MARSHAL THE MENTAL FACULTY

System Necessary to Get Best Work from the Brain.

The normal mind acts under law. The mental faculties will not give up their best unless they are marshaled by system. They respond cordially to order, but they rebel against slipshod methods. They are like soldiers. They must have a leader, a general

who enforces order, method. The majority of people get very little out of their brains because they never learn to think systematically. Their minds are like some country stores where everything is jumbled up. There is no order or method anywhere. They browse, or cogitate, but they do not focus their minds and conduct their mental processes with order.

Dr. Rich, the well known Grand Island Specialist, has arranged a system of Home Treatment for Catarrh of the various organs of the body, and is now prepared to supply to any sufferer from this prevalent disease a course of remedies that will be found to be not only satisfactory in every respect, but at a price certainly reasonable, and within the reach of everybody. During the five years Dr. Rich has been in Grand Island he has carefully avoided the treatment of Catarrhal conditions of the body, not being prepared to take up a work requiring time from his already extensive office business. During the past year, however, Dr. Rich has perfected a method which he offers below, for treating Catarrh in the home, and feels not only assured of excellent results, but that he will make many new friends, which will assist in increasing his already large practice. A photograph below shows one of the \$3.00 outfits, and should give a perfect idea of the value offered. Dr. Rich's treatment for Catarrh is a Home Treatment in every sense, and can be used without detention from business. A full month's treatment of these remedies will be sent for \$3.00. You may order as often as you like at the same price, or have the treatment sent to your friends. As there will be a large demand from the many people familiar with Dr. Rich's reputation as a Skillful Specialist, you are kindly requested to order early and avoid delay.

Slovenly mental habits will destroy the finest minds. The strength and persistence of our habitual thought force measure our efficiency. The habitual thought force in many people is so feeble and spasmodic that they cannot focus their minds with sufficient vigor to accomplish much. We can quickly tell the first time we meet a person whether his thought force is strong or weak, for every sentence he utters will partake of its quality. The person who has a negative thought force betrays his lack of

strength in his every word. His language is weak, has no gripping quality. But the man with a vigorous mentality takes right hold of you, grips your mind with every sentence. His power thrills you, and you feel immediately that you are in the presence of a strong personality. It is the positive, the aggressive thought that creates, that invents. The negative thought is always weak.—Success Magazine.

The Dog, the Cat and the Lady.

Yesterday evening, shortly after seven o'clock, a daintily attired young lady was passing our galleries in Regent street, where is now on exhibition a collection of old sporting prints. The galleries had just been closed and the staff gone, and the housekeeper's cat was enjoying the cool of the evening outside, when the lady's companion—a ferocious bulldog—flew at the cat and both dashed through the window, doing damage to the extent of many pounds. The cat was almost in-

stantly killed, and as the usual crowd quickly gathered, milady discreetly hailed a taxicab and, followed by her sporting companion, who seemed none the worse for his dash through a half-inch plate-glass window, drove quickly from the scene.—London Telegraph.
