Her Answer.

An Atchison girl had a proposal of marriage Sunday night and asked a week to think it over. She went to all of her married sisters. One, who used to be a belle, had three children, did all her own work and hadn't been to the theater or out riding since she was married. Another, whose husband was a promising young man at the time she was married, was supporting him. A third didn't dare say her life was her own when her husband was around, and a fourth was divorced. After visiting them and hearing their woes, the heroine of this little tale went home, got pen, ink and paper and wrote an answer to the young man. You may think it was refusing him, but it wasn't. She said she could be ready in a month .- Atch-Cobbey's statutes. ison Globe.

Sheer white goods, in fact, any fine wash goods when new, owe much of their attractiveness to the way they are laundered, this being done in a manner to enhance their textile beauty. Home laundering would be equally satisfactory if proper attention was given to starching, the first essential being good Starch, which has sufficient strength to stiffen, without thickening the goods. Try Defiance Starch and you will be pleasantly surprised at the improved appearance of your work.

Assuming the Responsibility.

Mrs. Malone's patience was much tried by a servant who had a habit of standing around with her mouth open. One day, as the maid waited upon the table, her mouth was open, as usual, and her mistress, giving her a severe look, said:

There is more Catarrh In this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great-many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional dis-case, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in does from 10 drops to a teapponful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send

NO NEED TO TAKE CHANCES

There is a Sure Way of Knowing Good Paint Material.

There is really no need whatever for any property owner to take chances in the selection of his paint materials. It doesn't cost a cent to learn how to be on the safe side. Certainly every property owner has enough at stake to find this out.
