Later after the fancied wrong to said Wachowski, the latter is alleged to have followed up threats of personal harm on the good father by shooting a few times in the vicinity of the priest's residence, alarming the priest to such an extent that he had defendant arrested, the matter culminating in Wachowski being bound over to the district court in the sum of \$1000 and for which defendant and Stanislaus Galczynski have made good and will rest there till action is had by the court.

This year the Republican state ticket will be supported in the campaign by the best record made by any administration in the state's history. The Democratic ticket will be supported by the political agents of the great railway corporations doing business in the state. The voter must decide whether he will face forward under the banner borne by Governor Sheldon and his Republican associates, or face to the rear beneath the banner of the allies—democracy and the railroads.

The Nebraska Republican Convention of 1907, which gave its unqualified approval of the splendid work of the last Republican legislature, and which nominated that magnificent Nebraska Jurist, M. B. Reese, for Judge of the Supreme Court, was the first state convention in the United States to declare for William Howard Taft for President. It should be a matter of pride on the part of every Nebraska Republican to see to it that Nebraska approves this endorsement of the polls next November.

"The Republican party is never in want of a man able and equipped for his task, for the great task of governing a free people in constitutional method. But there never has been a man called to that task with the equipment of William Howard Taft. That is the plain fact."—(Governor Hughes, of New York, addressing the Republican Club of New York City.)
