There is a lot of sod being broke on the Route this spring. The past week there has been a good many teams at work.

There is a bad piece of road west of washed out and in bad shape for the Geo. Zahn's mail box which has been past few months.

Monday was a legal holiday and all Rural Carriers had a vacation which was surly appreciated after the good roads of last week.

P. J. Kusek is the party who dragged the roads from Clear Creek to Joe McMullen's, a distance of four miles over and four miles back and he was only three hours doing same.

Miss Lena Zwink cut a deep hole in her right arm Monday while scuffling with her brother George. Her brother Frank took her to town to have the wound sewed up. The arm is swelled quite bad above the elbow and is real painful.

Fred Pinckney was dragging the road from his place to Grant Roger's place Wednesday. Although part of this road is real rough it is sure a nice piece of road to travel over after being dragged.

Geo. Douglas started to town last Wednesday with a single horse to market about fifteen dozen eggs. While enroute the load was too great for his horse to pull and George had to stop at one of the neighbors and get rid of part of his load.

Miss Emma Rowe closed a very successful term of school Friday in the Moon District with a picnic dinner in the school house which was enjoyed by all who were present to partake of the good things to eat. They had planned on having a picnic but the weather would not permit.

Some one on Clear Creek dragged the roads last Tuesday or Wednesday from P. J. Kusek's mail box to Joe McMullen's, a distance of about four miles. This is the only time there has

been anything done on 'his road this spring and the drag filled all the holes which have been standing there since the snow melted. The carrier wishes to thank the party who did this, for himself and for all those who have to travel this road.

Feeding Skim Milk to Calves.

A calf of ordinary vigor can be put on a skim milk diet at the age of two or three weeks. The change to skim milk should be gradual. This change is best made by substituting a pound of skim milk for a pound of whole milk at each feed until the calf is receiving only skim milk. The amount of skim milk fed should be the same as that of the whole milk which it replaces. This will usually be 10 or 12 pounds for a calf 2 to 3 weeks old. A gradual increase in the milk should be made as the calf grows, until at the age of 5 months it is receiving 16 to 20 pounds daily, depending upon the size of the calf.—Bulletin No. 149, Agricultural Experiment Station of Nebraska.

If you are fond of deep plots and mystery the next serial story that will be run in this paper will satisfy your every desire. It is entitled, "The Czar's Spy." It is a story that deals with international robberies and methods employed by the Russian secret service system. A new mystery bobs up at every turn, with murders done by night, with British consulates in Italy strangely "burgled," with man traps in London and the rescue of a lady from the czar's fortress in Finland. Don't miss the first number. It starts in the issue of June 17.

Porcupines, horned toads, armadillo, snakes, etc., have been added to the already large collection of strange animals in the park.

Word From Our Belgian Fund.

I thank you very much indeed for the ten dollars and a half contributed by the school children of Loup City for the Belgian babies. I am sure the poor Belgians will be most grateful, just think, fifty cents keeps a child a week.

The Belgians are continually sending back their thanks, expressing them in every way within their power.

I cannot doubt that the Loup City children will be blest in denying themselves to feel their unfortunate little neighbors in Belgium.

With thanks to the Unity Club, Very Sincerely
Mrs. W. G. L. Taylor.

Farmers and Mule Breeders.

The breeding of mules for farm use has been neglected in this section for years. As a work animal it is conceded that the mule has no equal. Harry Obermiller, who lives just south of Schaupps, and who is an old-time and experienced mule breeder, announces that he will offer for service this season, Prince Albert, a magnificent black Spanish Jack. He is a big fellow; is 16 hands high and weighs 1,500 pounds. He is a jack of fine action and has a record as a foal getter. The service fee is \$10, and he will make the season at Mr. Obermiller's farm, a quarter of a mile south of Schaupps. Mr. Obermiller announces that he will make a specialty of breeding so-called barren mares.
