Last Tuesday was election day. There were two village trustees to be elected in place of John Seabeck and Dr. Dickinson, but Dickinson was elected getting 21 votes and F. A.

Maxwell

"The Wonder Car"

38,000 owners have given the "acid test" to 38,000 Maxwells in the last 18 months

Every car made in the gigantic Maxwell factories is just as finely finished, just as handsome an automobile as if it were especially made to be exhibited at the New York Automobile Show, or some dealer's fancy Showrooms.

BUT—and here is a great big BUT—38,000 of these Maxwell Cars have actually been turned out and have actually been driven thousands of miles by 38,000 Maxwell owners. These owners have driven their Maxwells up hill and down hill—over all kinds of country roads and over

city streets, everywhere that four wheels will go. Most of these 38,000 Maxwells have been rained on, snowed on, and put to every kind of a rough and tumble test that time and use can give a car—and that's what we mean by the "Acid Test." If you have any neighbors among

these 38,000 happy owners, ask them to tell you all about their experience with their Maxwells. If you don't happen to know any neighbors who own Maxwells, here are a few facts to think about—things to consider—then you can come in and see this "Wonder Car" and add up these facts for yourself.

But don't forget this—the Maxwell we will show you is an exact duplicate of these 38,000 tried and true Maxwells that have stood the rough and tumble "Acid Test."

And Here Are Some Vital Points to Think Of

Satisfaction and Service in a Nutshell.
To the automobile owner satisfaction and service means a car of beauty, refinement and comfort combined. One that possesses the many conveniences, is easy and simple to operate, properly designed and constructed of the best materials and whose operative cost is very low. He wants motor car efficiency and maximum service.

All This Has Been Accomplished in the Maxwell.
Through the high ideals and standards, wonderful engineering genius, remarkable resources and the accumulated experiences gleaned from years of automobile experience, the Maxwell organization have accomplished what a few years ago many said was impossible.

The Maxwell is Not the Result of an Experiment.
It was not luck or the result of an experiment on the public, but good hard business judgment that made the Maxwell of to-day possible. Able engineers spent months designing this powerful, efficient, light-weight car. The best metallurgists in the world's famous laboratory (the Maxwell's own plant) tested materials and formulated new heat treatment that gave this car a remarkable light weight and yet the great strength which it possesses and which stands all the abuse heaped upon owner-driven cars.

Beauty and Comfort as well as Strength.
And Maxwell builders added to this "wonder car," not only all the conveniences, power and durability, but also the refinements and beautiful lines of the much higher priced cars. There are a fine crown fenders, fine upholstery and all the little details that make Maxwell owners proud of their cars.

Every Feature of Maxwell Construction.
Every feature of Maxwell construction that is to be found in cars selling at many times its price will be found in the Maxwell. And in addition there are many mechanical features that are strictly of Maxwell design. How we have improved the lamps, made them rattle-proof by using extra braces and eliminated the hinges, made them disassemblable, easy to clean and adaptable to use in any desired position; the manner in which we have protected one of the best radiators that money can buy from the many twists and strains of the car, in fact, constructed a full floating radiator—the way in which Maxwell has provided for proper lubrication and thorough cooling of the motor and has given one square inch of braking service for every twelve pounds of weight; how our engineers have equipped Maxwell cars with a spring tension fan that adjusts itself to any pressure on the belt, makes the "Wonder."

The Maxwell Company's Guarantee of Service to Maxwell Owners

No other automobile is backed by a more reliable service than that guaranteed every Maxwell owner. More than 2,000 Maxwell dealers in every part of this country—are always ready to give expert advice, to make adjustments, and to supply new parts at reasonable prices. This splendid Maxwell dealer service organization is perfected and completed by the chain of Maxwell owned and Maxwell operated Service Branches. Sixteen great Maxwell Service Stations are so located throughout the country that a Maxwell dealer can supply any part for an owner within a few hours if not in his stock. Maxwell Service is one of the great advantages enjoyed by Maxwell owners.

Order a Maxwell from us now, and when you want it delivered, we will give you your car—not an excuse on delivery day

Dunker got elected by 16 votes, John Seabeck getting 13, Ed Isaacson 12, H. Bushhouses 10. Against Sunday baseball 5, and for Sunday baseball 20. All for wet and no dry votes.

Order of Hearing and Notice of Probate of Will.
In the County Court of Sherman County, Nebraska.
State of Nebraska, vs. Sherman County.

To the heirs, legatees, devisees and persons interested in the estate of Michael Donahoe, deceased: On reading the petition of Thomas A. Donahoe praying that the instrument filed in this court on the 25th day of March, 1915, and purporting to be the last will and testament of the said deceased, may be proved and allowed, and recorded as the last will and testament of Michael Donahoe, deceased; that said instrument be admitted to probate, and the administration of said estate be granted to Thomas A. Donahoe as executor. It is hereby ordered that you and all persons interested in said matter, may, and do appear at the court to be held in and for said county on the 27th day of April A. D. 1915, at 10 o'clock a. m. to show cause, if any there be, why the prayer of the petitioner should not be granted; and that notice of the pendency of said
