They cost us more than the common every day kind of clothes---yet the way they wear and look makes them worth twice as much. Bring your boy here and let him try on these suits, or come in and look around for yourself. You will see the best all around line of boys clothes.

Now, honestly, brothers, what do you think of the present primary? The Phonograph believes it is a farce pure and simple, and is not afraid to say so. We hope some man will have nerve to get up in the next legislature and denounce the present primary and then introduce a bill to repeal the law. The old convention system was bad enough, but it had the present primary plan skinned a mile. Look at the cost the August primary will entail on the tax payers of this state. Several hundred thousand dollars will be spent for the primary election and what will we receive in return? Will we nominate a better grade of officers? The Phonograph believes not. In the selection of state officers there will be names on the ticket that seventy-five per cent of the voters never heard of and yet the voter will be requested to cast an intelligent ballot. The voters of the state cannot possibly inform themselves regarding the different men who aspire to fill the state offices. The primary plan may be all right as far as a county is concerned, but that is as large as the unit should be. We hope to see the primary system repealed at the next session of the legislature.—St. Paul Phonograph.
