There will be a special township meeting in Clay at the regular voting place on April 7, at 1 p. m., for the purpose of making a levy to run the township. Remember and be there.

There was a big court house meeting at the Wiggie Creek school house last Thursday evening. President Long of the Loup City Commercial Club made a fine talk, explaining fully about the court house. Rev. Slocum followed and soon had the hearts of every one. Johnson, Schwanner, Hinman and Allen entertained the crowd with some dandy songs. The one that seemed to get every one most was "The Old Oaken Bucket," each one acting a small part. The house was packed.
E. G. Taylor has a large force of men working at the head of the mill race putting in headgates. This is something that is needed for years, and in the early years when the race was first built the carrier can remember seeing it there. This is the reason the mill in the early days hardly stopped all winter, for just as soon as the slush ice would commence to run the headgates would be closed, keeping out the winter and slush ice and as soon as the river froze over the gates would be opened and the flow of water would be as good as before. Mr. Taylor has spent hundreds of dollars on the race since he has had it and realizes that this work at the head must be done in order to make the race a success. It will be different than any thing ever put in there, as it will be made so the sand cannot get into the race at any time during the year. The sand in the summer has been nearly as bad as the slush in winter. With care and sand coming in, the race will constantly be dug deeper by the swift flowing water. The gate will be 80 feet wide. To make things complete, Mr. Taylor will put a dam across the river, driving the water against his new head gate insuring plenty of water at any time during the year. Nelson Smith has charge of the work—in fact worked out the entire plan for the gate, making all the parts that were put in it.

NOTICE TO FARMERS.

Dear Friends:—I certainly thank you for the business which you have thrown to me this spring so far and as there is a big rush on my make harness this year, I am running a little short on the same. But don't be afraid to come to me. I can still furnish you any kind of harness you want inside of three days, as I have plenty of leather on hand and all kinds of hardware to finish it with. Also have all sizes of horse collars and prices can't be beat. I can also furnish you with Manufactured harness, but I cannot put such a strong guarantee on them as I do on my own make, therefore wait 3 days longer in case I have not got the kind of harness you want, on hand and I will make it for you. You no doubt will get the benefit.

Shoe Department

PURE LEATHER

Does it pay to buy an off brand of shoes at a cheap price? No it does not, for many shoes are not made of pure leather and to look at them they look as good as the best but when one comes to wear a pair they will soon see where the trouble is, and this is the cause of so many SHOE dealers going out of the shoe business. They have not been handling the right kind of shoes. We handle the **STAR BRAND SHOES** which stands with the best. When you once buy a Star Brand Shoe you will wear no other. We handle them in Ladies' Men's, Boys, Girls and little Children's. **STAR BRAND SHOES ARE BETTER**, try a pair
