GRIND NEARLY OVER

TARIFF STRUGGLE EXPECTED TO END IN A FEW DAYS.

SENATE TO ACT ON REPORT

Some Statesmen Will Make Speeches Explaining Their Votes, but That Is About All.

Washington.—Unless something happens to provoke heated discussions of a political character, the new tariff bill should be enacted into law and the extraordinary session of congress adjourned before the end of this week.

Inquiry among senators opposed to the adoption of the conference report on the Payne-Aldrich bill indicates that the debate will not be as extended as it threatened to be before the conferees reported.

The senate will meet at 10 a. m. Monday. The session probably will begin at that hour each day and will continue until 6 or 7 o'clock p. m. daily until the report is adopted. If it is found that more senators desire to speak than have already given notice it is possible that evening sessions may be held.

Senator Aldrich is determined that the conference report shall not be carried over into next week. He does not expect to occupy very much time himself. He said that he would not speak longer than an hour or two, and that other members of the committee would occupy comparatively little time.

It is probable that senators who were opposed to the placing of hides on the free list will have something to say on that subject, and that all of the republicans who voted against the bill when it was on its passage in the senate will take occasion to explain their action. Some of these senators will speak for the adoption of the conference report, and some of them are expected to vote in the negative.

Senator Culbertson, leader of the minority, is authority for the statement that the democrats will debate the conference report thoroughly, but will not filibuster against its adoption. Senators Daniel and Bailey, members of the committee on finance, will speak at length against the adoption of the conference report and take the lead in voicing democratic opposition to the new tariff bill.

Some of the senate leaders predict that a vote will be had on the conference report as early as Thursday and that the special session of congress can be brought to a close on Friday.

President Taft will not leave Washington until the tariff bill becomes a law. After signing the bill the president will leave for Beverly, where he will have a stay of something more than five weeks before starting on his long trip through the west and south.

The senate having retained the appropriation of \$25,000 in the urgent deficiency bill for the president's traveling expenses, only one obstacle remains as a possible bar to the trip. That is Mrs. Taft's health. If she continues to improve as steadily as she has done since taking up her residence at Beverly, the president's trip will be assured.

The citizens were astonished at what they saw, for in addition to the grains and grasses there were large fields of peas, corn beets and other products.

HE'S JUST DROPPED IN, IN AN OFFHAND SORT OF WAY.

MARKER ARRESTED FOR THEFT

RETURNS TO TIPTON TO CELEBRATE HIS BIRTHDAY.

Was Fishing in Missouri—Refuses to Discuss \$105,000 Embezzlement Charge.

Tipton, Ind.—Noah R. Marker, former assistant cashier of the First National bank, who was arrested at his home in this city following his return after being a fugitive from justice for a week, and was taken to Muncie for preliminary hearing, is back among his friends.

When taken before Commissioner Ellis at Muncie, Marker was charged with stealing \$50,000. He waived examination, was bound over in the sum of \$10,000 to appear before the federal grand jury at Indianapolis next November.

Marker then was brought back to this city, where a throng of his friends awaited him. Several business men signed his bond, and he was released from custody. Many business men signed their names to an agreement to give security for him in any collective amount up to \$225,000.

Mr. Marker said he had been fishing in Missouri and returned to celebrate his thirty-fifth birthday anniversary with his family. He declined to discuss the affairs of the bank, and refused positively to say what he did with the \$60,000 in cash he is alleged to have taken from the bank.

Marker, according to examiner Weir, is short fully \$105,000, but the amount may run much larger as Mr. Weir's examination has not been completed. The defaulting cashier, it has been stated, spent part of the stolen money in an Indianapolis bucket shop. It is believed his peculations were due to an effort to make good money he had wasted in bad investments.

But though Marker refused to discuss his defalcation at the bank he did not decline to talk to his callers regarding his trip to Missouri.

Marker said he saw two people he knew on the car going to Indianapolis, but encountered no person in the city with whom he was acquainted. He proceeded direct to the union station and bought a ticket for the sleeper to St. Louis. There was no person near the ticket window when the purchase was made. He arrived at St. Louis next morning and in the station he met some men who were going fishing.

He asked about a good place to spend a week and was told that Louisiana, Mo., a city about sixty miles distant, was an ideal place. He went there, obtained board and spent the time tramping the hills or fishing.

Marker said he learned of the sensation his disappearance had caused here when the papers from St. Louis arrived at Louisiana on Tuesday. He discussed the articles with the others at the boarding house, and no one had a suspicion of his identity. He was looked on as a person who came to regain his health, and his name and address were not asked.

WRIGHT BREAKS AIR RECORD

Orville Carries Passenger in Cross-Country Flight and Wins Government Prize.

Washington.—Orville Wright, in a ten-mile cross-country flight in the aeroplane built by himself and his elder brother, Wilbur, and accompanied by Lieut. Benjamin D. Foulois of the army signal corps, broke all speed records over a measured course Friday. Wright's speed was more than 42 miles an hour. The official board determined the speed made. The Wrights will receive \$30,000, including a bonus of \$5,000, for their aeroplane. This provision was made by congress.

Wright's speed was more than 42 miles an hour. He made the ten-mile flight in 14 minutes and 42 seconds, including the more than twenty seconds required for the turn beyond the line at Shuter Hill, the southern end of the course. He attained a height in crossing the valley of Four Mile Run of nearly 500 feet, and the average altitude of his practically level course was about 200 feet.

President Taft arrived upon the parade ground at Fort Myer just in time to see the aeroplane land and to participate in the wild demonstration which welcomed the triumphant aviators. He sent Col. Treat, commanding officer of the artillery at Fort Myer, to bear his congratulations to the victors.

Slayer Holds Own in Battle of Wits and Jerome Fails to Shake Him.

White Plains, N. Y.—Harry K. Thaw, the members of his family and his retinue of attorneys and experts were unanimous in their opinion Wednesday that he has proved his fitness to be at large. His friends believe that if he acquires himself in the future as well as he did under the six-hour grilling administered by District Attorney Jerome, Justice Mills will have no choice but to grant his application for release from Matteawan.

He showed no signs of insanity in the battle of wits with the New York prosecutor.

Although it has been alleged that Thaw has broken with his wife and that she is aiding the opposition, he showed a strong desire to shield her name.

WILSON TO QUIT CABINET?

Secretary of Agriculture, Who Has Record for Service, May Resign in January.

Washington.—That the Taft official family will begin about January to be rounded into its permanent form and membership is the opinion entertained now. It is strongly believed by those who have looked into the situation of late that there will be one change in the cabinet about the turn of the year, which will take out of that body the veteran, Secretary Wilson.

He has been a cabinet member longer than any other man ever was in this country—longer, indeed, it is said than anybody ever was continuously in a responsible government. With his retirement, Mr. Meyer of the navy will be the only remaining representative of the Roosevelt cabinet.

QUAKE KILLS SCORES

MEXICO SHAKEN BY MOST VIOLENT TREMOR IN TWENTY-FIVE YEARS.

SEVERAL CITIES DEVASTATED

Six Dead in Capital and Many Injured—Residents of American Colony Escape Death—People in Panic, Pray in Streets.

Mexico City.—Reports continued to come in Saturday from the district which suffered Friday in the earthquakes which were the most severe this country has experienced in the last 25 years. President Diaz has rushed aid to the devastated towns and the army is giving every assistance to the hundreds of injured.

Reports telling of the loss of life are as yet not complete, but the official figures show that scores were killed outright while many were mortally injured. The towns of Acapulco, Chilpancingo and Chilpancingo, in the state of Guerrero have been partially destroyed.

Reports from the towns of Vera Cruz, Oaxaca, Tlaxotapan, Silcayoapan, Duzman, Meroteon and Pachuca indicate more or less property damage, but no loss of life.

Communication with this part of the republic of Mexico has been imperfectly established.

Acapulco, noted for its great landlocked harbor, is the chief port of call for steamers plying between San Francisco and South American ports. Its population is about 5,000.

Chilpancingo has a population of 8,500. It is about 75 miles from Acapulco. Chilpancingo is about 20 miles from Chilpancingo and has a population of 6,500. The towns were badly wrecked by an earthquake in January, 1902.

According to the observatory records, the first shock was felt at 4:15 in the morning. It was severe, causing the bells of the many cathedrals of the city to toll, breaking crockery and in some instances leveling walls. The inhabitants of the city had hardly recovered from the fright occasioned by the phenomena when a second and more severe shock caused an outpouring of nearly all of the inhabitants to the streets and open plazas. Tall buildings swayed and in some instances cracked, the pavement opened in places and in the poorer sections of the city houses collapsed.

So far as can be learned from police records, six persons lost their lives in Mexico City and its environs as a result of the second shock, including three women and a child. Four others are expected to die.

The large American colony escaped unscathed. There were some slight contusions reported among them from falling plaster, but no serious injuries were reported.

The property damage in this city is slight. Some of the cathedral walls were cracked and scores of adobe walls were sent to the ground, but the main business part of the capital showed absolutely no signs of the severe shaking which it had given.

The wailing and praying of the Indians in the public squares added to the weirdness of the scene and painted an unforgettable picture on the minds of the half-clad, shivering hordes of frightened men, women and children who stood out in the drizzling rain waiting for the coming of daylight. When the sun shone the people returned to their homes, having sufficiently recovered from the fright to sit down to breakfast.

HARVEST HANDS IN DEMAND.

Work for Thousands of Men at Good Wages Awaiting Them in the Northwest.

St. Paul, Minn.—For the purpose of assisting the farmers of the northwest to obtain an adequate supply of help for the abundant harvest that is now assured, and also to direct men seeking work to the various places where their services are in demand, the Northern Pacific Railway Company has issued a circular telling where in the states of Minnesota and North Dakota several thousand men will be needed in the next few weeks.

This circular gives the names of the various towns along the line of road, the date at which harvest will begin, the number of men wanted at each point and the rates of wages. The lowest rate of wages quoted is \$1.50 a day, but the general rate is from \$2 to \$3. A small army of men is needed.

SPAIN IS FEELING EASIER

SURRENDER OF BARCELONA REBELS CREATES RELIEF.

Moors Reported Withdrawn from Outskirts of Melilla City—Estimates of Riot Casualties.

Madrid.—The news from Barcelona that the cavalry and troops have gained the upper hand and captured the main body of insurgents and that only isolated bands are holding out in the suburbs created the greatest relief in official circles Friday. The work of repression will rapidly be followed up throughout the Catalonian province.

It was officially announced that the cavalry engaged at Barcelona had succeeded in driving into St. Martin's square the principal band of revolutionists, against whom the artillery opened fire. After fighting desperately and successfully for a long time the revolutionists were surrounded. Many persons were killed in the fighting and the survivors surrendered.

The Moors have withdrawn from the outskirts of Melilla City. It is believed they are concentrating for a new effort. They burned hundreds of their dead, who they were unable to carry off.

After the tribesmen had retired the sad work of burying the Spanish dead, which already were rotting in the sun, was hurriedly accomplished in the ravine where two columns of Spanish troops were ambushed while trying to rescue a convoy. The ground was covered with corpses.

No figures, not even estimates, of the loss of property and life in Catalonia is vouchsafed by the authorities, but private dispatches leaking out through the frontier indicate that there has been great slaughter at Barcelona, one report placing the dead at 400 and the wounded at 1,000.

Up to Wednesday morning the troops in Barcelona had not fired a shot. In the meantime, churches, convents and colleges had been burned and the sky illuminated by the flames. Dozens of priests and nuns were ruthlessly slaughtered, some at the altar while holding the crucifix in their hands, others while bravely defending their institutions against the revolutionists and devouring flames, the populace preventing the Red Cross workers from giving aid.

It is understood that the king greatly regretted the necessity of using artillery but yielded to the arguments of his cabinet ministers that halfway measures or temporization might prove fatal. Reports continue to filter in of the widest destruction of property, especially churches, monasteries and convents, against which the fury of the mob was centered.

The only other regions creating particular anxiety are the Biscayan provinces. The workmen in the Bilbao mining districts are well organized and have assumed a threatening attitude.

PULLIAM'S WOUND IS FATAL.

Baseball Leader's Attempt at Suicide Successful—Secretary Heydler Takes Charge.

New York.—John A. Heydler, secretary and treasurer of the National League of Professional Baseball Clubs, and in all probability the next president, Friday arranged for the funeral of Harry C. Pulliam, the president who killed himself. It is believed Pulliam's body will be taken to Louisville for burial.

It was learned that President Pulliam's last official act before firing the bullet that ended his life was to direct a circular letter to club presidents of the league, notifying them that the time for keeping park flags at half-mast as a token of respect to the memory of President George B. Doney of the Boston club and President Israel W. Durham of Philadelphia, who died recently, had expired.

The belief seems to be general that Heydler will be chosen to succeed Pulliam, practically without opposition.

P. T. Powers, president of the Eastern league, said he had known for the last four years that Pulliam was brooding dangerously over some trouble.

"It always seemed to me," said Mr. Powers, "that it was some deep personal trouble that bothered Harry. He was always a square man. Of course he naturally made enemies in backing up umpires, because that can't be helped, but he would stand behind his umpires through thick and thin. He took baseball matters too seriously, I think."

Is Not Belleville Slayer.

Denver, Col.—Roy L. Griswold is not the man wanted for the murder of Peter Waeltz at Belleville, Ill., last November. Sheriff Charles Cashel of St. Clair county, Illinois, arrived at Georgetown where Griswold has been under arrest for the last three days and declared positively that he is not Sidney Baker, the photographer wanted. Griswold was released.
