**THE MONDELL LANDS.** You can file on a 320 acre Mondell tract in Wyoming or Montana and make it yours at a cost to you of only \$22. You can, also, buy 160 acres more adjoining for \$1.25 per acre; you can become the independent owner of 480 acres of good grazing and farm land for \$222. Our inquiries indicate an extensive settlement of these lands this coming season.

**The North Platte Valley and Big Horn Basin**

There are in these valleys Government irrigated homesteads, Cary Act and Deeded lands. The Burlington's new central Wyoming main line traverses both localities, and will put them in close touch with Western markets.

The Ord Quiz, in re-producing the Northwestern's article on the extension of the U. P. from here to Long Pine, division station on the Northwestern road in Brown county can't see "just why the U. P. would hook onto the Loup City branch, which winds about through the hills of Sherman county." Now don't be ill-natured, my dear Alphonse, but your geographical knowledge of the U. P. survey through Sherman county must certainly be limited very limited. Instead of the road "winding about through the hills," it does not wind about, go through, over or under any hill, but the entire line comes up the valley from St. Paul almost on a dead level and no grade. From Loup City up through Myra valley the lay of the land is almost ideal, with least resistance on grade propositions. To go by way of Ord would be to miss the Myra valley route mapped out by the surveyor, which is one of the principal reasons for the proposed route from Loup City north. And there may be much more to this than our lively neighbor to the north would have you believe.

There is a pretty row now on between Commissioner Hall of the State Railway Commission and Chief Engineer Gerber. The latter accuses Hall in fervid language of discrediting his work, and Hall orders Gerber to quit his job. Gerber refuses to quit "by request," and it is up to the other two commissioners to settle the matter. Editor Clark Perkins of Aurora Republican, who used to be secretary of the commission alludes to Hall as a common scold who does not get along well with the other commissioners, has done no constructive work, but contents himself with criticism of his colleagues and annoyance of his subordinates, all of which, if true, show him to be a fit subject to retire to private life.

Of course, it had to come to that. "General" Kelley of "Coxey's army" fame has started from San Francisco with an army of unemployed numbering some 1,172 officers and privates and growing in numbers daily, bound across the country for Washington. The Californians are hurrying them across the eastern border, to dump them on other states, even chartering special trains to "pass them along." Fine, isn't it? According to the program, the army will form in two divisions when it reaches Kansas, one swarm going by way of Kansas City and the other by way of Omaha. And only one year of the democratic administration gone into history. Phew!

Ord does not believe in snail pace in some things, at least. Petitions are in circulation for an election on three bond propositions—\$18000 for water bonds, \$5000 for electric lighting bonds and \$7000 for city hall, and the Quiz thinks it a mistake to pile all three on at once, Cert! Why not do as Loup City did on her school house elections—make the agony long drawn out, as it were? Defeat can then come by degrees and you get accustomed to the hurt.

Clyde Barnard of Table Rock, who has been hanging around Lincoln, the capitol and the legislatures for the past twenty years at least in different capacities, as employe in the senate or house or by the republican state committee, and always a candidate for something, this time wants to be secretary of state. For heaven's sake, give him something to quiet him—Oslerize the old skate, if no other way.

The State Savings Bank at Superior closed its doors last Friday and is in the hands of the state banking board. It was allied with the First National of that city, which went under a few weeks ago, owing to the supposed rascality of its cashier, A. C. Felt, who now claims to be in San Francisco broke and wants to come back and face the music, or at least a letter to that effect has been received signed by his name. However, the letter sounds fishy.

Dr. Thomas, who was thrown over the transom at the Kearney Normal, by the powers who had a more favored fellow for the place, now wants vindication by being elected governor. He tried the vindication idea on the state teachers' association, but it didn't work. Isn't it funny how full of vindication-puss deposed officials generally are?

This week Saturday petitions containing 40,000 signatures will be filed with Secretary of State Waite asking submission of equal suffrage to a referendum vote next fall.

Wilcox, the boy who tried to kill his employer, and wife near Kearney a few weeks ago, was sent to the reform school by Judge Hostetler. The boy was not altogether bright.
