ECONOMY CARRIED TOO FAR.

Old Man's Thrift That Led Him Into Ridiculous Action.

President J. G. Schurman of Cornell was discussing elective college courses, of which in the freshman and sophomore years, he disapproves.

"A freshman of 16 or 17," said President Schurman, "is too young to choose for himself the courses best for him. His mind is not mature enough. It will make mistakes."

"In its immaturity, its proneness to error, it is like the mind of an old man in my native Freetown. He, though old, was mentally undeveloped, and saw nothing wrong or ridiculous in a piece of economy that he put in practice in the cemetery."

"The old man had lost four wives, and desired to erect for each a headstone, with an inscription commemorative of her wifely virtues."

"But inscriptions, he found, were very expensive. He economized in this way:

"He had the Christian name of each wife cut on a small stone above her grave—'Emma,' 'Mary,' 'Hester,' 'Edith.' Under each name a hand pointed to a large stone in the center of the lot, and under each hand were the words:

"For epitaph see large stone."

Perfectly Plain. With all the impartiality of the partisan, Prof. Price set forth the contentions of both political parties regarding the tariff.

At the close of his talk he was surrounded by the fair members of the Woman's Current Events club.

"O Prof. Price," cooed the fairest, "thank you so much for your perfectly lovely talk! I understand all about the tariff now. It's just like a lover's comparisons—the free-traders are the other girls!"—Sunday Magazine.

MUCH CASH IS IN TREASURY.

Failure of Sellers to Deliver Bonds Causes it to Pile Up.

Lincoln—State Treasurer Brian's report for the month of February shows that he had balances on hand February 1 of \$568,406.82; receipts, \$638,881.44; payments, \$456,844.68; balances February 29, \$745,443.58. Checks cash and cash items, \$175,281.94; cash on deposit, \$570,161.64. The cash on deposit is unusually large and is explained by the fact that nearly \$200,000 of bonds bought were not delivered and consequently the cash is still on hand. The bidder was not compelled to purchase a bond to deliver the purchase, therefore the state can enforce no penalty for the failure to deliver. The treasurer is preparing to make a big purchase of bonds soon. The item of \$175,281 in checks, cash and cash items is an unusual one. Mr. Brian is holding the checks because the limit of the state funds in depositories, governed by the amount of bonds given by depositories has been reached. Many banks have applied to be made depositories, but have been refused because these checks and cash items probably will be in the treasurer's hands only a short time and no more depositories are needed.

BAND WAGON FOR CORN SHOW.

One State After Another Falls in Line for Exhibit.

Omaha—One state after another is lining up to make the National Corn exposition, which is to be held in Omaha in December, one of the greatest shows in history.

More than fifteen states are now pledged to its support, while commercial clubs and chambers of commerce in all parts of the country are taking an interest in the big enterprise.

President G. W. Wattles of the Corn exposition, who is visiting in California, telegraphed as follows:

J. Wilkes Jones, Manager National Corn Exposition, Omaha, Neb.: Los Angeles Chamber of Commerce will make large exhibit at Corn exposition. Please reserve ample space.

G. W. WATTLES. Governor Frank J. Hanly of Indiana has written to the managers of the show commending it and offering any assistance which is needed from Indiana.

VALUE OF LOUP RIVER.

Discharges More Water Than Any Stream in the State.

Lincoln—The Loup river is a valuable stream. According to figures compiled by the irrigation department the flow of the stream is more uniform than that of any other river. Of all the rivers the Loup flows with the slightest variation. The Platte exceeds the discharge of the Loup at certain seasons of the year above the mouth of the Loup, but its variation is so wide that its value from a power and irrigation standpoint is not so great as the smaller northern stream.

Mind Reader on Olsen Case.

Pender—Sheriff Dorey, Olaf Olsen and County Attorney Chase, accompanied by a woman mind reader from Sioux City, left Pender for Rosalie for the purpose of locating the body of Lillie Olson. The sheriff and the clairvoyant returned in the evening from the farm on which Olson formerly resided. She took the officers to a grave on the farm, but it was one made over a year ago and with which the neighbors were all familiar. To satisfy all curiosity the body was disinterred and found, as Olsen stated, to be that of a babe which died at birth. The search was continued during the day, but nothing developed.

Booming the Corn Show.

Lincoln—Members of the State Board of Agriculture and the Board of Horticulture met here to take action toward helping along the corn show to be held in Omaha next fall. The project had the unanimous approval of those present and the Board of Agriculture voted \$500 to be used in promoting the enterprise. A committee was also appointed by the joint board to help boost the enterprise. Speeches were made by Governor Sheldon and Prof. Jones.

Hastings Clergymen Threatened.

Hastings—Numerous unsigned letters have been received by the various ministers threatening their lives if they did not quit the fight against the saloons. The city of Hastings is stirred to a white heat over the saloon question and in a men's mass meeting resolutions were unanimously adopted which will make the fight at the next spring election one of license or no license.

Bonds for County High School.

Brown county is the first county in the state to notify the state treasurer that it is going to vote on the proposition to issue bonds for the purpose of erecting a county high school building.

HERMAN BOCHE GUILTY.

Jury Finds That He Killed Saloon-Keeper Frank Jarmer.

Madison—Herman Boche, a Madison county farmer, who has been on trial for the killing of Frank Jarmer, a Norfolk saloonkeeper, on May 1, 1907, at Norfolk was found guilty of manslaughter, and will have to serve from one to ten years in the penitentiary. The verdict is considered a victory for the defendant, in that public sentiment has at all times been strongly against Boche, since commission of the crime.

A WELL MAN, AT 81.

The Interesting Experience of an Old Settler of Virginia.

Daniel S. Queen, Burrell Street, Salem, Va., says: "Years ago while lifting a heavy weight a sudden pain shot through my back and after that I was in constant misery from kidney trouble. One spell kept me in bed six weeks. My arms and legs were stiff and I was helpless as a child. The urine was discolored and though I used one remedy after another, I was not helped until I used Doan's Kidney Pills, and I was so bad then that the first box made only a slight change. Today, however, I am a well man, at 81, and I owe my life and health to the use of Doan's Kidney Pills."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

HER SUSPICION.

THREE CURES OF ECZEMA.

Woman Tells of Her Brother's Terrible Suffering—Two Babies Also Cured—Cuticura Invaluable.

"My brother had eczema three different summers. Each summer it came out between his shoulders and down his back, and he said his suffering was terrible. When it came on the third summer, he bought a box of Cuticura Ointment and gave it a faithful trial. Soon he began to feel better and he cured himself entirely of eczema with Cuticura. A lady in Indiana heard of how my daughter, Mrs. Miller, had cured her little son of terrible eczema by the Cuticura Remedies. This lady's little one had the eczema so badly that they thought they would lose it. She used Cuticura Remedies and they cured her child entirely, and the disease never came back. Mrs. Sarah E. Lusk, Coldwater, Mich., Aug. 15 and Sept. 2, 1907."

OLD GENTLEMAN NOT PLEASED.

Letter's Inscription Certainly the Reverse of Flattering.

In the English club at Hongkong a white-haired old gentleman, who had come down from some northern port, was seated at dinner when he suddenly became very excited. He had been brought a letter by a solemn Chinese butler, and he saw something on the outside of this letter which sent him downstairs two steps at a time to interview the hall porter. When he came back he told us what was the matter. The hall porter had inscribed in the envelope, in Chinese, for the information of the butler:

"This is for the old baboon with white fur."

Unfortunately for the hall porter, the old gentleman was a first-class scholar in the Chinese language.

Diplomacy.

"Why do you make a practice of predicting bad weather?" "It's the safest plan," answered the professional prophet. "If the bad weather prediction comes true, people have to admit I am right, and if the weather is pleasant they feel too good-natured to care whether I was right or wrong."

THE DOCTOR'S GIFT.

Food Worth Its Weight in Gold.

We usually expect the doctor to put us on some kind of penance and give us bitter medicines.

A Penn. doctor brought a patient something entirely different and the results are truly interesting. "Two years ago," writes this patient, "I was a frequent victim of acute indigestion and biliousness, being allowed to eat very few things. One day our family doctor brought me a small package, saying he had found something for me to eat, at last."

"He said it was a food called Grape-Nuts, and even as its golden color might suggest, it was worth its weight in gold. I was sick and tired, trying one thing after another to no avail, but at last consented to try this new food."

"Well! it surpassed my doctor's fondest anticipation and every day since then I have blessed the good doctor and the inventor of Grape-Nuts."

"I noticed improvement at once and in a month's time my former spells of indigestion had disappeared. In two months I felt like a new man. My brain was much clearer and keener, my body took on the vitality of youth, and this condition has continued." "There's a Reason." Name given by Postum Co., Battle Creek, Mich. WHAT WINTER WHEAT IS DOING FOR SOUTHERN ALBERTA.

Splendid Crops on the Former Ranche Plains of Canadian West.

That portion of the country in Western Canada formerly recognized as ranching country has developed into one of the best winter wheat districts in the continent. Yields are quoted running from 30 to 60 bushels to the acre, and giving a return to the farmer of from \$25 to \$50 per acre. These lands are now selling at from \$12 to \$20 per acre, and pay well at that figure. H. Howes of Magrath, Alberta, Western Canada, had 50 acres of land in wheat, which averaged 45 bushels to the acre; his yield of oats was 35 bushels. The value to him per acre of wheat was \$35.00. J. F. Haycock of the same place, says: "I had 65 acres of wheat, 35 acres of oats and four acres of barley. My average yield of oats to the acre was 80 bushels; wheat—winter—60 bushels and red rye, 33 bushels, and barley, 50 bushels. The value to me per acre, wheat, \$28.00; oats, \$32.00, and barley, \$24.00." J. F. Bradshaw of Magrath, had 1,030 acres of wheat in crop that averaged 39 1/2 bushels to the acre, his oats, 32 bushels; barley, 53 bushels. He threshed 31,000 bushels of wheat from 540 acres. He also had 250 tons of sugar beets from 25 acres worth \$5,62 1/2 per ton. W. S. Sherod, of Lethbridge, says: "I came to Lethbridge from Souris, North Dakota, in April, 1907, having purchased 900 acres of land in this district last fall. I had 128 acres of Alberta Red winter wheat which was put in on breaking in the fall of 1906, which yielded 41 1/2 bushels to the acre, for which I received 87 1/2 cents per bushel, which paid me \$36.30 per acre. I had 190 acres "stubbled in" that is disced in on the stubble, which yielded 22 bushels to the acre at 87 1/2 cents per bushel, which paid me \$19.25 to the acre. I also had 350 acres of strictly volunteer crop, which it was intended to prepare in the summer; but when it was seen that it was a good looking crop, it was allowed to go. From this we threshed 15 bushels to the acre, which paid us at the rate of 87 1/2 cents per bushel or \$13.12 per acre. Our total crop yielded us 14,742 bushels of first-class wheat. Taking it as a whole, I consider that I had a first-class crop all through; and, taking into consideration the fact of part of the crop having been "stubbled in," and part strictly volunteer (which was never touched at all until the binder was put into it), I consider I had a heavy crop. I might say that I was in North Dakota five years, and I never grew as heavy a crop during that time. This is the 25th day of November, and my teams are still ploughing, and, from the appearance of the weather, will be for some time yet." R. W. Bradshaw of Magrath, says: "I had this year 400 acres in crop, viz.: 200 acres of wheat and 200 acres in oats. My average yield of oats to the acre was 50 bushels, and wheat, 22 1/2 bushels. The value to me per acre for wheat was \$19.00, and oats, \$17.00. The highest price obtained by me this year or offered me for my grain was for wheat 82 cents per bushel, and \$1.05 per hundred for oats. I also had 100 tons of hay worth \$12.00 per ton, and will say my wheat was all volunteer this year. Lots of wheat is averaging from 50 to 60 bushels per acre on summer fallow, and on new breaking, when the breaking was done early in the spring." Writing from Spring Coulee, Alberta, W. L. Thompson says: "I had this year 3,000 acres in crop, viz.: 2,000 acres of wheat and 1,000 acres of oats. My average yield of oats to the acre was 20 bushels and of wheat 35 bushels. The value to me per acre for wheat was \$27.00 and for oats \$15.00."

Kleptomania.

It has been announced on the highest medical authority that kleptomania is more prevalent among women than among men. Be that as it may, the newest and most unique plea in this connection was that advanced by a negro in a Lynchburg (Va.) court. After listening to a long explanation from his counsel, the dandy thought to impress the judge by adding his mite. So he broke in with: "Yessah, dat's it! Jedge, yo' honah, dat's it! De chickens done hypnotize me, Jedge, an' den de kleptomania come on!"—Illustrated Sunday Magazine.
