Glacier National Park is in Northwest Montana, and with its scenery and excellent auto roads, is becoming one of the famous parks of the world.

Within the Park comfortable quarters are to be had at Glacier Park Hotel and the various chalet camps. All charges, circuit tour rates—in fact, the entire scheme of service to tourists—is under the supervision of the Great Northern Railway Company.

The detours consume from one to five days. They include automobiles, launches, coaches, hotels, and cover distances of from 80 to 150 miles.

The BURLINGTON-GREAT NORTHERN EXPRESS arrives at Glacier Park Station at 8:35 p. m.; the Park Hotel is nearby the station, and you are ready the next morning for one of the systematized and well managed park tours.

I will gladly provide you, free of charge, with attractive publications descriptive of this scenic and recreative region.

The beauties of the primary law as exemplified at the various precincts in Sherman county cannot but prove fearfully and wonderfully effective, especially as regards the "closed" part. For instance, in Loup City township possibly sixty republicans voted the democratic ticket, giving as excuse that there was but little fight on for the various nominations in their party, most of the candidates having no opposition while the nomination fights on the democratic ticket were numerous and they wished to take a hand in selecting the candidates for sheriff, county clerk and county superintendent, hence called for democratic tickets. The same condition existed in Ashton township where probably forty republican voters called for and received democratic tickets, because of the intense interest over the nominations on the democratic side. The same obtained in a number of the other voting precincts, only in a lesser degree, showing the democratic vote over the county to have been 623, against 359 for the republican ticket. It had been said that the "closed" primary law would prevent swaps, trades, and the like which caused so much kicking over the old convention system. When the primary law was first called into existence, it was made open, giving voters the chance to vote any ticket they pleased, and the advantage taken of that for the voters of one party to select the candidates for another party caused the change to be made to a so-called "closed" effect. Hence the present status, compelling voters to call for a party ticket other than their own in order to be able to assist or defeat candidates, as they wished. Under the old convention system, rotten as its opponents claimed, no such stunts could be pulled off, it was all within the party, and the voters of the other parties could take no part therein. It may be that a primary law can be drafted that will prove all that is wished, but so far, while in theory it is very pretty, in practice it has little to commend it to the public.

The past primary election shows most conclusively that the cities and towns select the candidates for the various parties, while the country districts have little or no say in the distribution of the plums. For instance, Omaha, Lincoln and the larger towns of the state nominate the state candidates, by reason of the vote therein being so great that it cannot be overcome over the state. In the local tickets, the county seats and villages decide the question, it being shown conclusively that the country vote will not come out. In Sherman county, the five town precincts cast a much larger vote than the combined vote of the other eight precincts, while the three precincts—Loup City, Litchfield and Ashton cast over one-fourth of the combined vote. The vote of Loup City township was more than the combined vote of the other twelve precincts. It proves without a shadow of a doubt that the cities, towns and villages nominate the candidates under the primary law. What is the remedy?

What a farce the present primary law proves to be, especially the "closed" part, and as representing the will of the entire people, especially from party standpoints.

## TABULATED VOTE AND OTHERWISE

We this week present to our readers a tabulated statement of the vote of Sherman county at the recent primary. This is on the vote for governor, and from congressman on down for the democratic and republican parties and for the county progressive vote. In our editorial columns we give the status of the vote and reasons therefor, whereby the democratic vote shows so much greater than would have been had there been a strict party vote on all tickets. The tabulated statement shows that party lines were not followed closely because of the intense interest shown in the offices of clerk, sheriff and superintendent on the democratic ticket, which absorbed so largely of the republican vote, thus giving poor showing on both latter tickets. If the showing made does not prove conclusively that the present primary law needs to be thrown into the scrap heap, or otherwise much needed changes, then indeed we are terribly off in our calculations. We doubt if there are a half dozen voters of Sherman county who will not agree with us on the above propositions.

The returns from over the state give evidence that on the vote for governor, Howell receives the republican nomination, while Morehead beats Metcalfe and Berge for the democratic nomination. On the balance of the state tickets, the nominations are as follows: Lieutenant governor—Hoagland, rep. and Pearson, dem.; secretary of state—Wait, rep. and Pool, dem.; state auditor—Miner, rep. and Smith, dem.; treasurer—Hamer, rep. and Hall, dem.; state superintendent—Thomas, rep. and Whitehead, dem.; railway commissioner—Hall, rep. and Maupin, dem.; attorney general—Sears, rep. and Reed, dem.; land commissioner—Beckman, rep. and Eastman, dem.; regents—Brown and Jensen, reps. and Miller and Noble, dems.; congress—Kinkaid, rep. and Taylor, dem.; state senator—Starr, rep. and Wink, dem.
