### Don't Cast Your Money To The Four Winds

Put it in this Bank Where it Will Grow for You and Do You Some Visible Good Now and In The Future

"As we sow, so shall we reap." That is why the farmer plants his corn in fertile ground; that is why hundreds of people plant the money which they have, in the bank, be the amount large or small. They see the advantage of having their money in a place where it will grow for them.

There is no pleasure so wholesome in later life as that which is felt in reaping the reward of an early effort in starting a bank account. Now is the time.

The "milky way" was one of the means used by C. L. Burlingham, one of the speakers at the farmers' institute, January 26, in gaining his education. He struggled through the Iowa Agricultural College by milking cows at the college dairy. Later he won a scholarship at the University of Missouri and was graduated from that institution also. Later he received an appointment with the Dairy Division of the United States Department of Agriculture, which he still holds. If you admire a young fellow who has fought his own way and are interested in dairying as well, you will want to hear him.
