### Facts About

## The Great Majestic Range

It is the only range in the world made of Malleable and Charcoal Iron.

It has, beyond any question of a doubt, the largest and best reservoir.

It uses about half the fuel used on other ranges, and does better work by far.

The Majestic All Copper Nickered Reservoir heats the water quicker and hotter than any other. It is the only reservoir with a removable frame.

The Charcoal Iron Body of the Great Majestic Range lasts three times as long as a steel body.

Being made of non-breakable material, there is practically no expense for repairing the Majestic.

As for baking, it is perfection; not only for a few months, but for all time to come.

A Great Majestic Range lasts three times as long as a cheap range, but don't cost three times as much.

**PROOF**—We don't ask you to take our word for any of the above statements, but if you will call at our store, a man from the factory, where Majestic Ranges are made, will prove to your satisfaction that these are absolute facts, and will show you many more reasons why the Great Majestic Range is absolutely the best that money can buy.

For President—  
WILLIAM H. TAFT, of Ohio.  
For Vice President—  
JAMES S. SHERMAN, of New York.

Chanler will probably be the democratic candidate for governor of New York.

One of the worst elements in the primary law is the power given party candidates to select the party's county central committee.

The primary law made possible the selection of a renegade republican as chairman of the county central committee. How do you like such a law?

Just now there is the lie given between Bryan and Hearst. Hearst says Bryan made a bid for his support for president this time, with the promise that he will support Hearst for the presidency four years hence. To all of this Bryan gives the lie, while Hearst comes back with a reiteration of the truth of his assertion. Which is the biggest member of the Annans club?

The Kearney Hub this week tells of the project of a proposed inter-urban railway from Kearney up the Loup valley some eighty miles. It claims surveys are being made and that a charter will be secured at once and work begun this season. According to the Hub the proposed line will extend north from Kearney to Pleasanton and thence up the Loup valley some sixty miles. This would undoubtedly take in Loup City, and is worth while for our leading citizens to look into the matter.

Grand Island has made arrangements for a "Fall Frontier and Harvest Festival" to be held at that place on October 6, 7 and 8, 1908. We have not the space this week to give in detail the interesting points of the coming great event, but will do so next week. There will be two troops of U. S. cavalry, an army of cowboys, a lot of Sioux Indians, a big bunch of outlaw bronchos to be ridden, \$2,000 in cash prizes given in the various events, crack rifle shooting by the best marksmen of the country, and an hundred and one events calculated to make this one of the biggest times in the history of Nebraska.

Nebraska appears among the fortunate states in point of corn crop in the government's September report. Illinois is twelve points below an average crop, Iowa three below, Missouri nine, Ohio two and Indiana eighteen. Nebraska is four points above the average. Kansas and Oklahoma one point each and Texas ten points. As the September report, barring untimely frosts, is approximately final, it indicates only a fair crop for the country with Nebraska ranking only below Texas of the important corn states in fullness and quality of crop. Nebraska should be immune to anything like hard times for another twelve months at least.

### The Tripp Reservation.

W. D. Zimmerman of Loup City has been appointed agent for Butterfield & Barnum of Tripp county, South Dakota, who are submitting the best proposition to those who will file on lands in Tripp county.

Their proposition is as follows: For the sum of \$5.25 we will give each person registering with us the following services:

First, we prepare the necessary registration affidavit and have it properly executed before our notaries and file this affidavit with the proper officials at the land office. There will be no standing in line at the land office.

Second, we furnish each person with a sectional map (1 inch to the mile) of Tripp county, South Dakota, showing all of the vacant lands subject to homestead entry and also all of the Indian allotments and the allottee name and number, which number appears on the allotment stake at the corners of the land. This map is an exact copy of the official topographical plats and shows each hill and draw, as well as the lakes, creeks and rivers, also shows the timber along the streams. It is as perfect a map as can be made and unless it could be sold in large quantities could not be made and sold for less than \$2.50.

Third, we notify each person by telegram on the day his number is drawn if he has drawn a number within the number of homesteads, which is worth on an average of \$1.00 for each person.

Fourth, we locate without further charge each person who has drawn a number within the number of homesteads upon the 160 acres of land that he selects and is subject to entry on the day he is required to make his filing.

Fifth, for the purpose of advertising we will give away absolutely free 480 acres of land, 320 acres in Meyer county, South Dakota, worth \$4800 and 160 acres in Tripp county, South Dakota, worth \$3200, we will execute and deliver deed and deliver to the person who has registered at our office and holds our certificate, and who has drawn the highest number through the government agent in charge of the drawing and furnish abstract showing good title free of all incumbrance whatsoever. To the person who has in like manner drawn the next highest number we will execute and deliver a warranty deed to the 160 acres in Tripp county, South Dakota, and furnish an abstract showing good title.

We will also make proper arrangements for caring for people who come to our office to register. In order for us to do this it will be necessary for you to see our agent at once so as to confer with the railroad company so that the necessary cars and trains can be arranged for. Our map of Tripp is in course of preparation and will be ready on time for delivery to our customers.

We omitted mentioning above that \$1.00 is to be paid at time application is signed with our agent, and \$4.25 to be paid at our office at Dallas, S. D. The \$1.00 paid to our agent is to be held by him until we comply with the above agreement, and on failure of our part to so comply, he is to refund said \$1.00 to said party who has registered at his office.

BUTTERFIELD & BARNUM.

Hughes of New York was overwhelmingly re-nominated for governor Tuesday by the republican state convention on the first ballot.

The Baptist Ladies' Aid Society will meet with Mrs. Timson, Wednesday, Sept. 23. All meet at the home of Mrs. W. S. Waite at 1:30 where a wagon will be ready to take them out.

One of the best displays of farm products at the fair is that on exhibition by Ira Foster. All of this exhibit was raised on the Foster farm fourteen miles north of Ord and this is generally termed the sand hills. Mr. Foster is also showing a half dozen head of thoroughbred Herefords and his brother from Loup City has about the same number on exhibition. The judges will find it hard to get away from the Foster cattle without leaving some blue ribbons.—Ord Quiz.
