To many the fact of the candidacy of John G. Maher for governor on the democratic ticket does not spell much, but to many of us who have been acquainted with John for years, it is hailed with interest. Years ago, Maher was court reporter for Judge Westover on the line of the Northwestern road in the north part of the state, and there is not a country newspaper man along that line who has not a most kindly feeling for him. When the writer was publishing the Star-Journal at Ainsworth, John, as reporter in the courts in that district, was a friend worth having and many a time he gave us good dope for our news columns and at all times was approachable and ready to give those news tips so desirable to the editor. Later he went into the Spanish-American war, and it was while stationed in the southland that he earned the enmity of General Fred Grant by refusing to use his typewriter at the command of Grant, and from which had newspaper notoriety from one end of this country to the other. After the war, John continued to break in to public print in various and devious ways which has kept him before the public eye ever since. He it was that got himself photographed with Roosevelt at time the later arrived in New York from his African hunt. Of late years he has been exploiting Texas land and was here some two or three years ago giving illustrated pictures of the Francitis land and delivering lectures on its wonders, and will be remembered by many of our people who purchased in that country from him. John is a deucefully likeable fellow, and not withstanding the fact that he comes out as the wettest kind of a democratic candidate for Governor and is liable to get the party into all kinds of hot water, his latest break into public notoriety will get good wishes from all who have known him these past number of years. John may not get there, but he'll raise all kinds of sheol while in the ring.

With Gov. Morehead trying to get Maguire's congressional scalp; with Col. Maher "wet" goods candidate for governor and Charley Bryan, brother of the "Peerless," nursing the "dry" element to secure the nomination for governor; with "Little Giant" Thompson also breaking into the gubernatorial game; with a racket over the Lincoln postoffice, and with 'll a-poppin' all over the democratic camping ground in the state, it would seem the democrats are to have all the strenuous time they may want and then some within their own ranks without bothering about the republicans.

State Auditor Howard has filed for congress in the second district. The auditor is well known in Loup City, where he visited regularly when in the insurance business prior to becoming state auditor. He is mighty well liked here and his candidacy, while not affecting this district politically; yet will be received by his friends with interest.

In our opinion, if Charles Wooster of Silver Creek, who never misses an opportunity of breaking into print were on exhibition in a traveling dime museum he would prove a paying attraction. He is about the worst letter-writing pest in the state today. Will the Bee please shut the thing off?

Indirectly it is learned that Colonel Roosevelt is planning on raising a cavalry brigade for service in Mexico and is anxious to get into the fray at the earliest possible moment. The only stipulation he makes is that the stuffs off if there should not be a real war.

Gen. Funston signifies his wish for 60,000 more men to be sent to the Mexican border. Our "Watchful Waiting" administration has the "thoughtful thought" now in soak.

Pork made an advance of \$1 per hundred pounds the past week, is the regretful (?) report of the packing houses. Good-bye. Here's for a purely vegetable diet.

The Seed Hopper and Spout being mounted on the beam eliminates telescoping because both are raised with the beam and are always in the same relative position to each other. No chance to clog up or get out of order.

Variable Drop, controlled by a hand lever conveniently placed near the hopper insures accurate dropping. An opening in the spout enables the operator to see the seed passing down. Planting distances may be varied 12 to 22 inches.

Distances between press wheels can be varied

The Disc Covers are held firmly in the ground by spring pressure, allowing them to ride over obstructions and to rebound to position. They are adjustable for depth, width and angle, enabling the operator to set the disks just right. Shovel Covers furnished if desired.
