Just at present the whole world is aroused over the war rumors which are to the effect that all the principal and many of the smaller powers of the eastern continent are nearing conflict which may prove the greatest the country has ever witnessed. Up to last Saturday, only Austria-Hungary and Servia were embroiled and in active conflict, but with promise that Russia would interfere in behalf of Servia, and Germany calling upon the Czar to keep out of it or the Kaiser would join hands with Austria, with England and France supporting the contentions of Russia and little Japan announcing she would get into the game as England's ally, it has the looks and promise of embroiling the whole continent in war. It is impossible at this stage of events to forecast the probable, but from present outlook it would seem that nothing short of a miracle would prevent bloodshed and devastation of all the big and little powers of the eastern continent. Our inside pages will be found filled with the war scare so far as it had gone up to the time of going to press with those pages.

Last Thursday evening ended the present Chautauqua session. That it has been an exceptionally good one is admitted by all. One of the best results of the present Chautauqua has been the organization of an association that shall provide amusement for our boys and girls. This is one of the needs of the hour. What shall our children do for amusement and recreation has been a momentous question, and no doubt in a large measure the above proposed organization will answer the query satisfactorily. Some time this week, if it has not already been done before this meets the public eye, said organization will be perfected and plans adopted to that end. Possibly, some sixty or more of the fathers and mothers of our city have subscribed their names and pledged their money to carry forward this splendid idea. Let our entire citizenship join in this movement which is for the betterment of our children and provide for innocent amusement as well as for the betterment in all ways of the rising generation.

Over in Howard county there are two democratic candidates for congressman who want to fill M. P. Kinkaid's shoes, but evidently the democrats of that county do not take kindly to one and are dead stuck on the other, as in county convention they endorsed the candidacy of one, Frank Taylor, with a hurrah, while the other, A. L. Covey, did not get a look in or even mention. But of course that was an empty honor, for Mr. Taylor, good man, though, will be so far distanced by the republican Moses, that he will be left at the first quarter stretch in the congressional race. Up in the sandhills country they do not know there is any other candidate than the man who made Kinkaid sections possible.

Unless Providence or some like potent force intervenes, there will be one of the greatest railroad strikes in the history of this country staged tomorrow, (Aug. 7), when 55,000 firemen and engineers on the great railroads operating west of Chicago are to go out on a strike, which will tie up every system in that zone. Every effort is being put forth, even President Wilson offering his services to prevent the widespread disaster which would follow such a calamity.

With wheat harvesting at 35 bushels to the acre and oats going to 50 and 60 bushels to the acre, things loom up pretty good to our farmers. Stand up for Sherman county and be assured of a bumper crop of corn to top off with.

By the way, what has become of the Mexican trouble? Since the big pow wow started among the old continent powers the Mexican imbroglio seems to have been dwarfed into insignificance.

Uncle Sam gives it out strong that he will keep out of the old world war. Right you are, Uncle.

Seven Educational Fundamentals

I believe the boys and girls of the rural districts should enjoy educational advantages equal to those of the city youth.

I believe in normal training in high schools, and the establishment in the normal schools of a training department for rural teachers.

I believe more attention should be given to the teaching of Reading, Writing, Arithmetic, Spelling and Language.

I believe in the continuation of full publicity of the Finances of the office of state superintendent, and careful economy in the business of the department.

I believe in a wider use of the school house, and in lecture courses and literary societies for Communities Interests.

I believe educational policies are living issues meriting the thoughtful, unprejudiced consideration of the people, and that school affairs should be administered in a Non-Partisan manner.

I believe in the educational foundations already laid and the Highest Efficiency for the Nebraska school system.

I hereby announce myself as a candidate for state senator from this, the 22nd senatorial district, subject to the decision of the republican voters of the district. Your favors will be appreciated.
R. P. Starr.

To the Voters of the 22nd Senatorial District composed of the counties of Buffalo, Kearney and Sherman.
Having announced myself as a candidate for the nomination, on the Democratic and Peoples Independent ticket for the office of Senator from the 22nd District which I now represent and my position on the question of the removal of the University having been brought in issue, I want to make a specific statement on that question which no one can misunderstand.

During the last session of the Legislature this question was earnestly discussed on both sides before the legislature. I regarded it as a question of much importance to the people of the whole state that it should be properly discussed, be settled by the people and not by the Legislature. I therefore voted to submit the question to the people of the state and if it receives a constitutional majority, like every other citizen I will be bound by the vote but if the question does not receive a constitutional majority at the polls and if it should be brought before the Legislature again during the next two years, I will vote against the removal of the University unless for some good, just reason it is shown that the removal of that institution would be better for the people of the state and the University.

I state this specifically because it has been suggested that even if the proposition does not carry at the polls the members of the Legislature can ignore the vote and move the University upon their own responsibility.

I further state that at the election in November I will vote as a citizen against the removal. Respectfully,
PETER WINK.

To the electors of Sherman county, Nebraska, I beg to state that I have filed for the nomination for the office of Clerk of the District Court of your county, as a republican, subject to the will of the voters of said county to be expressed by them at the coming primary election to be held August 18th, 1914.

I first made my home in this county in the year 1877, and continued to live here, and to make the same my home for the following twelve years, at which time I became engaged in the United States mail service, living at Council Bluffs and Omaha, until 1890, when I returned to live permanently in this county, and have remained here and been engaged in farming ever since.

My long experience in clerical work in the service of the United States, who is always considered to be a strict master, may as I believe, have gone some distance toward preparing me for a kind and careful performance of the duties devolving upon that office. Should you see fit to choose me for the position, I pledge you the very best service that I am able to perform, rendered with the utmost kindness and patience.
