The repeated earthquake in the northeast part of the state turned out to be the result of the fall of a meteor.

Tuesday was ground hog day, and if that weather prognosticator did not see his ugly shadow he must have failed to get out of his hole in the ground.

Buck of Otee hits the nail squarely on the head when he says, "The anti-lobby law was one of the most puerile specimens of legislation that had been enacted."

The Peerless Bryan, having assisted the legislature to get into a glorious middle, has left for other scenes for a time.

It is rather amusing to read the editorial dissertations in some of our exchanges on Abraham Lincoln.

Judge Sullivan, who accepted an appointment to one of the supreme judgeships at the hands of Sheldon, served one day and then resigned and gave as a reason that he had formed a law partnership in Omaha, etc.

The supreme bench fight is taking on new and interesting phases.

Senator Ollis of Valley does not propose to allow employes of the senate to get pay only for the days actually employed and the senate is with him.

The democratic legislators are having all kinds of worry over the lobby law, or anti-lobby law, passed by the "Afraid-Some-one-Would-Steal-'Em" members of the legislature of two years since.

The worst wind storm that has visited this country since 1895, according to E. S. Hayhurst and other well informed citizens, was that which came to us last Thursday afternoon and night, and which wrought such havoc not only here but over the entire western part of the country.

How to Treat a Man. BY A HORSE. When a man drops from sheer exhaustion or illness promptly seize an end board or a cart stake and pound him on the head and ribs.

If a man finds his load too heavy, and feels that it will seriously strain him to proceed, kick off a fence board and knock him down and then hammer him thoroughly.

If a man refuses to drink when you give him water, do not give him any water for two days.

Tie your man's head back in an unnatural position with his eyes toward the sun.

In winter remove his clothing "to prevent his taking cold."

Men thus treated are 'much healthier' than when allowed winter clothing.

Aurelia E. Stuart was born in New York, Sept. 1st, 1833. She was married to Cornelius P. Bradley March 26, 1854. The three latter being in attendance at the obsequies, but the former unable to be here. The Northwestern, in an especial manner sympathizes with the stricken daughter, who has ministered to the loved mother in sickness and in health, and who most of all will feel the desolation of the home caused by the loss of that greatest of earthly blessings, the most holy thing on earth—the mother's love and sympathetic relations.

Under the statutes the Deputy Commissioner of the Bureau of Labor and Industrial Statistics is made manager of a free employment bureau where applicants for positions may file applications and where those wanting help may make the fact known.

The employment bureau is thus made a sort of industrial clearing house. Unfortunately, the legislature has never made adequate provision for the maintenance of this employment bureau, and it has never been pushed as it should be.

Deputy Commissioner Maupin has hopes, however, of securing the necessary support. In the meantime, he suggests that Nebraska farmers who may be desirous of employing farm help communicate with him, as he is in receipt of numerous inquiries from men who want to secure employment on farms.

The service is absolutely free, except that those writing should enclose stamp for reply. Address all communications to the Bureau of Labor and Industrial Statistics, Lincoln, Neb.

The Sign of Power. It is the greatest manifestation of power to be calm. It is easy to be active. Let the reins go, and the horses will drag you down.

Washington a High Mason. Washington was made a Mason in 1753, and attained a higher dignity in the order than any of the other presidents, though Andrew Jackson was grand master of Tennessee, the state which now holds one of the highest Masons in this country, ex-Congressman Richardson.

Too Much for Man. A Kansas gas man who has spent years in the business makes the statement that natural gas is capricious and that men who have studied it all their lives give up in despair when it comes to explaining the whys and wherefores of some of its ways.

Seek Use for White Fir. The forestry department has been conducting experiments with the hope of finding some commercial manner of making use of the white fir which is found on the Pacific coast in great quantities.

Truth by Uncle Eben. "It's all right," said Uncle Eben, "to have a proud spirit, provided you takes pride in what you kin do instead of in how much time you kin put in dressin' up an' loafin'."
