A brother and family, living in Washington, were guests of his in camp while there, as was also for a short time a brother of Mrs. Nightingale, whom she had not seen for thirty years, and who is chief engineer on one of the big freighting ships plying between England and the Pacific Coast, and Mr. Nightingale and his party had the pleasure of visiting and dining on the Leviathan monster and inspecting the mammoth ship in its every part. They also visited the Oregon and other big warships in the harbor, and made a trip to Vancouver and through the famous Stanley Park, one of the most beautiful in the world, and to Victoria in the British possessions, the base of naval supplies and fortifications of our English cousins, and inspected the fortress and city which possess great numbers of residences built on the old colonial style and which are the homes of large numbers of retired English officers on half pay, they being able to live there cheaper and more satisfactorily on their money than in the old country. In fact, Mr. Nightingale and his family had one of the most interesting outings of their lives and one never to be forgotten. Mr. Nightingale reports his wife and daughter feeling fine and he himself gives ample evidence of renewed youth over his stay on the Pacific Coast.
