And still they are at it.

Fourth number lecture course, at opera house, Friday, Feb. 14th, 1908, the Tennesseans. Mrs. Wiggs, of the cabbage patch, advises us "not to die before time. Lots of folks are walkin' aroun' jes as dead as they will ever be," and there I think we have the nepro power to fascinate the audience. Whatever may be the shortcomings of the colored race, they have the chief element of fascination. It is intensely alive. Come out and hear the Tennesseans.

The late severe cold weather has frozen up the mill race solid, necessitating the closing down of the Loup City Flour Mills for the balance of the winter. But as good fortune has it, the company is stock full of all milling products, made possible by the weeks of good weather we have been having, during which the mills run night and day for weeks, putting in as high as nineteen and twenty hours at a stretch. The mill boys are surely now entitled to a much needed rest.

King of Games ruled and the great Spirit of Fun ordered released. After the little feast and time came for goodbys all united in saying they had a fine time and each wishing her happiness in her new home at Burwell, for which she left Wednesday morning.

Motorman Guy O. Toulouse yesterday morning had both bones in his right wrist broken. He was engaged in cranking the air compressor of the motor car when the handle flew back, striking him across his wrist with the above result. The injury is said by the company's surgeon, Dr. O. E. Longacre, to be especially bad and it is possible he will not recover the use of the injured member for three or four months. In the meantime, it is fortunate that Mr. Toulouse has a policy in an accident insurance company, which will allow him \$20 per week during his disability.
