Balanovsky was born in Odessa, his father being a wealthy merchant of the city. He was given every advantage and was highly educated in his own language. Three years ago in September his father invited a number of his countrymen to spend the day with him. They feasted until afternoon, when like vultures the Cossacks swept down upon them and in the yard of the Balanovsky home 60 of the party lay butchered, for no other reason than they were Jewish by birth. Among the slain was the father of young Balanovsky, and kneeling by his bruised and mangled body he swore a terrible oath of vengeance. For this, and the additional was cast into prison. Suffered Torments from Birth-In Frightful Condition-Got No Help Until Cuticura Cured Him.

"I had an itching, tormenting eczema ever since I came into the world, and I am now a man 55 years old. I tried all kinds of medicines I heard of, but found no relief. I was truly in a frightful condition. At last I broke out all over with red and white boils, which kept growing until they were as big as walnuts, causing great pain and misery, but I kept from scratching as well as I could. I was so run down that I could hardly do my work I used Cuticura Soap, Ointment, Resolvent, and Pills for about eight months, and I can truthfully say seven acres of oats. My average yield I am cured. Hale Bordwell, Tipton, Ia., Aug. 17, 1907.

SPLENDID OPPORTUNITIES OFFERED BY WESTERN CANADA.

St. Paul, Minn., Feb. 9, 1908 .- Present indications are that the Canadian Northwest will draw an exceptionally heavy movement of new settlers from the United States this year. It should surpass the banner record for 1907. This is not only based on the fact that the Americans have come to realize generally that the Canadian Northwest offers splendid opportunities, but also because the railroads have awakened to the fact and are

able. The lines which lead to St. Paul from the east and south are offering homeseekers' rates to the Canadian Northwest this year which are on a parity with those in existence to the southwest for a couple of seasons. These rates can be obtained from

any agent of the Canadian government, who will be pleased to give all information possible regarding those districts which offer the greatest inducements to settlers. The weather throughout Western Canada has been remarkably good this year. A telegram from the winter wheat belt of Southern Alberta dated at Cardston, Alberta, January 29th, says:

"This winter up to January 25 was nothing short of a marvel, in fact, it was the finest anyone can remember for twenty-five years though there have been others nearly as good. The days were fine, sunny and warm with light frosts at night. Overcoats and gloves, etc., were discarded by most people in the day time. There was so little frost in the ground that post holes could be dug without any trouble after the first inch was broken through. Winter wheat remained fresh and green although there has been no snow since the September storm. If there is an early spring, winter wheat should gain a great start

Amongst the reports of the yield of last year the following extracts are taken

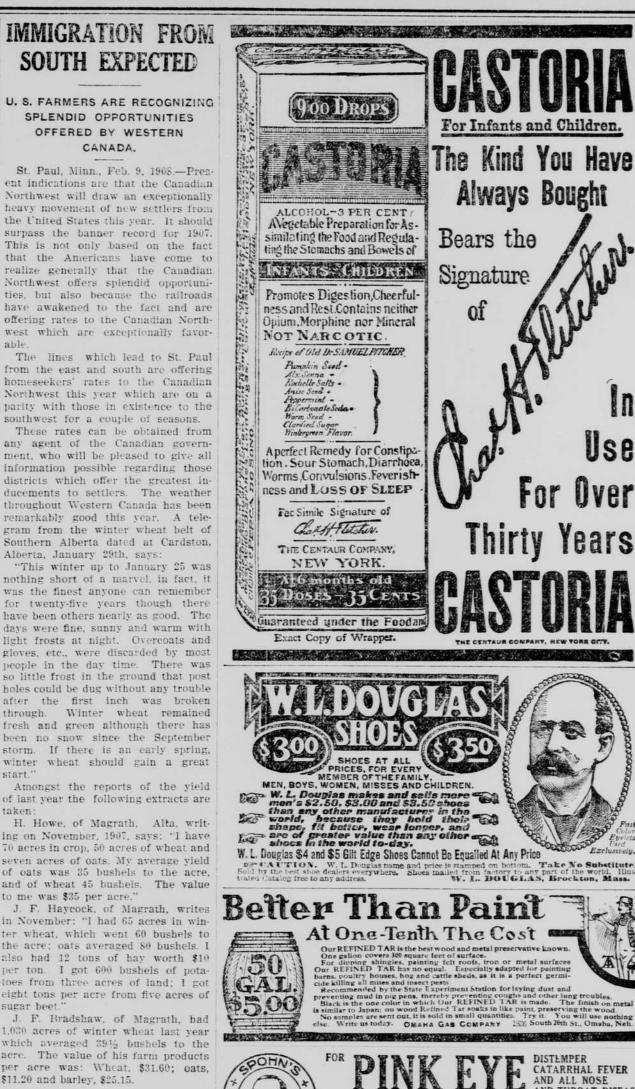

H. Howe, of Magrath. Alta, writing on November, 1907, says: "I have 70 acres in crop, 50 acres of wheat and of oats was 35 bushels to the acre, and of wheat 45 bushels. The value to me was \$35 per acre."

J. F. Haycock, of Magrath, writes in November: "I had 65 acres in winter wheat, which went 60 bushels to the acre; oats averaged 80 bushels. I also had 12 tons of hay worth \$10 Prof. W. B. Elkin of the University per ton. I got 600 bushels of pota-

Plans were laid for their escape and finally the little party made a dash for freedom, nine of them gave up their lives in the first ten miles, but Balanovsky and seven others managed to make their way to freedom after more than three months of wandering by night and hiding by day. Sometimes for several days they were compelled to subsist on roots and herbs, and although they passed within sight of the towers and spires of Odessa, they dared not visit their friends. Neither were the Jewish people with whom they came in contact able to assist them in any way the body, that a woman's feminine out of the country, for fear of the organism needs immediate attention. harm which would befall them should it become known to the secret police of the empire. Finally they crossed the frontier and were able to send word to friends and relatives in this country. Money was immediately forwarded and about one month ago the party landed in Boston. Soon after landing the two girls of the party were united in marriage to two of the male members of the party, while Balanovsky came directly to this city to the home of his cousin, Joe Steinberg.
