LOUP CITY, - NEBRASKA

Scrutinize the Maxims.

A busy clergyman declared recently was by violating most of the precents DEFEATS EMERGENCY CLAUSE was by violating most of the precepts he had been taught in boyhood, foremost among them, "If you want any thing done, do it yourself." The house keeper may take a leaf from his book For example, the task which she turns over to her daughter lightens her own hands and trains those of the little maiden. The most fatal precept for "mother" to observe is, "Whatever is worth doing at all, is worth doing well" -that is, if "well" is interpreted to mean "as well as you can do it." Here is a place for her to use that judgment which comes so high in the markets of the world and is too often held so cheap in the home. "As well as possible" is none too well when the task is making an apple pie or boiling a potato; but the woman who dusts her house from attic to cellar every day as well as she can do it lacks a sense of proportion. So does she who darns a pair of 25-cent stockings a half-hour a week for three months. "A penny saved is a penny earned" is another dangerous maxim, declares the Youth's Companion, unless it is administered with discretion. Cheap milk may involve large doctor's bills. Cheap eggs may mean an uneatable pudding. A low wage in the kitchen may carry with it waste far beyond its saving. Women are learning that being a woman demands some knowledge of almost every subject of modern economic inquiry, and that it is no longer possible to trust all the useful precepts of the past to solve the problems of the present.

The extraordinary and practical success that has attended the work of well-endowed government-supported institutions for the scientific study of methods for the treatment of such maladies as have hitherto resisted the efforts of physicians and surgeons is one of the most striking and promising features of present-day medicine. In the United States the most important of the few institutions of this kind is the Rockefeller Institute for Medical Research, founded in 1901 by Mr. John D. Rockefeller. Under this endowment there is maintained in New York city a well-equipped medical laboratory where a staff of trained investigators, free from the cares of routine practice. hospital work, or teaching, are concentrating their entire attention upon retion and cure of disease. As in other scientific institutions, where effective organization and adequacy of material equipment are most essential, remarks Herbert T. Wade, in the American Review of Reviews, so that at the Rockefeller institute everything has been arranged in order that experimental medicine may be prosecuted under conditions most productive of good re-

Some of the devices by which ignorance tries to deceive intelligence are amusing. The largest coal field in the United States is that which extends from Casper and Douglas, Wyo., northward to the Canadian line. Under the law which provides that coal lands of certain character and situation shall be withdrawn from homestead entry. investigation of this field has lately been made by government geologists. The coal here appears in what is known as "blanket veins," which lie nearly parallel to the surface, so that an outcrop appearing on one side of a hill is likely to be found on the other side at the same elevation. But many of the ranchers and would-be settlers, maintaining that "coal lands," under the law, are only those in which the coal appears on the surface, have gone so far as to level the tops of hills to cover outcropping coal veins, under the delusion that they could deceive the geologists.

Herculaneum lies under the modern villages of Portici and Resina. In attempting to excavate the buried city, the Italian government is encountering the problem of the property rights of the people who live on the modern level. The legal theory is that a landowner owns an inverted pyramid whose apex is the center of the earth -everything under him is his. But who inherits the property rights of the subsoil town which was buried 2,000 years ago? A law is pending to take by right of eminent domain the ground from under the Resina landowners, or at least the treasures it may conceal.

A scientist has made a calculation about the time it will take to fill the world with all the people it will hold. The present population of the globe is supposed to be about 1,467,000,000, and he estimates that the maximum of the inhabitants that can be sustained on the entire land surface of the earth is 5.994,000,000, and this figure will be reached A. D. 2072, or in about 180

Alfonso of Spain is a fine young man. Pity he gets these flighty spells!

The king of Spain is going to try to fix up a match between King Manuel of Portugal and a niece of King Edward of England. This is a compliment to Edward's nieces. Alfonso has tried one.

No iron ore is mined in the province of British Columbia. The only attempt thereat, at Quasino Sound, Vancouver island, has been found unprofitable and abandoned. The mining of zinc ore is also practically at a stand-

## Loup City orthwestern PASSES THE SENATE

LEGISLATURE NOW THROUGH WITH BANKING BILL.

Omaha Given Home Rule in Its Charter .- Other Matters Considered in the Legislature.

Banking Bill Passed. The depositors guaranty banking bill and the home rule Omaha charter were ratified by both the branches of the legislature on Friday. The banking bill which originated in the house was passed by the senate by a vote of 25 to 6 and the Omaha charter bill which originated in the senate was passed in the house by a vote of 78 to 13. The latter bill was passed with the emergency clause and the people of the metropolis may vote this, spring directly to elect their city engineer and the members of their fire and police board.

The banking bill was brought up for third reading as the last business of the afternoon session. Being placed on passage containing the emergency clause, the republicans voted against the bill for the purpose of striking this out. The democrats did not care to do this themselves, though several of their number were extremely anxious the bill should not be put in force on the day the governor will sign it. One or two of them begged republicans not to give the measure enough support to include the emergency portion. As this would have had the result of overturning the present banking system at once, the bill received only nineteen votes containing the clause to twelve against. Senators Banning and Laverty were paired, Senator Banning being obliged

to be absent. On the vote to pass the bill without the emergency clause the roll call was as follows:

Yeas - Bartos, Besse, Bodinson, Buck, Buhrman, Cain, Cox, Diers, disease and the systematic test of new | Donohoe, Fuller, Hatfield, Henry, Howell, Ketchum, King, Klein, Majors, Miller, Myers, Ollis, Ransom, Tanner, Tibbets, Volpp, Wiltse-25.

Nays-Brown, Gammill, Randall, Raymond, Thompson, Warren-6.

#### New Military Code

The senate recommended for passage the nw military code bill by Law. rence Dodge, which is merely an amendment of the present law, in accord with the amended Dick law. The measure will permit an added appropriation for armory rent in Omaha.

#### Campaign Contributions.

Publicity of campaign contributions was the subject of H. R. 242, by Mc-Vickers of Dodge, and it was amended to provide that all contributions to funds above \$25 must be made public. The measure was an amendment of the law already existing.

### Salary for Supreme Clerk.

The house recommended for passage H. R. 86, by Leidigh of Otoe, the bill providing a salary for the clerk of the supreme court and providing that all fees collected by the clerk shall be paid into the treasury. The salaries fixed are as follows: Clerk \$4,000; deputy clerk, \$2,500; reporter. \$1.800; assistant reporter, \$1,200; recond assistant reporter, \$1,000; assistant deputy, \$1,000; deputy librarian, \$1,000; stenographer, \$840.

### The Irrigation Bill.

G. L. Shumway of Scotts Bluff says, regarding senate file No. 174:

"The executive committee of the American Irrigation Federation, of which I am chairman, declared some time ago for such a general provision in our irrigation statutes-a law to prevent anyone from impounding and holding water in excess of his needs. Water is too vital an element to be held in storage when homemakers' crops are burning up."

· This committee consists of L. M. Wilcox, editor of the Field and Farm, Denver; Zera Snow, Oregon; J. Turley, New Mexico; John McAlpine, Minnesota, and C. E. Brainard, Idaho; with Mr. Shumway as chairman. He continued:

"There are some vague or inexplicit points in the bill that might be rectified. The law should provide that notice be served upon the primary applicant whenever anyone applies for a secondary permit.

"Then, again, when lands are supplied by an appropriation, which the owner thereof deems an insufficient supply, and he wishes a supplemental appropriation from the reservoir of another, the owner of the reservoir shall have first right to make the application to furnish the supplemental supply. The government, having the best reservoir sites in Nebraska, it will be enabled to supply such other canals as may be short of water, and reduce the expense to the water users under its own project.

No Telephone Bill.

In committee of the whole the senate indefinitely postponed the bill by Senator Miller of Lancaster, placing regulation of telephone companies entirely in the control of the railway commission. The bill, Mr. Miller said. was for the purpose of conferring power upon the commission which it was exercising at present for the modification of rates and control of service of the telephone company, but which there was some doubt whether the railway commission act conferred to the extent the commission desired.

Change in Assessor Law.

The senate recommended for passage a bill relative to the election of assessors. H. R. 214 changes the existing election law to conform with the constitutional amendment for election of supreme judges, provides for the election of precinct assessors every two years, beginning in 1909; dividing the counties into districts by township lines and specifying one assessor for each city or village with 1,000 population and in cities of over | however, was taken to be an effort about three miles southeast of Her-4,000 people one assessor for each inerely to de.cat t e bill, and it was man. Mr. Warrick had been in poor 4,000 people.

STOCK YARDS HEARD.

sidered.

A hearing on Representative Taylor's bill reducing charges of the South Omaha Stock Yards company was given by the committee on miscellaneous subjects. The bill reduces vardage charges 20 per cent on cattle, and on hogs 6 cents a head. It provides feed shall be sold not over 35 per cent above market price. General Manager Buckingham, supported by Senator Ransom, who questioned him at intervals to bring out details, presented statistics of the company He showed its capital to be \$7,500,000 of which \$2,500,000 was given as a bonus to get the packing houses to locate at South Omaha. Net earnings for a series of years have been as follows: In 1903, \$508,864; 1904, \$467,-700; 1905, \$471,000; 1906, \$504,000; 1907, \$490,000; 1908, \$496,000.

This, he said, paid 6 per cent on the stock, save a small annual deficit ranging from \$7,000 a year ago to \$700 last year.

The committee decided to report the bill for passage, amended to make a reduction on yardage charges below present rates averaging about 10 per life insurance men are back of The cided to leave the feeding charges as they are now

The present yardage charge of 25 cents a head on horses and mules are left unchanged. The maximum on car lots of cattle was cut from \$8 to \$7. The charge for hogs was left at 8 up the work of soliciting life insurcents a head, on car lots the maxi- ance either on full or part time. Libmum was cut from \$8 to \$6. Yardage eral commissions are paid. For adon sheep was cut from 5 to 4 cents ditional information write to N. Z. a head

Suffrage in the Senate.

Loud applause rang through the galleries of the senate when H. R. No. 120, a constitutional amendment granting suffrage to women, was placed on the general file by a vote of 18 to 13. The applause came from the many women who had come early and obtained seats in the gallery for the purpose of witnessing the contest that was expected to take place. While | ing a man with her. the bill was saved from instant defeat, the vote cast showed that it still lacks one vote necessary to its passage. Twenty votes are required in the senate to submit a constitutional amendment to a vote of the people As the senate indefinitely postponed a bill of this nature early in the session, it is generally believed the necessary additional vote cannot be ob-

Physicial Valuation Bill. The Ollis physical valuation bill was Woodard, resigned. recommended for passage after the \$40,000 had been cut off it. This was believed necessary because the bill priation will be added to the present feeble. appropriation bill

Saturday Holiday Lost. H. R. 255, by Humphrey of Lancaster, was indefinitely postponed by the house in the committee of the whole siderable money about him, lived with little ceremony. It was a case of "No Sunday baseball; no Saturday afternoon holidays," as Scheele of Seward expressed it.

Pushing Irrigation Bill. Senator Raymond of Scott's Bluff is still urging S. F. 174, providing for condemnation of reservoir sites for benefit of water users. Agitation cause the fear of the tri-state canal.

Anti-Jap Bill for Passage

tion in this instance.

The house recommended for passage sideration of the action, but he failed

Two Bills Favored.

The house recommended for passage two liquor bills, H. R. 284, by Henry of Holt preventing the sale of liquor to Indians and H. R. 260, by Barrett, providing that the bartender as well as the saloonkeeper is responsible for the sale of liquor to minors.

New Building for Omaha Institute. The house recommended for pas sage the bill providing for an appropriation for a new building at the In stitute for the Deaf at Omaha. The bill originally carried an appropriation of \$50,000, but it was cut down to \$30,000.

Taxation Bill Is Killed. The house indefinitely postponed the bill permitting assessors to examine the records of banks in order to uncover property subject to taxation.

Killed Ransom's Bill.

Unwilling to expend the sum of \$27. statues, the senate refused to pass the board. Senator Ransom's bill, the vote being 7 to 25. The bill provides that the governor should appoint three commissioners with qualifications of supreme judges, to go over the statues, revise and codify them, eliminating service, if the lower house passes the obsolete portions and bringing them up to date. Each commissioner was proval of the senate. The bill proto receive \$3,500 per year and have a vides that cities may levy a tax to pro-\$1,000 stenographer.

No Inquisition on Banks. After a hard fight on the floor of other term. the house the bill by Fries of Howard to provide that assessors may have the right to enter a bank and check up its books in order to make an assessment on the deposits was killed.

Governor Signs Paint Bill.

Gov. Shallenberger attached his name to the pure paint bill, H. R. 140. against which the paint men of the public hearing.

Purchase of Wayne Normal.

The North Platte country received istry. recognition at the hands of the house of representatives after a hard fight and as a result the bill providing for the purchase of the Wayne Normal school was recommended for passage McVicker of Dodge moved an amend- the court house, one block from the ment that the \$100,000 appropriation church, which was recently burned. be increased to \$180,000 and to include the purchase of the Fremont Normal school. This amendment, dropped dead suddenly on his farm, not allowed to work interference. health for some weeks.

MEXICO'S ACTIVE VOLCANO.

Eruptins of Mount Colima Do Not Disturb the Natives.

Tuxpan, Mexico.-The eruption of the volcano, Mount Colima, is not causing much anxiety among the people of this town. The volcano has been in an almost constant state of semi-activity, with occasional outbursts of fire and lava for more than a century. The natives, who live almost within its shadow, are used to the ferocious displays of the old mountain. It is really a very enjoyable form of entertainment for the people of Tuxpan. In its most violent pe-

riods, when the heavens are lighted with the glowing flames and fire from its crater the Mexicans here sit at their open windows and doors and lounge upon the benches in the pretty plaza and view the grand spectacle in silent wonder.

"Is it not grand!" they comment, one to another. To the natives the eruption does not portend their possible destruction.

But they fear the earth tremblings which frequently accompany the eruptions. An earthquake in Tuxpan, such is has been occurring at frequent intervals since the volcano showed renewed signs of activity, quickly brings he whole populace into the streets. It is said by scientists that these seisnic disturbances are wholly local in character and are directly connected with the eruption of the volcano.

Mount Colima is the only active volcano upon the North American continent. It had very few serious eruptions during the eighteenth century. and the villages of the natives crowded close up to its base. It was not until 1869 that the first violent outburst in its history occurred. Much destruction of property and some loss of life resulted from that eruption. Other eruptions occurred in 1872, 1873, 1875 and 1903. The peak of Mount Colima rose to a height of 12,800 feet up to the eruption of 1903, when its top was torn off and the height of the

mountain considerably reduced. A few daring scientists have it is ice. climbed Mount Colima, with the view of making a close investigation of its crater during the more passive periods of the old mountain. The trip is considered very hazardous at any time on account of the deep barraneas that must be crossed

WOULD SAIL TO NORTH POLE.

G. E. Nit-che Preparing for Dash with Bailoons and Aeroplanes.

New York .- George E. Nitzche, head of the department o. publicity in the University of Pennsylvania, is

making preparations for a dash to the north pole next July by means of balloons and aeroplanes. Undeterred by he fate of Andre and the failure of Wellman, Mr. Nitzche will make the attempt along novel lines. He will carry to the island of Spitzbergen three balloons, and probably in addition an aeroplane. Spitzbergen is 1,035 miles north of the arctic circle and several hundred miles east of the north coast of Greenland. If the weather is good he will have a straight course to travel until he reaches his goal. The island of Spitzbergen was carefully inspected last summer by Mr. Nitzche, who with a party of 30 made a preliminary trip on the steamship Kongharold. The weather during the survey was so mild that Mr Nitzche was encouraged to believe that with good fortune the coming summer would be also a moderate one and he would not be compelled to combat the elements at the start.

These women are only a few of thousands of living witnesses of the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases. Not one of these women ever received compensation in any form for the use of their names in this advertisement - but are willing that we should refer to them because of the good they may do other suffering women to prove that Lydia E. Pinkham's Vegetable Compound is a reliable and honest medicine, and that the statements made in our advertisements regarding its merit are the

Per Salzer's catalog page 129. Largest growers of onion and vegetableeds in the world. Big catalog free: or seeds in the world.
